

A1-9

Cooker size	90x60 cm
N. of cavities with energy label	1
Cavity heat source	Electric
Hob type	Gas
Type of main oven	Thermo-ventilated
Cleaning system main oven	Catalytic
EAN code	8017709229160
Energy efficiency class	A+

Aesthetics

Aesthetics	Classic	Control knobs	Smeg Classic
Series	Opera	Controls colour	Stainless steel
Design	Professional	No. of controls	8
Colour	Stainless steel	Serigraphy colour	Black
Finishing	Fingerproof	Display	TFT
Command panel finish	Finger friendly stainless steel	Display languages	DA, DE, EN, ES, FR, IT, NL, PL, PT, RU, SV
Logo	Assembled st/steel	Door	With 2 horizontal strips
Logo position	Facia below the oven	Glass type	dark grey
Upstand	Yes	Handle	Smeg Classic
Hob colour	Stainless steel	Handle Colour	Brushed stainless steel
Type of pan stands	Cast Iron	Storage compartment	Drawer
Type of control setting	Control knobs		

Programs / Functions

No. of cooking functions	10
--------------------------	----

Traditional cooking functions

- Static
- Fan assisted
- Circulaire
- Turbo (circulaire + bottom + upper + fan)
- ECO
- Small grill
- Large grill
- Fan grill (large)
- Base
- Fan assisted base

Other functions

- Defrost by time
- Defrost by weight
- Plate rack/warmer
- Proving
- Sabbath

Cleaning functions

- Catalytic
- Vapor Clean

Customisable recipes 10
Automatic programs 50

Hob technical features

- UR**
- Total no. of cook zones** 6
- Front left - Gas - 2UR (dual) - 4.20 kW
- Rear left - Gas - Rapid - 3.00 kW
- Front centre - Gas - AUX - 1.00 kW
- Rear centre - Gas - Semi Rapid - 1.80 kW
- Front right - Gas - Semi Rapid - 1.80 kW
- Rear right - Gas - Rapid - 3.00 kW
- Type of gas burners** Standard
- Gas safety valves** Yes
- Automatic electronic ignition** Yes
- Burner caps** Matt black enamelled

Main Oven Technical Features

- No. of lights** 2
- Total no. of door glasses** 3

Fan number	3	No. of thermo-reflective door glasses	2
Net volume of the cavity	115 litres	Safety Thermostat	Yes
Gross volume, 1st cavity	129 l	Heating suspended when door is opened	Yes
Cavity material	Easy clean enamel	Cooling system	Tangential
Shelf positions	5	Usable cavity space dimensions (HxWxD)	371x724x418 mm
Type of shelves	Metal racks	Temperature control	Electronic
Light type	Halogen	Lower heating element power	1700 W
Light power	40 W	Upper heating element - Power	1200 W
Cooking time setting	Start and Stop	Grill element	1700 W
Light when oven door is open	Yes	Large grill - Power	2900 W
Door opening	Flap down	Circular heating element - Power	1500 W
Removable door	Yes	Grill type	Electric
Full glass inner door	Yes	Soft Close system	Yes
Removable inner door	Yes		

Options Main Oven

Timer	Yes	Minimum Temperature	50 °C
End of cooking acoustic alarm	Yes	Maximum temperature	280 °C

Accessories included for Main Oven & Hob

Cast iron wok support	1	Grill mesh	1
Rack with back and side stop	1	Catalytic panels	3
20mm deep tray	1	Telescopic Guide rails, partial Extraction	1
40mm deep tray	1		

Electrical Connection

Max Power Draw	3200 W	Power supply cable length	120 cm
Current	14 A	Frequency	50/60 Hz
Voltage	220-240 V	Terminal block	3 poles
Type of electric cable	Yes, Single phase		

Not included accessories

AIRFRY9

Air fryer rack AIRFRY . Ideal for recreating traditional frying in the oven, but with fewer calories and less fat. It allows you to cook quickly and simply dishes such as French fries, fried vegetables and fish, ensuring perfect browning and crispiness.

KITH95A1X

Height extension kit (950 mm), stainless steel, suitable for Opera A1 cookers

PRTX

Refractory pizza stone with handles. D=35cm Not suitable for microwave ovens. Suitable for gas ovens, to be put on the griddle.

KIT2A1-9

Plinth, 90 cm, stainless steel suitable for A1-9 Opera cooker

BBQ9

TPKX

Teppanyaki stainless steel

GTT

Totally extractable telescopic guides (1 level) Extraction: 433 mm Material: Stainless steel AISI 430 polished

SFLK1

Child lock

GTP

Partially extractable telescopic guides (1 level) Extraction: 300 mm Material: Stainless steel AISI 430 polished

PPR9

Refractory pizza stone without handles. Squared shaped stone: L64xH2,3xP37,5 cm Suitable also for gas ovens, to be put on the griddle.

GRM

Gas hobs moka support

KIT1A1-9

Splashback, 90x75 cm, stainless steel, suitable for Opera A1-9 cookers

PALPZ

Pizza shovel with fold away handle width: 315mm length : 325mm

SMOLD

Set of 7 silicone moulds for ice creams, ice lollies, pralines, ice cubes or to portion food. Usable from -60°C to +230°C

Symbols glossary

-  Triple Fan Technology: The oven is equipped with an exclusive three fan system, which, combined with the increased power of the motors, enables excellent cooking performance. The two large side fans distribute the air around the outer perimeter of the cavity while the smaller central fan increases ventilation by creating a vertical vortex of heat. Accordingly, the temperature within the cavity is uniform, allowing food to be cooked evenly on all five levels, like in professional kitchens.
-  Heavy duty cast iron pan stands: for maximum stability and strength.
-  Installation in column: Installation in column
-  Defrost by time: with this function the time of thawing of foods are determined automatically.
-  Triple glazed doors: Number of glazed doors.
-  Fingerprint proof stainless steel: Fingerprint proof stainless steel keeps stainless steel looking as good as new.
-  Fan with upper and lower elements: The elements combined with the fan aim to provide more uniform heat, a similar method to conventional cooking, so pre-heat is required. Most suitable for items requiring slow cooking methods.
-  Lower heating element only: This function is ideal for foods that require extra base temperature without browning, e.g. pastry dishes, pizza. Also suitable for slow cooking of stews and casseroles.
-  A+: Energy efficiency class A+ helps to save up to 10% energy compared to class A. Maximum performance with minimum consumption is guaranteed.
-  Catalytic cleaning: the system ensures perfect hygiene inside the oven thanks to the three self-cleaning panels coated with a special enamel that promotes the progressive elimination of traces of grease and odors caused by cooking.
-  Air cooling system: to ensure a safe surface temperatures.
-  Defrost by weight: With this function the defrosting time is determined
-  Enamel interior: The enamel interior of all Smeg ovens have a special antacid lining which helps keep the interior clean by reducing the amount of cooking grease adhering to it.
-  Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.
-  Upper and lower element only: a traditional cooking method best suited for single items located in the centre of the oven. the top of the oven will always be hottest. Ideal for roast, fruit cakes, bread etc.
-  Circulaire: The combination of the fan and circular element around it gives a hot air cooking method. This provides many benefits including no preheat if cook time is more than 20 minutes, no flavour transfer when cooking different foods at the same time, less energy, and shorter cook times. Good for all types of food.

- | | |
|---|--|
|  <p>ECO: The combination of the grill, fan and lower element is particularly suitable for cooking small quantities of food.</p> |  <p>Grill element: Using of grill gives excellent results when cooking meat of medium and small portions, especially when combined with a rotisserie (where possible). Also ideal for cooking sausages and bacon.</p> |
|  <p>Half grill: For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.</p> |  <p>Fan with grill element: The fan reduces the fierce heat from the grill, providing an excellent method of grilling various foods, chops, steaks, sausages etc. giving even browning and heat distribution, without drying out the food. The top two levels recommended for use, and the lower part of the oven can be used to keep items warm at the same time, an excellent facility when cooking a grilled breakfast. Half grill (centre portion only) is ideal for small quantities of food.</p> |
|  <p>Circulaire with upper and lower elements: The use of the fan with both elements allows food to be cooked quickly and effectively, ideal for large joints that require thorough cooking. It offers a similar result to rotisserie, moving the heat around the food, instead of moving the food itself, enabling any size or shape to be cooked.</p> |  <p>Gas ovens offer instantaneous heat control, reduced cooking times and the ability to bake at much lower temperatures than electric ovens.</p> |
|  <p>All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.</p> |  <p>The inner door glass: can be removed with a few quick movements for cleaning.</p> |
|  <p>Side lights: Two opposing side lights increase visibility inside the oven.</p> |  <p>Automatic opening: some models have Automatic opening door when the cycle is finished which is a perfect solution for handle-less kitchen units as no handle is needed. For safety reasons, the door locks automatically when the machine is in use to avoid it being opened inadvertently.</p> |
|  <p>Warming up: An option for dish warming and keeping the prepared meals hot.</p> |  <p>Air at 40°C provides the perfect environment for proving yeast type dough mixes. Simply select the function and place dough in the cavity for allotted</p> |
|  <p>Sabbath: This function allows you to cook food whilst respecting the provisions of the Jewish day of rest.</p> |  <p>The oven cavity has 5 different cooking levels.</p> |
|  <p>Soft close: all models are equipped with advanced function of smooth closing of the door, which allows the device to close smoothly and quietly.</p> |  <p>Telescopic rails: allow you to pull out the dish and check it without having to remove it from the oven entirely.</p> |
|  <p>Electronic control: Allows you to maintain temperature inside the oven with the precision 2-3 ° C. This enables to cook meals that are very sensitive to temperature changes, such as cakes, souffles, puddings.</p> |  <p>Ultra rapid burners: Powerful ultra rapid burners offer up to 5kw of power.</p> |
|  <p>Vapor Clean: a simple cleaning function using steam to loosen deposits in the oven cavity.</p> |  <p>The capacity indicates the amount of usable space in the oven cavity in litres.</p> |

...

Knobs control

Benefit

True-convection

The best cooking performances guaranteed by ventilated circular flow.

Multiple fans and heating elements guarantee the perfect aerodynamic heat flow, allowing homogeneous and quicker cooking inside the cavity.

Gas hob

Induction offers fast cooking and precise temperature control

Equipped with a thermocouple, the gas supply is cut off if the flame is extinguished for greater safety

Catalysis

Easy oven cleaning through the use of catalytic panels in the cavity

This permanent process allows continuous cleaning and degreasing of the three cavity walls, starting its grease oxidation phase when the oven reaches 200°C.

Isothermic Cavity

The best cooking performance at the highest energy efficiency

Triple Turbine

The oven has three fans and two circular heating elements, allowing cooking with rotating heat

Tangential cooling

New cooling system with tangential fan and airflow from the door to the splashback

Soft close

The door is equipped with a specific system for silent closing

LCD display

Easy and intuitive user-experience and cook with a simple touch.

Multilevel halogen light

Internal halogen lighting on different levels guarantees excellent visibility

Electronic control

Electronic control for timely temperature management and heat uniformity

Telescopic guides

Easy extraction and safe insertion of trays into the oven thanks to telescopic guides

Adjustable height

Cooker top flushed with the working area thanks to adjustable feet

Sabbath mode

Possibility of cooking food in compliance with the provisions of the Jewish religious holiday of rest, thanks to Sabbath mode

Removable inner glass

Internal door glasses are easily removable for complete cleaning

Multilevel cooking

Several cooking levels allow maximum flexibility of use

Cold door

During any function, the external door glass is cold, avoiding any risk of burns

AirFry (AIRFRY optional accessory)

Lighter and tastier food thanks to airfry basket

Drawer storage compartment

More space thanks to the lower compartment, ideal for storing accessories or cooking utensils

BBQ (optional accessory)

Barbeque cooking directly in the oven with the double-sided grill

Pizza stone (optional accessory)

Baking with refractory stone for soft and crispy pizza and yeast products (STONE optional accessory)
