A11XPY-9

Cooker size	90x60 cm
N. of cavities with energy label	1
Cavity heat source	ELECTRICITY
Hob type	Gas
Type of main oven	Thermoseal
Cleaning system main oven	Pyrolitic
EAN code	8017709272470

Aesthetics

Design	Professional	**Control knobs**	Smeg Classic
Command panel finish	Finger friendly stainless steel	**Controls colour**	Stainless steel
		No. of controls	8
Aesthetic	Classic	**Serigraphy colour**	Black
Logo	Assembled st/steel	**Display**	TFT
Colour	Stainless steel	**Display languages**	DA, DE, EN, ES, FR, IT, NL, PL, PT, RU, SV
Logo position	Facia below the oven		
Finishing	Fingerproof	**Door**	With 2 horizontal strips
Upstand	Yes	**Glass type**	eclypse
Serie	Opera	**Handle**	Smeg Classic
Hob colour	Stainless steel	**Handle Colour**	Brushed stainless steel
Type of pan stands	Cast Iron	**Storage compartment**	Drawer
Type of control setting	Control knobs		

Programs / Functions

No. of cooking functions	10

Traditional cooking functions

- Static
- Fan assisted
- Circulaire
- Eco
- Small grill
- Large grill
- Fan grill (large)
- Base
- Fan assisted bottom
- Circulaire + bottom

Other functions

- Defrost by time
- Defrost by weight
- Plate rack/warmer
- Proving
- Sabbath

Cleaning functions

- Vapour Clean

Hob technical features

UR

Total no. of cook zones 6

Front left - Gas - 2UR (dual) - 4.20 kW
Rear left - Gas - Rapid - 3.00 kW
Front centre - Gas - AUX - 1.00 kW
Rear centre - Gas - Semi Rapid - 1.80 kW
Front right - Gas - Semi Rapid - 1.80 kW
Rear right - Gas - Rapid - 3.00 kW

Type of gas burners	Standard	**Gas safety valves**	Yes
Automatic electronic ignition	Yes	**Burner caps**	Matte black enamelled

Main Oven Technical Features

No. of lights	2	**Total no. of door glasses**	3
Fan number	3	**No.of thermo-reflective door glasses**	2
Net volume of the cavity	115 l	**Safety Thermostat**	Yes
Gross volume, 1st cavity	126 l	**Heating suspended when door is opened**	Yes
Cavity material	Ever Clean enamel		
No. of shelves	5	**Cooling system**	Tangential
Type of shelves	Metal racks		

Light type	Halogen
Light Power	40 W
Cooking time setting	Start and Stop
Light when oven door is open	Yes
Door opening	Flap down
Removable door	Yes
Full glass inner door	Yes
Removable inner door	Yes
Usable cavity space dimensions (HxWxD)	371x724x418 mm
Temperature control	Electronic
Lower heating element power	1700 W
Upper heating element - Power	1200 W
Grill elememt	1700 W
Large grill - Power	2900 W
Circular heating element - Power	1500 W
Grill type	Electric
Tilting grill	Yes
Soft Close system	Yes

Options Main Oven

Timer	Yes
End of cooking acoustic alarm	Yes
Minimum Temperature	50 °C
Maximum temperature	250 °C

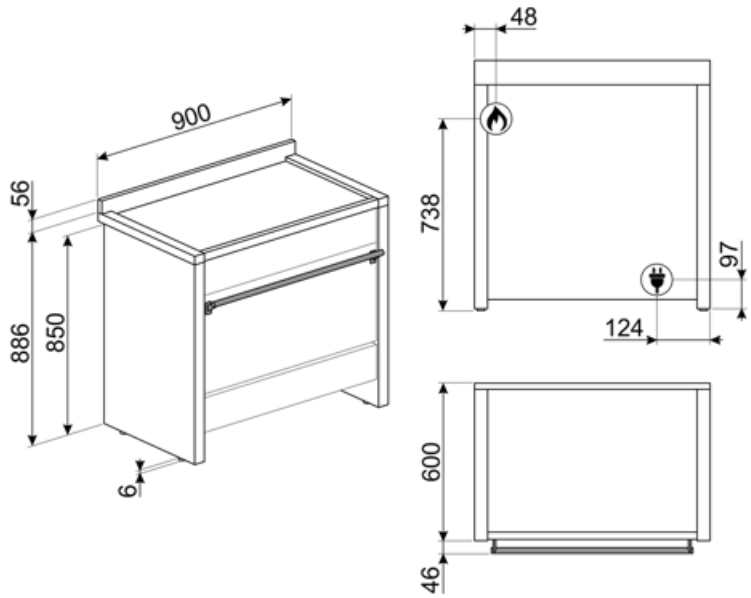

Accessories included for Main Oven & Hob

Cast iron wok support	1
Rack with back and side stop	1
20mm deep tray	1
40mm deep tray	1
Grill mesh	1
Telescopic Guide rails, partial Extraction	1

Electrical Connection

Electrical connection rating	4000 W
Current	18 A
Voltage	220-240 V
Voltage 2 (V)	380-415 V
Type of electric cable installed	Yes, Single phase
Power supply cable length	120 cm
Type of electric cable	Yes, Double and Three Phase
Frequency	50/60 Hz
Terminal block	3 poles
Plug	(I) Australia

Compatible Accessories

AIRFRY9

Air fryer rack AIRFRY . Ideal for recreating traditional frying in the oven, but with fewer calories and less fat. It allows you to cook quickly and simply dishes such as French fries, fried vegetables and fish, ensuring perfect browning and crispiness.

BBQ9

teflon-coated aluminum grid for 90 cm cavity

BN920

Enamelled tray 90cm cavity, 20mm deep

BN940

Enamelled tray 90 cm, 40 mm deep

GRM

Gas hobs moka support

GTP

Partially extractable telescopic guides (1 level) Extraction: 300 mm Material: Stainless steel AISI 430 polished

GTT

Totally extractable telescopic guides (1 level) Extraction: 433 mm Material: Stainless steel AISI 430 polished

KIT2A1-9

Plinth, 90 cm, stainless steel suitable for A1-9 Opera cooker

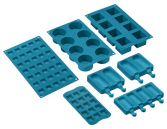

PALPZ

Pizza shovel with fold away handle width: 315mm length : 325mm

SFLK1

Child lock

SMOLD

Set of 7 silicone moulds for ice creams, ice lollies, pralines, ice cubes or to portion food. Usable from -60°C to +230°C

Symbols glossary

Triple Fan Technology: The oven is equipped with an exclusive three fan system, which, combined with the increased power of the motors, enables excellent cooking performance. The two large side fans distribute the air around the outer perimeter of the cavity while the smaller central fan increases ventilation by creating a vertical vortex of heat. Accordingly, the temperature within the cavity is uniform, allowing food to be cooked evenly on all five levels, like in professional kitchens.

Installation in column: Installation in column

Air cooling system: to ensure a safe surface temperatures.

Defrost by weight: With this function the defrosting time is determined

Triple glazed doors: Number of glazed doors.

Fingerprint proof stainless steel: Fingerprint proof stainless steel keeps stainless steel looking as good as new.

Fan with upper and lower elements: The elements combined with the fan aim to provide more uniform heat, a similar method to conventional cooking, so pre-heat is required. Most suitable for items requiring slow cooking methods.

Lower heating element only: This function is ideal for foods that require extra base temperature without browning, e.g. pastry dishes, pizza. Also suitable for slow cooking of stews and casseroles.

Circulaire: The combination of the fan and circular element around it gives a hot air cooking method. This provides many benefits including no preheat if cook time is more than 20 minutes, no flavour transfer when cooking different foods at the same time, less energy, and shorter cook times. Good for all types of food.

Heavy duty cast iron pan stands: for maximum stability and strength.

Knobs control

Defrost by time: with this function the time of thawing of foods are determined automatically.

...

Enamel interior: The enamel interior of all Smeg ovens have a special antacid lining which helps keep the interior clean by reducing the amount of cooking grease adhering to it.

Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.

Upper and lower element only: a traditional cooking method best suited for single items located in the centre of the oven. the top pf the oven will always be hottest. Ideal for roast, fruit cakes, bread etc.

Circulaire with lower element: The addition of the lower element adds extra heat at the base for food which requires extra cooking.

ECO: The combination of the grill, fan and lower element is particularly suitable for cooking small quantities of food.

Grill element: Using of grill gives excellent results when cooking meat of medium and small portions, especially when combined with a rotisserie (where possible). Also ideal for cooking sausages and bacon.

Half grill: For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.

Fan with grill element: The fan reduces the fierce heat from the grill, providing an excellent method of grilling various foods, chops, steaks, sausages etc. giving even browning and heat distribution, without drying out the food. The top two levels recommended for use, and the lower part of the oven can be used to keep items warm at the same time, an excellent facility when cooking a grilled breakfast. Half grill (centre portion only) is ideal for small quantities of food.

All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.

The inner door glass: can be removed with a few quick movements for cleaning.

Side lights: Two opposing side lights increase visibility inside the oven.

Automatic opening: some models have Automatic opening door when the cycle is finished which is a perfect solution for handle-less kitchen units as no handle is needed. For safety reasons, the door locks automatically when the machine is in use to avoid it being opened inadvertently.

Pyrolitic: Pyrolitic cleaning cycles can be selected as necessary to automatically clean the oven interior.

Warming up: An option for dish warming and keeping the prepared meals hot.

Air at 40°C provides the perfect environment for proving yeast type dough mixes. Simply select the function and place dough in the cavity for allotted

Sabbath: This function allows you to cook food during the Sabbath, the Holiday of rest in the Jewish religion, respecting the precepts. The oven works

The oven cavity has 5 different cooking levels.

Soft close: all models are equipped with advanced function of smooth closing of the door, which allows the device to close smoothly and quietly.

Telescopic rails: allow you to pull out the dish and check it without having to remove it from the oven entirely.

Electronic control: Allows you to maintain temperature inside the oven with the precision 2-3 ° C. This enables to cook meals that are very sensitive to temperature changes, such as cakes, souffles, puddings.

Tilting grill: the tilting grill can be easily unhooked to move the heating element and clean the roof of the appliance in one simple step.

Ultra rapid burners: Powerful ultra rapid burners offer up to 5kw of power.

Vapour Clean: a simple cleaning function using steam to loosen deposits in the oven cavity.

The capacity indicates the amount of usable space in the oven cavity in litres.
