

A2PYID-81

Cooker size	100x60 cm
N. of cavities with energy label	2
Cavity heat source	ELECTRICITY
Hob type	Induction
Type of main oven	Thermo-ventilated
Type of second oven	Static
Cleaning system main oven	Pyrolitic
EAN code	8017709256777
Energy efficiency class	A
Energy efficiency class, second cavity	A

Aesthetics

Aesthetic	Classica	Type of control knobs	Smeg Classic
Series	Opera	Controls colour	Stainless steel
Design	Professional	No. of controls	9
Colour	Stainless steel	Serigraphy colour	Black
Finishing	Satin	Display name	DigiScreen
Command panel finish	Stainless steel	Door	With 2 horizontal strips
Logo	Assembled st/steel	Glass type	Eclipse
Logo position	Facia below the oven	Handle	Smeg Classic
Upstand	Yes	Handle Colour	Brushed stainless steel
Hob colour	Stainless steel	Storage compartment	Drawer
Type of control setting hob	Control knobs

Hob technical features

Total no. of cook zones 5

Front left - Induction - single - 1.40 kW - Booster 2.20 kW - Ø 14.5 cm

Rear left - Induction - single - 1.85 kW - Booster 3.00 kW - Ø 18.0 cm

Central - Induction - single - 2.60 kW - Booster 3.70 kW - Ø 27.0 cm

Rear right - Induction - single - 2.30 kW - Booster 3.70 kW - Ø 21.0 cm

Front right - Induction - single - 1.40 kW - Booster 2.20 kW - Ø 14.5 cm

No. of cooking zones with Booster	5	Minimum pan diameter indication	Yes
Automatic switch off when overheat	Yes	Selected zone indicator	Yes
Automatic pan detection	Yes	Residual heat indicator	Yes

Main Oven Technical Features

No. of lights	1	No. of thermo-reflective door glasses	3
Fan number	1	Safety Thermostat	Yes
Net volume of the cavity	61 l	Cooling system	Tangential
Gross volume, 1st cavity	68 l	Door Lock During Pyrolysis	Yes
Cavity material	Ever Clean enamel	Usable cavity space dimensions (HxWxD)	316x460x412 mm
No. of shelves	4	Temperature control	Electro-mechanical
Type of shelves	Metal racks	Lower heating element power	1200 W
Light type	Halogen	Upper heating element - Power	1000 W
Light Power	40 W	Grill element	1700 W
Cooking time setting	Start and Stop	Large grill - Power	2700 W
Light when oven door is open	Yes		
Door opening	Flap down		
Removable door	Yes		
Total no. of door glasses	4		

Circular heating element - Power	2000 W
Grill type	Electric
Tilting grill	Yes

Options Main Oven

Timer	Yes	Minimum Temperature	50 °C
End of cooking acoustic alarm	Yes	Maximum temperature	280 °C

Second Oven Technical Features

Net volume of the second cavity	35 l	No. total door glasses	3
Gross volume, 2nd cavity	39 l	No. thermo-reflective door glasses	2
Cavity material	Ever Clean enamel	Safety Thermostat	Yes
No. of shelves	4	Cooling system	Tangential
Type of shelves	Metal racks	Usable cavity space dimensions (HxWxD)	310x255x417 mm
Roof Liner	Yes	Temperature control	Electro-mechanical
No. of lights	1	Lower heating element - power	750 W
Light type	Incandescent	Upper heating element - Power	600 W
Light Power	25 W	Grill element - power	1300 W
Light when oven door is open	Yes	Large grill - Power	2050 W
Door opening	Flap down	Grill type	Electric
Removable door	Yes		

Options Auxiliary Oven

Minimum Temperature	50 °C	Maximum temperature	250 °C
---------------------	-------	---------------------	--------

Accessories included for Main Oven & Hob

Rack with back and side stop	1	40mm deep tray	1
20mm deep tray	1	Grill mesh	1

Accessories included for Secondary Oven

Rack with back and side stop	1	Grill mesh	1
Wide baking tray	1		

Electrical Connection

Plug	Not present	Voltage 2 (V)	380-415 V
Electrical connection rating	12500 W	Power supply cable length	200 cm
Current	37 A	Frequency	50/60 Hz
Voltage	220-240 V	Terminal block	3 poles

Not included accessories

AIRFRY

Air fryer rack AIRFRY . Ideal for recreating traditional frying in the oven, but with fewer calories and less fat. It allows you to cook quickly and simply dishes such as French fries, fried vegetables and fish, ensuring perfect browning and crispiness.

GTP

Partially extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

BNP608T

Teflon-coated tray, 8mm depth, to be placed on the grid

KIT2A2-8

Plinth, 100 cm, only frontal, stainless steel ,suitable for A2 Opera cookers

BN620-1

Enamelled tray suitable for 45cm and 60cm ovens. Depth 20 mm. Perfect for a wide range of savoury and sweet baking.

BBQ

Double sided plate BBQ. Suitable for recreating succulent and crispy dishes in the oven with the typical taste of grilled cooking. The ribbed side is particularly suitable for meats and cheeses. The smooth side for fish, seafood and vegetables.

PALPZ

Pizza shovel with folding handle. Dimensions L31.5 x H32.5 cm. Easy and convenient to use and store. Perfect for serving pizza, bread and savory pastries in a safe and professional way.

SFLK1

Child lock

PRTX

Refractory pizza stone with handles. D=35cm Not suitable for microwave ovens. Suitable for gas ovens, to be put on the griddle.

GRILLPLATE

Universal griddle for induction, gas, ceramic and electric hobs. Non-stick surface ideal for cooking meat, cheese and vegetables. Dimensions: 410 x 240 mm.

KIT3-6

Height extension kit 2 lateral sides (950mm), stainless steel, for Opera cookers A2,A3,A4 (945-965mm)

SCRP

Non-scratch hob scraper - suitable for induction and ceramic hobs

TPKPLATE

Universal plate for induction, gas, ceramic and electric hobs. Non-stick surface ideal for cooking fish, eggs and vegetables. Dimensions: 410 X 240 mm.

GTT

Totally extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

BN640

Enamelled tray suitable for 45cm and 60cm ovens. Depth 540 mm. Perfect for cooking and roasting meat and fish in sauces. Also ideal for experimenting with lighter and crunchy side dishes

SMOLD

Set of 7 silicone moulds for ice creams, ice lollies, pralines, ice cubes or to portion food. Usable from -60°C to +230°C

Symbols glossary (TT)

 <p>Power booster: option allows the zone to work at full power when very intense cooking is necessary.</p>	
 <p>Installation in column: Installation in column</p>	 <p>Air cooling system: to ensure a safe surface temperatures.</p>
 <p>4.3 inch display with LED technology, usability with knobs + 3 touch keys</p>	 <p>Triple glazed doors: Number of glazed doors.</p>
 <p>Quadruple glazed: Number of glazed doors.</p>	 <p>Ever Clean Enamel: Ever Clean enamel is applied electrostatically, corner to corner and edge to edge to prevent cracking or cracks over time. It is a particular pyrolytic enamel, resistant to acids which, in addition to being pleasantly bright, promotes greater cleaning of the oven walls, thanks to its lower porosity. It is baked at over 850 ° C and slowly polymerized at a scientifically determined rate to ensure uniform depth and strength Ever Clean enamel creates an impeccable finish both on the inside of the oven and on the trays, making the surfaces of the oven incredibly easy to maintain over time as it reduces the adhesion of fat during cooking</p>
 <p>Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.</p>	 <p>Fan assisted: Intense and homogeneous traditional cooking, also suitable for complex recipes. The fan is active and the heat comes from below and from above at the same time. Ventilated cooking ensures a faster and more homogeneous result, leaving fragrant foods outside and moister inside. Ideal for baked pasta, biscuits, roasts and cobblers.</p>
 <p>Static: Traditional cooking suitable for the preparation of one dish at a time. The fan is not active and the heat comes from below and from above at the same time. Static cooking is slower and more delicate, ideal in order to get well cooked and dry dishes even inside. Ideal for cooking all types of roasts, fatty meats, bread, filled cakes.</p>	 <p>Base: the heat comes only from the bottom of the cavity. The fan is not active. Ideal for sweet and savory pies, cobblers and pizzas. Designed to complete cooking and make food more crunchy This symbol in gas ovens indicates the gas burner.</p>
 <p>Circulaire: it is the perfect function for cooking all types of dishes in a more delicate way. The heat comes from the back of the oven and is distributed quickly and evenly The fan is active. It is also ideal for cooking on multiple levels without mixing smells and flavors.</p>	 <p>ECO: low energy consumption cooking: this function is particularly suitable for cooking on a single shelf with low energy consumption. It is recommended for all types of food except those that can generate a lot of moisture (for example vegetables). To achieve maximum energy savings and reduce time, it is recommended to put the food in the oven without preheating the cooking compartment</p>

- | | |
|--|--|
|  <p>Fan with grill element: The fan reduces the fierce heat from the grill, providing an excellent method of grilling various foods, chops, steaks, sausages etc. giving even browning and heat distribution, without drying out the food. The top two levels recommended for use, and the lower part of the oven can be used to keep items warm at the same time, an excellent facility when cooking a grilled breakfast. Half grill (centre portion only) is ideal for small quantities of food.</p> |  <p>Grill: Very intense heat coming only from above from a double heating element. The fan is not active. Provides excellent grilling and gratinating results. Used at the end of cooking, it gives a uniform browning to dishes.</p> |
|  <p>Half grill: For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.</p> |  <p>Rotisserie with half grill: These symbols allow use of the rotisserie with half grill.</p> |
|  <p>Turbo: the heat comes from 3 directions: above, below and from the back of the oven The fan is active. It allows quick cooking, even on several shelves without mixing the aromas. Ideal for large volumes or foods that require intense cooking.</p> |  <p>Top element only: This is used from above only, and is ideal for foods that are finished off with golden topping but do not require the full heat from the grill. Dishes such as Lasagne, potato topped foods, and cheese topped recipes benefit from this mode.</p> |
|  <p>Overheat protection: The safety system that automatically turns off the hob in case of overheating of the control unit.</p> |  <p>Induction: The work of these hobs is based on the principle of electromagnetic induction. The heat is generated directly in the bottom of the pan during its contact with the hob.</p> |
|  <p>Side lights: Two opposing side lights increase visibility inside the oven.</p> |  <p>Automatic opening: some models have Automatic opening door when the cycle is finished which is a perfect solution for handle-less kitchen units as no handle is needed. For safety reasons, the door locks automatically when the machine is in use to avoid it being opened inadvertently.</p> |
|  <p>PYROLYSIS - AUTOMATIC CLEANING FUNCTION: the oven heats up to a temperature approaching 500 ° C and chars grease and food residues into a fine ash that can be easily wiped off with a damp cloth. At such a high temperature, the door locks automatically for safety, while the temperature of the door remains controlled so it is safe to touch User adjustable function based on the level of dirt present in the oven.</p> |  <p>Indication of residual heat: After the glass ceramic hob is switched off the residual heat indicator shows which of the heating zones still remains hot. When the temperature drops below 60 ° C, the indicator goes out.</p> |
|  <p>Removable roof liner: This is a perfect solution that protects the upper part of the cavity of the oven from pollution. Easy to remove for cleaning, it can be washed in the dishwasher.</p> |  <p>The oven cavity has 4 different cooking levels.</p> |
|  <p>Electronic control: Allows you to maintain temperature inside the oven with the precision 2-3 ° C. This enables to cook meals that are very sensitive to temperature changes, such as cakes, souffles, puddings.</p> |  <p>Tilting grill: the tilting grill can be easily unhooked to move the heating element and clean the roof of the appliance in one simple step.</p> |

The capacity indicates the amount of usable space in the oven cavity in litres.

The capacity indicates the amount of usable space in the oven cavity in litres.

Knobs control

Benefit (TT)

True-convection

The best cooking performances guaranteed by ventilated circular flow

Multiple fans and heating elements guarantee the perfect aerodynamic heat flow, allowing homogeneous and quicker cooking inside the cavity.

Induction hob

Induction offers fast cooking and precise temperature control

Through the use of suitable cookware, induction is easy to use and maintain, safe and responsive.

Touch control

Easy and intuitive timer setting with a single touch

Single turbine

The oven has a fan equipped with a circular heating element allowing cooking with rotating heat

Isothermic Cavity

The best cooking performance at the highest energy efficiency

Tangential cooling

New cooling system with tangential fan and airflow from the door to the splashback

Pyrolysis

Easy oven cleaning thanks to special pyrolytic function

Multilevel halogen light

Internal halogen lighting on different levels guarantees excellent visibility

Adjustable height

Cooker top flushed with the working area thanks to adjustable feet

Multilevel cooking

Several cooking levels allow maximum flexibility of use

Cold door

During any function, the external door glass is cold, avoiding any risk of burns

AirFry (AIRFRY optional accessory)

Lighter and tastier food thanks to airfry basket (optional accessory)

Drawer storage compartment

More space thanks to the lower drawer compartment, ideal for storing accessories or cooking utensils

BBQ (optional accessory)

Barbeque cooking directly in the oven with the double-sided grill (BBQ optional accessory)

Pizza stone (optional accessory)

Baking with refractory stone for soft and crispy pizza and yeast products (STONE optional accessory)
