A3-81

Cooker size	120x60 cm
N. of cavities with energy label	2
Cavity heat source	ELECTRICITY
Hob type	Gas
Type of main oven	Thermo-ventilated
Type of second oven	Static
Cleaning system main oven	Ever Clean enamel
EAN code	8017709245269
Energy efficiency class	A
Energy efficiency class, second cavity	B

Aesthetics

Design	Professional
Command panel finish	Finger friendly stainless steel
Aesthetic	Classica
Logo	Assembled st/steel
Colour	Stainless Steel
Logo position	Facia below the oven
Finishing	Satin
Upstand	Yes
Series	Opera
Hob colour	Stainless steel
Type of pan stands	Cast Iron
Type of control setting hob	Control knobs
Type of control knobs	Smeg Classic
Controls colour	Stainless steel
No. of controls	11
Serigraphy colour	Black
Display name	DigiScreen
Door	With 2 horizontal strips
Glass type	Eclipse
Handle	Smeg Classic
Handle Colour	Brushed stainless steel
Storage compartment	Drawer
Sliding compartment	Yes

Programs / Functions main oven

No. of cooking functions	8

Traditional cooking functions

- Static
- Fan assisted
- Circulaire
- Turbo
- Eco
- Small grill
- Fan grill (small)
- Fan assisted base

Programs / Functions auxiliary oven

Cooking functions cavity 2 4

Traditional cooking functions, cavity 2

- Static
- Small grill
- Large grill
- Bottom

Hob technical features

UR

Total no. of cook zones 6

Front left - Gas - 2UR (dual) - 4.20 kW
Rear left - Gas - Semi Rapid - 1.80 kW
Front centre - Gas - AUX - 1.00 kW
Rear centre - Gas - Rapid - 3.00 kW
Front right - Gas - AUX - 1.00 kW
Rear right - Gas - Fish burner - 1.90 kW
Central - BBQ - 1.60 (BBQ) kW

Type of gas burners	Standard	**Gas safety valves**	Yes
Automatic electronic ignition	Yes	**Burner caps**	Matt black enamelled

Main Oven Technical Features

No. of lights	2	**Total no. of door glasses**	3
Fan number	1	**No.of thermo-reflective door glasses**	2
Net volume of the cavity	77 l	**Safety Thermostat**	Yes
Gross volume, 1st cavity	90 l	**Cooling system**	Tangential
Cavity material	Ever Clean enamel	**Usable cavity space dimensions (HxWxD)**	305x613x405 mm
No. of shelves	4	**Temperature control**	Electro-mechanical
Type of shelves	Metal racks		
Light type	Incandescent		

Light Power	25 W	**Lower heating element power**	1750 W
Cooking time setting	Start and Stop	**Upper heating element - Power**	1050 W
Light when oven door is open	Yes	**Grill element**	2800 W
Door opening	Flap down	**Large grill - Power**	3850 W
Removable door	Yes	**Circular heating element - Power**	2500 W
		Grill type	Electric

Options Main Oven

Timer	Yes	**Minimum Temperature**	50 °C
End of cooking acoustic alarm	Yes	**Maximum temperature**	250 °C

Second Oven Technical Features

Net volume of the second cavity	40 l	**No. total door glasses**	3
Gross volume, 2nd cavity	42 l	**No. thermo-reflective door glasses**	2
Cavity material	Ever Clean enamel	**Safety Thermostat**	Yes
No. of shelves	4	**Cooling system**	Tangential
Type of shelves	Metal racks	**Usable cavity space dimensions (HxWxD)**	315x300x415 mm
Roof Liner	Yes	**Temperature control**	Electro-mechanical
No. of lights	1	**Lower heating element - power**	700 W
Light type	Incandescent	**Upper heating element - Power**	650 W
Light Power	25 W	**Grill element - power**	1400 W
Light when oven door is open	Yes	**Large grill - Power**	2050 W
Door opening	Flap down	**Grill type**	Electric
Removable door	Yes		

Options Auxiliary Oven

Minimum Temperature	50 °C	**Maximum temperature**	220 °C

Accessories included for Main Oven & Hob

TOP Oven grid with back stop	2	**Wide baking tray**	2

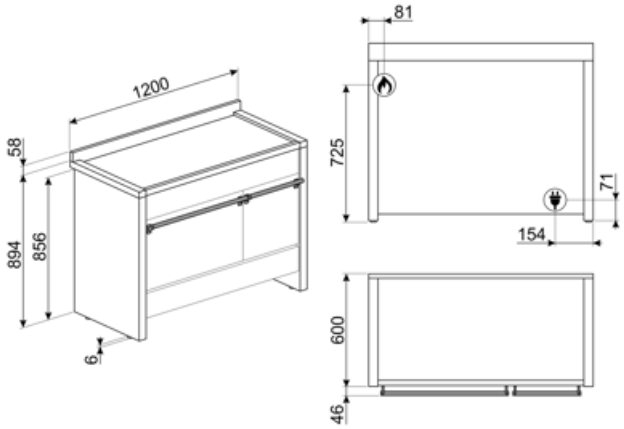

Accessories included for Secondary Oven

Rack with back and side stop	1	**Grill mesh**	1

Wide baking tray	1

Electrical Connection

Electrical connection rating	6900 W
Current	30 A
Voltage	220-240 V
Voltage 2 (V)	380-415 V
Electric cable	Installed, Single phase
Power supply cable length	200 cm
Additional connection modalities	Double and Three Phase
Frequency	50/60 Hz
Terminal block	5 poles
Plug	Not present

Compatible Accessories

BN620-1

Enamelled tray suitable for 45 cm and 60 cm ovens. Depth 20 mm. Perfect for a wide range of savoury and sweet baking.

BNP608T

Teflon-coated tray, 8 mm depth, to be placed on the grid

KIT1A3-8

Splashback, stainless steel, 120cm,suitable for Opera A3 cookers

KIT3-6

Height extension kit 2 lateral sides (950mm), stainless steel, for Opera cookers A2,A3,A4 (945-965mm)

SFLK1

Child lock

BN640

Enamelled tray suitable for 45cm and 60cm ovens. Depth 540 mm. Perfect for cooking and roasting meat and fish in sauces. Also ideal for experimenting with lighter and crunchy side dishes

GRM

Coffee machine support

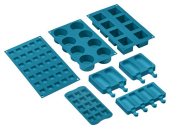

KIT2A3-2

Plinth, 120 cm, only frontal, stainless steel suitable for A3 and A4 Opera cookers

PALPZ

Pizza shovel with folding handle. Dimensions L31.5 x H32.5 cm. Easy and convenient to use and store. Perfect for serving pizza, bread and savory pastries in a safe and professional way.

SMOLD

Set of 7 silicone moulds for ice creams, ice lollies, pralines, ice cubes or to portion food. Usable from -60°C to +230°C

Symbols glossary

Heavy duty cast iron pan stands: for maximum stability and strength.

Installation in column: Installation in column.

Air cooling system: to ensure a safe surface temperatures.

Triple glazed doors: Number of glazed doors.

Ever Clean Enamel: Ever Clean enamel is applied electrostatically, corner to corner and edge to edge to prevent cracking or cracks over time. It is a particular pyrolytic enamel, resistant to acids which, in addition to being pleasantly bright, promotes greater cleaning of the oven walls, thanks to its lower porosity. It is baked at over 850 °C and slowly polymerized at a scientifically determined rate to ensure uniform depth and strength. Ever Clean enamel creates an impeccable finish both on the inside of the oven and on the trays, making the surfaces of the oven incredibly easy to maintain over time as it reduces the adhesion of fat during cooking.

Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.

Static: Traditional cooking suitable for the preparation of one dish at a time. The fan is not active and the heat comes from below and from above at the same time. Static cooking is slower and more delicate, ideal in order to get well cooked and dry dishes even inside. Ideal for cooking all types of roasts, fatty meats, bread, filled cakes.

Circulaire: it is the perfect function for cooking all types of dishes in a more delicate way. The heat comes from the back of the oven and is distributed quickly and evenly. The fan is active. It is also ideal for cooking on multiple levels without mixing smells and flavors.

Energy efficiency class A

Knobs control

4.3 inch display with LED technology, usability with knobs + 3 touch keys

B: Product energy rating, measured from A+++ to D / G depending on the product family.

Fingerprint proof stainless steel: Fingerprint proof stainless steel keeps stainless steel looking as good as new.

Fan assisted: Intense and homogeneous traditional cooking, also suitable for complex recipes. The fan is active and the heat comes from below and from above at the same time. Ventilated cooking ensures a faster and more homogeneous result, leaving fragrant foods outside and moister inside. Ideal for baked pasta, biscuits, roasts and cobblers.

Base: the heat comes only from the bottom of the cavity. The fan is not active. Ideal for sweet and savory pies, cobblers and pizzas. Designed to complete cooking and make food more crunchy. This symbol in gas ovens indicates the gas burner.

ECO: low energy consumption cooking: this function is particularly suitable for cooking on a single shelf with low energy consumption. It is recommended for all types of food except those that can generate a lot of moisture (for example vegetables). To achieve maximum energy savings and reduce time, it is recommended to put the food in the oven without preheating the cooking compartment.

Fan with grill element: The fan reduces the fierce heat from the grill, providing an excellent method of grilling various foods, chops, steaks, sausages etc. giving even browning and heat distribution, without drying out the food. The top two levels recommended for use, and the lower part of the oven can be used to keep items warm at the same time, an excellent facility when cooking a grilled breakfast. Half grill (centre portion only) is ideal for small quantities of food.

Grill: Very intense heat coming only from above from a double heating element. The fan is not active. Provides excellent grilling and gratinating results. Used at the end of cooking, it gives a uniform browning to dishes.

Half grill: For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.

Turbo: the heat comes from 3 directions: above, below and from the back of the oven. The fan is active. It allows quick cooking, even on several shelves without mixing the aromas. Ideal for large volumes or foods that require intense cooking.

Automatic opening: some models have Automatic opening door when the cycle is finished which is a perfect solution for handle-less kitchen units as no handle is needed. For safety reasons, the door locks automatically when the machine is in use to avoid it being opened inadvertently.

Removable roof liner: This is a perfect solution that protects the upper part of the cavity of the oven from pollution. Easy to remove for cleaning, it can be washed in the dishwasher.

The oven cavity has 4 different cooking levels.

Electronic control: Allows you to maintain temperature inside the oven with the precision 2-3 ° C. This enables to cook meals that are very sensitive to temperature changes, such as cakes, souffles, puddings.

Ultra rapid burners: Powerful ultra rapid burners offer up to 5kw of power.

The capacity indicates the amount of usable space in the oven cavity in litres.

The capacity indicates the amount of usable space in the oven cavity in litres.

Benefit (TT)

Gas hob

Gas provides permanent control of the heat source and the temperature change is immediate

Equipped with a thermocouple, the gas supply is cut off if the flame is extinguished for greater safety.

Ever Clean Enamel

Easy oven cleaning thanks to special pyrolytic enamel

Touch control

Easy and intuitive timer setting with a single touch

Drawer storage compartment

More space thanks to the lower drawer compartment, ideal for storing accessories or cooking utensils

True-convection

The best cooking performances guaranteed by ventilated circular flow

Multiple fans and heating elements guarantee the perfect aerodynamic heat flow, allowing homogeneous and quicker cooking inside the cavity.

Multilevel cooking

Several cooking levels allow maximum flexibility of use

Tangential cooling

New cooling system with tangential fan and airflow from the door to the splashback

Adjustable height

Cooker top flushed with the working area thanks to adjustable feet

Isothermic Cavity

The best cooking performance at the highest energy efficiency

AirFry (AIRFRY optional accessory)

Lighter and tastier food thanks to airfry basket (optional accessory)

Cold door

During any function, the external door glass is cold, avoiding any risk of burns

Pizza stone (optional accessory)

Baking with refractory stone for soft and crispy pizza and yeast products (STONE optional accessory)

BBQ (optional accessory)

Barbecue cooking directly in the oven with the double-sided grill (BBQ optional accessory)

Single turbine

The oven has a fan equipped with a circular heating element allowing cooking with rotating heat
