

A90G001PX

Cooker size	90x60 cm
N. of cavities with energy label	1
Cavity heat source	ELECTRICITY
Hob type	Gas
Type of main oven	Thermo-ventilated
Cleaning system main oven	Vapor Clean, Pyrolitic
EAN code	8017709358303
Energy efficiency class	A+

Aesthetics

Command panel finish	Finger friendly stainless steel	Type of control knobs	Smeg Classic
Aesthetic	Classica	Controls colour	Stainless steel
Logo	Assembled st/steel	No. of controls	8
Colour	Stainless steel	Serigraphy colour	Black
Logo position	Facia below the oven	Display name	DigiScreen
Finishing	Satin	Door	With 2 horizontal strips
Upstand	Yes	Glass type	Eclipse
Series	Opera	Handle	Smeg Opera Classic
Hob colour	Stainless steel	Handle Colour	Brushed stainless steel
Type of pan stands	Cast Iron	Storage compartment	Door
Type of control setting hob	Control knobs	Feet color	Silver

Programs / Functions main oven

No. of cooking functions	10
--------------------------	----

Traditional cooking functions

 Static	 Fan assisted	 Circulaire
 Turbo	 Eco	 Small grill
 Large grill	 Fan grill (large)	 Base
 Fan assisted base		

Other functions

 Defrost by time
--

Cleaning functions

 Pyrolytic	 Vapor clean
--	---

Hob technical features

Total no. of cook zones 6

Front left - Gas - 2UR (dual) - 4.20 kW

Rear left - Gas - AUX - 1.00 kW

Front centre - Gas - AUX - 1.00 kW

Rear centre - Gas - Semi Rapid - 1.80 kW

Front right - Gas - Semi Rapid - 1.80 kW

Rear right - Gas - Rapid - 3.00 kW

Type of gas burners Standard

Gas safety valves

Yes

Automatic electronic ignition Yes

Burner caps

Matt black enamelled

Main Oven Technical Features

No. of lights 2

Fan number 2

Net volume of the cavity 115 l

Gross volume, 1st cavity 129 l

Cavity material Ever Clean enamel

No. of shelves 5

Type of shelves Metal racks

Light type Halogen

Light Power 40 W

Cooking time setting Start and Stop

Light when oven door is open Yes

Door opening Flap down

Total no. of door glasses 3

No. of thermo-reflective door glasses 2

Safety Thermostat Yes

Cooling system Tangential

Door Lock During Pyrolysis Yes

Usable cavity space dimensions (HxWxD) 371x724x418 mm

Temperature control Electro-mechanical

Lower heating element power 1700 W

Upper heating element - Power 1200 W

Removable door	Yes	Grill element	1700 W
Full glass inner door	Yes	Large grill - Power	2900 W
Removable inner door	Yes	Circular heating element - Power	2 x 2000 W
		Grill type	Electric
		Soft Close system	Yes

Options Main Oven

Timer	Yes	Minimum Temperature	50 °C
End of cooking acoustic alarm	Yes	Maximum temperature	260 °C

Accessories included for Main Oven & Hob

Cast iron wok support	1	Grill mesh	1
Rack with back and side stop	2	Telescopic Guide rails, partial Extraction	1
20mm deep tray	1	Meat Probe	1
40mm deep tray	1		

Electrical Connection

Electrical connection rating	4200 W	Additional connection modalities	Double and Three Phase
Current	19 A	Frequency	50/60 Hz
Voltage	220-240 V	Terminal block	3 poles
Cable testing	Yes, Single phase	Plug	Not present

Compatible Accessories

AIRFRY9

Air fryer rack AIRFRY . Ideal for recreating traditional frying in the oven, but with fewer calories and less fat. It allows you to cook quickly and simply dishes such as French fries, fried vegetables and fish, ensuring perfect browning and crispiness.

BN920

Enamelled tray 90cm cavity, 20mm deep

GTP

Partially extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

SFLK1

Child lock

BBQ9

teflon-coated aluminum grid for 90 cm cavity

BN940

Enamelled tray 90 cm, 40 mm deep

GTT

Totally extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

SMOLD

Set of 7 silicone moulds for ice creams, ice lollies, pralines, ice cubes or to portion food. Usable from -60°C to +230°C

Symbols glossary

	Heavy duty cast iron pan stands: for maximum stability and strength.		A+: Energy efficiency class A+ helps to save up to 10% energy compared to class A. Maximum performance with minimum consumption is guaranteed.
	Installation in column: Installation in column.		Air cooling system: to ensure a safe surface temperatures.
	Defrost by time: Manual defrost function. At the end of the set duration, the function stops.		Triple glazed doors: Number of glazed doors.
	Ever Clean Enamel: Ever Clean enamel is applied electrostatically, corner to corner and edge to edge to prevent cracking or cracks over time. It is a particular pyrolytic enamel, resistant to acids which, in addition to being pleasantly bright, promotes greater cleaning of the oven walls, thanks to its lower porosity. It is baked at over 850 °C and slowly polymerized at a scientifically determined rate to ensure uniform depth and strength. Ever Clean enamel creates an impeccable finish both on the inside of the oven and on the trays, making the surfaces of the oven incredibly easy to maintain over time as it reduces the adhesion of fat during cooking.		Fingerprint proof stainless steel: Fingerprint proof stainless steel keeps stainless steel looking as good as new.
	Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.		Fan assisted: Intense and homogeneous traditional cooking, also suitable for complex recipes. The fan is active and the heat comes from below and from above at the same time. Ventilated cooking ensures a faster and more homogeneous result, leaving fragrant foods outside and moister inside. Ideal for baked pasta, biscuits, roasts and cobblers.
	Static: Traditional cooking suitable for the preparation of one dish at a time. The fan is not active and the heat comes from below and from above at the same time. Static cooking is slower and more delicate, ideal in order to get well cooked and dry dishes even inside. Ideal for cooking all types of roasts, fatty meats, bread, filled cakes.		Base: the heat comes only from the bottom of the cavity. The fan is not active. Ideal for sweet and savory pies, cobblers and pizzas. Designed to complete cooking and make food more crunchy. This symbol in gas ovens indicates the gas burner.
	Circulaire: it is the perfect function for cooking all types of dishes in a more delicate way. The heat comes from the back of the oven and is distributed quickly and evenly. The fan is active. It is also ideal for cooking on multiple levels without mixing smells and flavors.		ECO: low energy consumption cooking: this function is particularly suitable for cooking on a single shelf with low energy consumption. It is recommended for all types of food except those that can generate a lot of moisture (for example vegetables). To achieve maximum energy savings and reduce time, it is recommended to put the food in the oven without preheating the cooking compartment.

 Grill: Very intense heat coming only from above from a double heating element. The fan is not active. Provides excellent grilling and gratinating results. Used at the end of cooking, it gives a uniform browning to dishes.	 Half grill: For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.
 Fan grill: very intense heat coming only from above from a double heating element. The fan is active. It allows the optimal grilling of thickest meats. Ideal for large cuts of meat.	 Turbo: the heat comes from 3 directions: above, below and from the back of the oven. The fan is active. It allows quick cooking, even on several shelves without mixing the aromas. Ideal for large volumes or foods that require intense cooking.
 All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.	 The inner door glass: can be removed with a few quick movements for cleaning.
 Side lights: Two opposing side lights increase visibility inside the oven.	 Automatic opening: some models have Automatic opening door when the cycle is finished which is a perfect solution for handle-less kitchen units as no handle is needed. For safety reasons, the door locks automatically when the machine is in use to avoid it being opened inadvertently.
 PYROLYSIS - AUTOMATIC CLEANING FUNCTION: the oven heats up to a temperature approaching 500 ° C and chars grease and food residues into a fine ash that can be easily wiped off with a damp cloth. At such a high temperature, the door locks automatically for safety, while the temperature of the door remains controlled so it is safe to touch User adjustable function based on the level of dirt present in the oven.	 5 The oven cavity has 5 different cooking levels.
 Soft close: all models are equipped with advanced function of smooth closing of the door, which allows the device to close smoothly and quietly.	 Telescopic rails: allow you to pull out the dish and check it without having to remove it from the oven entirely.
 Ultra rapid burners: Powerful ultra rapid burners offer up to 5kw of power.	 Vapor Clean: a simple cleaning function using steam to loosen deposits in the oven cavity.
 115 R The capacity indicates the amount of usable space in the oven cavity in litres.	 4.3 inch display with LED technology, usability with knobs + 3 touch keys
 Knobs control
