

ALFA1035H-2

Product Family Ovens

Subfamily Convection oven 10 trays EN

600x400 mm or GN1/1

Power supply Electric

Oven type Fan with humidification

Oven controls Mechanical

Tray capacity 10 trays GN1/1, 10 EN 600x400 mm

(min. H 20 mm)

Not available

Default power supply $400 \text{ V } 3N \sim / 23A / 16 \text{ kW } / 50 \text{ Hz}$

App for recipe development and

upload

Humidity generation Direct in cavity

Adjustable feet Yes

Product dimensions WxDxH 798x772x1100 mm

Maximum depth with open door 1536 mm

Target

Industries Bar / Cafeterias / Bistros /

Wine bars / Pubs; Hotels; Restaurants; Bakeries / Pastry shops; Butcher shops / Delicatessens; Catering; Care facilities; Commercial food services; Grocery shops / Food retail Suggested for

Bars/Cafes

Construction

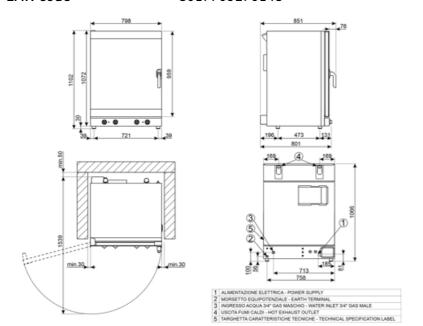

Oven material	Stainless steel/glass/plastics	Steam assisted levels Exhaust exit	Manual Back
Cavity dimensions (WxDxH)	672x437x854mm	Time adjustment Temperature range	Electromechanical timer 50-270°C
Gross volume Net volume Internal net volume	616x431x340mm 616x431x340mm 199,1 lt	End of cooking alarm Orange light indicator when t° achieved	Yes Yes
Cavity material No. of shelves	Stainless steel 10	Green light indicator when time achieved	Yes
Tray support frame Distance between shelves	Chrome 77 mm	Heating element interruption with open door	Yes
Door construction	Yes Lateral	Manual safety thermostat reset	Yes
Door opening Handle type Inner glass	New ergonomics Openable	Removable deflector No. of lights	Yes 3 Halogen lights
Fan type and number	3 contrarotating fans with time direction reversal	Light power Water connection	40 W Yes
Fan motor power Fan speed	180W Single speed	Water inlet pressure Power cable length	50-500 kPa (min-max) 170 cm
Max motor speed (rpm) Humidification system on each fan	2 Yes	Back panel IPX protection	Galvanized Scheduled start H/12

Logistic Information

 Packed product dimensions (WxDxH)

Benefit

Mechanical control panel

Ease of use and effortless control of the essential cooking parameters

The control panel, equipped with practical knobs, allows for simple, intuitive, and effortless management of the main functions. Using the buttons, you can adjust the cooking time, temperature, and, in selected models, the level of humidification. By turning the knob to position 1, steam will be delivered until it is released. In multifunction ovens with a mechanical control panel, there is also a dedicated button for selecting different oven functions based on the desired cooking mode.

Hinged opening

Easily accessible glass for effortless maintenance and cleaning

The glass panels are designed to be easily accessible and inspectable, ensuring great convenience during cleaning and maintenance operations. This feature significantly simplifies the process, making it quick and efficient, while ensuring that every intervention can be carried out with maximum comfort and complete safety.

Humidity management

Impeccable cooking thanks to precise humidity control

Thanks to the effective management of small amounts of steam, perfect browning can be achieved while maintaining the product's softness and promoting the development of its internal structure. Different humidity levels can be set, which determine the frequency of activation cycles. Each cycle consists of two seconds of water vapour spraying inside the cooking chamber, followed by a 15-second pause.
