Plug (F;E) Schuko

## Construction

Oven materials	Stainless steel / glass / plastics
Cavity dimensions (WxDxH)	460x360x425 mm
Cavity material	Ever Clean enamel
Shelves number	4
Tray frame support	Chromed wire
Shelves distance	80 mm
Door construction	Triple glass
Door opening	Tilting
Handle type	Fixed
Glass	Openable with clip
Fan type and number	Fan with fixed rotation
Fan motor power	80 W
Engine rpm	Dual speed
Motor rpm in standard speed	2700 rpm

Motor rpm in low speed	2100 rpm
Exhaust position	Back
Timer type	Electric
Temperature range	50-270°C
End cooking signal	Yes
Orange light indicator for to achievement	Yes
Green light indicator time achievement	Yes
Manual reset safety thermostat	Yes
Removable deflector	Yes
Lighting	1 Halogen lamp
Light power	40 W
Power cable length	115 cm
Back panel	Galvanized
IPX protection	IPX3

Set of 4 wheels, fits all professional oven

### TVL40

8-level tray holder rack for ALFA43 ovens, dim. (WxDxH) 600x600x900 mm (height with kit RUTVL: 998 mm)

# Symbols glossary

Electric Fan with lower element

Fan forced heating Large grill heating element

Static heating with upper and lower elements Report Double speed fan

### Benefit (TT)

#### Mechanical control panel

Ease of use and effortless control of the essential cooking parameters

The control panel, equipped with practical knobs, allows for simple, intuitive, and effortless management of the main functions. Using the buttons, you can adjust the cooking time, temperature, and, in selected models, the level of humidification. By turning the knob to position 1, steam will be delivered until it is released. In multifunction ovens with a mechanical control panel, there is also a dedicated button for selecting different oven functions based on the desired cooking mode.

#### Clip-open

Easily accessible glass for effortless maintenance and cleaning

The glass panels are designed to be easily accessible and inspectable, ensuring great convenience during cleaning and maintenance operations. This feature significantly simplifies the process, making it quick and efficient, while ensuring that every intervention can be carried out with maximum comfort and complete safety.

#### Two-speed fan

Perfect ventilation for the ideal cooking of the most delicate dishes

The fan speed adjustment function allows you to tailor the ventilation intensity to the specific needs of each dish, ensuring consistently flawless results. Thanks to the dual-speed setting, you can create the perfect conditions for delicate preparations such as meringues, profiteroles, and soufflés, enveloping them in a gentler, more even airflow that preserves their lightness and structure.
