

ALFA43MFHDS

Produktfamilie	Öfen
Unterkategorie	Multifunktionsofen 4 Einschübe 435x320mm
Stromzufuhr	Electric
Oven type	Convection multifunction oven with humidifier
Temperaturregelung	Manuell
Anzahl Einschübe	4 Einschübe 435x320 mm
Stromversorgung / Leistungsaufnahme	230 V~ / 13 A / 3,0 kW / 50 Hz
Programm-Speicher	Nicht vorhanden
Humidity generation	Direct in cavity
Regulierbare Stellfüße	Ja
Abmessungen (BxTxH)	602x580x537 mm
Tiefe bei geöffneter Tür	993 mm

Einsatzbereich

Industries	Bar / Cafeterias / Bistros / Wine bars / Pubs; Hotels/Pensionen; Restaurants; Bakeries / Pastry shops; Butcher shops / Delicatessens; Catering; Care facilities ; Commercial food services; Grocery shops / Food retail
-------------------	---

Ästhetik

Edelstahl-Rahmentür	Ja	Geprägte Gerätefront	Ja
Farbe	Edelstahl	Serie	Alfa

Bedienelemente

Einstellung Timer	1-60 min. + Dauerbetrieb
--------------------------	--------------------------

Serienzubehör

Flaches Aluminium- Blech 3820	Set (4 St.)
--	-------------

Elektrischer Anschluss

Netzstecker

(F;E) Schuko

Konstruktion

Material Oberfläche	Edelstahl/Glas/Kunststoffe	Positionierung Abluft	Rückseite
Abmessungen Garkammer (LxBxH)	460x360x425 mm	Timer-Typ	Elektrisch
Material der Garkammer	Ever Clean Emaillierung	Temperatureinstellung	50-250°C
Anzahl der Roste	4	Signal für Garende	Ja
Rostgestell	Chrom	Orange Kontrollleuchte bei T°C-Erreichung	Ja
Abstand zwischen den Blechen	80 mm	Grüne Kontrollleuchte für Zeitablauf	Ja
Türkonstruktion	Ja	Sicherheitsthermostat mit manueller Rückstellung	Ja
Türöffnung	Klapptür	Abnehmbare Luftleitbleche	Ja
Ausführung des Türgriffs	Smeg	Garkammerbeleuchtung	1 Halogenbeleuchtung
Innenglas aufklappbar	Mit Clip	Leistung der Beleuchtung	40 W
Leistung des Lüfters	80 W	Wassereinlassdruck	50-500 kPa (min-max)
Drehzahl U/min.	Einfach	Länge des Netzkabels	115 cm
Lüftermotor bei Standard-Drehzahl	2700 U/min.	Rückpanel	Vollverzinkt
Lüftermotor U/min. min.	2100 U/min.	IPX-Schutzklasse	IPX3
Beschwandungsstufen	Manuell		

Logistik-Informationen

Packed product dimensions (WxDxH)	610x625x695 mm	Nettogewicht	36.400 kg
EAN code	8017709305949	Bruttogewicht	38.500 kg

Kompatibel Zubehör

3820

Flaches Aluminium-Blech (4 St.)

RUTVL

Set of 4 wheels, fits all professional oven tables

TVL40

8-level tray holder rack for ALFA43 ovens, dim. (WxDxH) 600x600x900 mm (height with kit RUTVL: 998 mm)

3900

Rost, verchromt (4Stk.)

SVRPP43

Connection kit for stacking two 4ltray 435x320 mm ovens

Ober- und Unterhitze

Doppelte Lüfter Geschwindigkeit

Benefit (TT)

Mechanical control panel

Ease of use and effortless control of the essential cooking parameters

The control panel, equipped with practical knobs, allows for simple, intuitive, and effortless management of the main functions. Using the buttons, you can adjust the cooking time, temperature, and, in selected models, the level of humidification. By turning the knob to position 1, steam will be delivered until it is released.

In multifunction ovens with a mechanical control panel, there is also a dedicated button for selecting different oven functions based on the desired cooking mode.

Clip-open

Easily accessible glass for effortless maintenance and cleaning

The glass panels are designed to be easily accessible and inspectable, ensuring great convenience during cleaning and maintenance operations. This feature significantly simplifies the process, making it quick and efficient, while ensuring that every intervention can be carried out with maximum comfort and complete safety.

Two-speed fan

Perfect ventilation for the ideal cooking of the most delicate dishes

The fan speed adjustment function allows you to tailor the ventilation intensity to the specific needs of each dish, ensuring consistently flawless results. Thanks to the dual-speed setting, you can create the perfect conditions for delicate preparations such as meringues, profiteroles, and soufflés, enveloping them in a gentler, more even airflow that preserves their lightness and structure.

Humidity management

Impeccable cooking thanks to precise humidity control

Thanks to the effective management of small amounts of humidity, perfect browning can be achieved while maintaining the product's softness and promoting the development of its internal structure. Different humidity levels can be set, which determine the frequency of activation cycles. Each cycle consists of two seconds of water vapour spraying inside the cooking chamber, followed by a 15-second pause.
