# **Compatible Accessories**

## 3743

Kit of 4 flat aluminum trays EN 600×400

## 3751

Flat perforated aluminium tray (4pcs)

## 3805

Kit of 4 chrome-plated wire grids EN  $600\times400$  mm

## 3810

Kit of 4 wave wire grids for baguettes EN 600×400 mm

## 3927

Air flow reducer kit for ovens ALFA410, 420, 625, 1035

#### **KITSC**

Core temperature probe for EHDS oven series

## RGN11-625-2

Support rack for GN 1/1 flat trays, suitable for ALFA625 models

## **RUTVL**

Set of 4 wheels, fits all professional oven tables

#### SVRPP420-625

Connector kit for two stacked ALFA420+420 or ALFA420+625 models and hood

#### T11TH20

GN1/1 non-stick tray, 20 mm height

## T11TH40

GN1/1 non-stick tray, 40 mm height

## T11XH20

Aluminium GN1/1 tray, 20 mm height

## T11XH65

GN1/1 aluminium tray, 65 mm height

#### TF11XH2

GN 1/1 perforated aluminium tray, 20 mm height

## TMF11TH2

GN 1/1 non-sticking microperforated tray, 20 mm height

## **TVL425**

16-level tray holder rack for ALFA420/425 and ALFA625 ovens dim.800x800x900 mm (hieight with kit RUTVL: 998 mm)

## TVL425D

4-level tray holder rack for ALFA420/ALFA425 (stacked) or ALFA1035 ovens, dim. 800x800x504 mm (hieight with kit RUTVL: 602 mm)

## TVL625D

Support for stacked ALFA625 ovens, dim. 800x800x300mm

Fan forced heating

Fan forced heating with humidity injection

## Benefit (TT)

#### Hinged opening

Easily accessible glass for effortless maintenance and cleaning

The glass panels are designed to be easily accessible and inspectable, ensuring great convenience during cleaning and maintenance operations. This feature significantly simplifies the process, making it quick and efficient, while ensuring that every intervention can be carried out with maximum comfort and complete safety.

## Two-speed fan

Perfect ventilation for the ideal cooking of the most delicate dishes

The fan speed adjustment function allows you to tailor the ventilation intensity to the specific needs of each dish, ensuring consistently flawless results. Thanks to the dual-speed setting, you can create the perfect conditions for delicate preparations such as meringues, profiteroles, and soufflés, enveloping them in a gentler, more even airflow that preserves their lightness and structure.

#### **LCD Touch**

Intuitive interface for simple and precise adjustment of cooking parameters

The control panel, simple and intuitive, is designed to offer a seamless and effortless user experience. Equipped with dedicated buttons, it allows precise adjustment of every cooking parameter, from temperature to duration, humidity level to fan speed. The central display provides a clear and immediate overview of the selected settings, ensuring you always have everything under control for flawless results, without compromise.

## 3 cooking stages

Flexibility and precision in every cooking stage

The ability to set multiple cooking steps in addition to preheating provides extraordinary versatility, perfectly adapting to the varying needs of each preparation. Each phase of the process can be customised with precision, optimising the cooking to achieve flawless results, whether it's a slow cook at low temperature or a perfect final browning. Thanks to this precise control of parameters, it is possible to achieve even cooking on every surface, significantly improving the quality of the finished product.

## **Humidity management**

Impeccable cooking thanks to precise humidity control

Thanks to the effective management of small amounts of humidity, perfect browning can be achieved while maintaining the product's softness and promoting the development of its internal structure. Different humidity levels can be set, which determine the frequency of activation cycles. Each cycle consists of two seconds of water vapour spraying inside the cooking chamber, followed by a 15-second pause.
