

## BBQE90X

|                         |                      |
|-------------------------|----------------------|
| Grupa produktowa        | Barbecue             |
| Model                   | PowerGrill           |
| Power supply            | Elektryczne          |
| Dimensions              | 90 cm                |
| Built-in type           | Support              |
| Worktop Cut-Out (X x Y) | 811-816 x 505-510 mm |

## Linia wzornicza

|                         |                       |
|-------------------------|-----------------------|
| Linia wzornicza         | Universal             |
| External material       | AISI 316              |
| Internal material       | AISI 304              |
| Kolor                   | Stal nierdzewna       |
| Logo position           | Control panel         |
| Wykończenie             | Szczotkowy            |
| Type of logo            | Silk screen           |
| Control knob position   | Lateral               |
| No. of controls         | 2                     |
| Podświetlane pokręta    | Tak                   |
| Backlighted knobs color | Red                   |
| Uchwyt                  | Smeg Classica, sloped |

## Specyfikacja techniczna

|                                    |                                 |                          |                        |
|------------------------------------|---------------------------------|--------------------------|------------------------|
| Total no. of cook zones 2          |                                 |                          |                        |
| Prawy - Grill plate - 1.5 kW       |                                 |                          |                        |
| Lewy - Teppanyaki - 1.5 kW         |                                 |                          |                        |
| Total cooking area                 | 2230 cm <sup>2</sup>            | Keep-warming rack        | Tak                    |
| Number of power levels             | 10                              | Keep-warming area        | 538,20 cm <sup>2</sup> |
| Max. temperature with open lid     | 280 °C                          | Tilting heating elements | Tak                    |
| Max. temperature inside the cavity | 300 °C                          | Removable lid            | Tak                    |
| Cooking grills material            | Cast iron with porcelain enamel | Heat Master system       | Tak                    |
| Analog thermometer                 | Tak                             | Ingress Protection code  | IPX4                   |

## Podłączenie elektryczne

|                                  |                         |                            |              |
|----------------------------------|-------------------------|----------------------------|--------------|
| Electrical connection rating (W) | 3000 W                  | Power supply cable length  | 142 cm       |
| Current                          | 13 A                    | Częstotliwość              | 50/60 Hz     |
| Voltage                          | 220-240 V               | Puszka elektroinstalacyjna | 6 poles      |
| Electric cable                   | Installed, Single phase | Wtyczka                    | (F;E) Schuko |
