C6GMX2

Cooker size	60x60 cm
N. of cavities with energy label	1
Cavity heat source	ELECTRICITY
Hob type	Gas
Type of main oven	Thermo-ventilated
Cleaning system main oven	Vapor Clean
EAN code	8017709321666
Energy efficiency class	A

Aesthetics

Design	Square design
Command panel finish	Finger friendly stainless steel
Aesthetic	Classica
Logo	Assembled st/steel
Colour	Stainless Steel
Logo position	Facia below the oven
Finishing	Satin
Upstand	Yes
Series	Sinfonia
Hob colour	Stainless steel
Type of pan stands	Cast Iron
Type of control setting hob	Control knobs
Type of control knobs	Smeg Classic
Controls colour	Stainless steel
No. of controls	6
Serigraphy colour	Black
Display name	DigiScreen
Door	With 2 horizontal strips
Glass type	Eclipse
Handle	Smeg Classic
Handle Colour	Brushed stainless steel
Storage compartment	Door
Feet color	Silver

Programs / Functions main oven

No. of cooking functions	8

Traditional cooking functions

- Static
- Circulaire
- Turbo
- Eco
- Small grill
- Large grill
- Fan grill (large)
- Fan assisted base

Cleaning functions

- Vapor clean

Hob technical features

UR

Total no. of cook zones 4

Front left - Gas - UR - 4.20 kW
Rear left - Gas - Semi Rapid - 1.80 kW
Rear right - Gas - Semi Rapid - 1.80 kW
Front right - Gas - AUX - 1.00 kW

Type of gas burners	Standard	**Gas safety valves**	Yes
Automatic electronic ignition	Yes	**Burner caps**	Matt black enamelled

Main Oven Technical Features

No. of lights	1	**Removable inner door**	Yes
Fan number	1	**Total no. of door glasses**	3
Net volume of the cavity	70 l	**No.of thermo-reflective door glasses**	1
Gross volume, 1st cavity	79 l	**Safety Thermostat**	Yes
Cavity material	Ever Clean enamel	**Cooling system**	Tangential
No. of shelves	5	**Usable cavity space dimensions (HxWxD)**	360X460X425 mm
Type of shelves	Metal racks	**Temperature control**	Electro-mechanical
Light type	Halogen	**Lower heating element power**	1200 W
Light Power	40 W	**Upper heating element - Power**	1000 W
Cooking time setting	Start and Stop	**Grill element**	1700 W
Light when oven door is open	Yes	**Large grill - Power**	2700 W
Door opening	Flap down	**Circular heating element - Power**	2000 W
Removable door	Yes	**Grill type**	Electric
Full glass inner door	Yes		

Options Main Oven

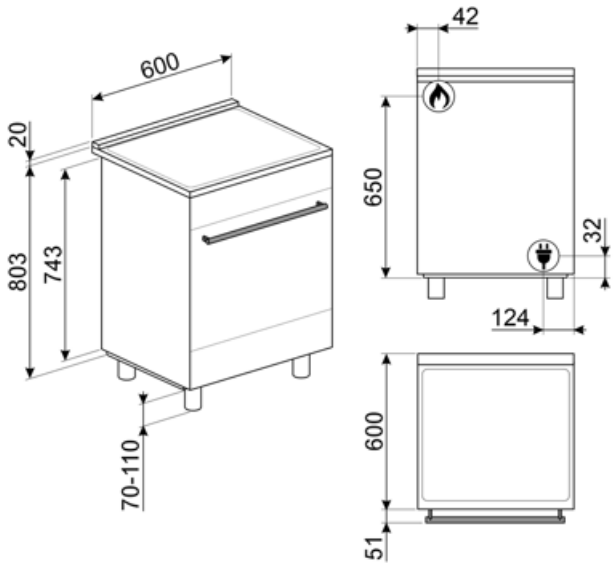

Timer	Yes	**Maximum temperature**	260 °C
Minimum Temperature	50 °C		

Accessories included for Main Oven & Hob

Moka stand	1	**Grill mesh**	1
Rack with back and side stop	2	**Telescopic Guide rails, partial Extraction**	1
40mm deep tray	1		

Electrical Connection

Electrical connection rating	3000 W	**Frequency**	50/60 Hz
Current	13 A	**Terminal block**	3 poles
Voltage	220-240 V	**Plug**	(F;E) Schuko
Electric cable	Installed, Single phase		

Compatible Accessories

AIRFRY2

Air fryer tray. Ideal for recreating traditional frying in the oven, but with fewer calories and less fat. It allows you to cook quickly and simply dishes such as French fries, fried vegetables and fish, ensuring perfect browning and crispiness.

BN620-1

Enamelled tray suitable for 45 cm and 60 cm ovens. Depth 20 mm. Perfect for a wide range of savoury and sweet baking.

BNP608T

Teflon-coated tray, 8 mm depth, to be placed on the grid

GTT

Totally extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

KITPAX

Heigh extension feet, stainless steel, (950mm) suitable for Master, Sinfonia and Portofino 90cm cookers (914-968mm); Heigh extension feet (900mm), st/steel, suitable for Concerto cookers with 850mm height (880-935mm)

PALPZ

Pizza shovel with folding handle. Dimensions L31.5 x H32.5 cm. Easy and convenient to use and store. Perfect for serving pizza, bread and savory pastries in a safe and professional way.

BBQ

Double sided plate BBQ. Suitable for recreating succulent and crispy dishes in the oven with the typical taste of grilled cooking. The ribbed side is particularly suitable for meats and cheeses. The smooth side for fish, seafood and vegetables.

BN640

Enamelled tray suitable for 45cm and 60cm ovens. Depth 540 mm. Perfect for cooking and roasting meat and fish in sauces. Also ideal for experimenting with lighter and crunchy side dishes

GTP

Partially extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

KITC6X

Splashback, 60cm, stainless steel, suitable for Master and Sinfonia cookers

KITPBX

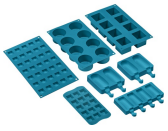

Height reduction feet (850mm), st/steel, for Sinfonia and Master cookers (845-856mm)

SFLK1

Child lock

SMOLD

Set of 7 silicone moulds for ice creams, ice lollies, pralines, ice cubes or to portion food. Usable from -60°C to +230°C

Symbols glossary

Heavy duty cast iron pan stands: for maximum stability and strength.

Installation in column: Installation in column.

Triple glazed doors: Number of glazed doors.

Fingerprint proof stainless steel: Fingerprint proof stainless steel keeps stainless steel looking as good as new.

Static: Traditional cooking suitable for the preparation of one dish at a time. The fan is not active and the heat comes from below and from above at the same time. Static cooking is slower and more delicate, ideal in order to get well cooked and dry dishes even inside. Ideal for cooking all types of roasts, fatty meats, bread, filled cakes.

ECO: low energy consumption cooking: this function is particularly suitable for cooking on a single shelf with low energy consumption. It is recommended for all types of food except those that can generate a lot of moisture (for example vegetables). To achieve maximum energy savings and reduce time, it is recommended to put the food in the oven without preheating the cooking compartment.

Half grill: For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.

Energy efficiency class A

Air cooling system: to ensure a safe surface temperatures.

Ever Clean Enamel: Ever Clean enamel is applied electrostatically, corner to corner and edge to edge to prevent cracking or cracks over time. It is a particular pyrolytic enamel, resistant to acids which, in addition to being pleasantly bright, promotes greater cleaning of the oven walls, thanks to its lower porosity. It is baked at over 850 °C and slowly polymerized at a scientifically determined rate to ensure uniform depth and strength. Ever Clean enamel creates an impeccable finish both on the inside of the oven and on the trays, making the surfaces of the oven incredibly easy to maintain over time as it reduces the adhesion of fat during cooking.

Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.

Circulaire: it is the perfect function for cooking all types of dishes in a more delicate way. The heat comes from the back of the oven and is distributed quickly and evenly. The fan is active. It is also ideal for cooking on multiple levels without mixing smells and flavors.

Grill: Very intense heat coming only from above from a double heating element. The fan is not active. Provides excellent grilling and gratinating results. Used at the end of cooking, it gives a uniform browning to dishes.

Fan grill: very intense heat coming only from above from a double heating element. The fan is active. It allows the optimal grilling of thickest meats. Ideal for large cuts of meat.

Turbo: the heat comes from 3 directions: above, below and from the back of the oven. The fan is active. It allows quick cooking, even on several shelves without mixing the aromas. Ideal for large volumes or foods that require intense cooking.

All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.

The inner door glass: can be removed with a few quick movements for cleaning.

Side lights: Two opposing side lights increase visibility inside the oven.

Automatic opening: some models have Automatic opening door when the cycle is finished which is a perfect solution for handle-less kitchen units as no handle is needed. For safety reasons, the door locks automatically when the machine is in use to avoid it being opened inadvertently.

The oven cavity has 5 different cooking levels.

Telescopic rails: allow you to pull out the dish and check it without having to remove it from the oven entirely.

Ultra rapid burners: Powerful ultra rapid burners offer up to 5kw of power.

Vapor Clean: a simple cleaning function using steam to loosen deposits in the oven cavity.

The capacity indicates the amount of usable space in the oven cavity in litres.

4.3 inch display with LED technology, usability with knobs + 3 touch keys

Knobs control
