

C6IPXM2

Cooker size	60x60 cm
N. of cavities with energy label	1
Cavity heat source	ELECTRICITY
Hob type	Induction
Type of main oven	Thermoseal
Cleaning system main oven	Pyrolitic
EAN code	8017709330880
Energy efficiency class	A

Aesthetics

Aesthetic	Classic	No. of controls	6
Serie	Sinfonia	Serigraphy colour	Black
Colour	Stainless steel	Type of control setting	Hybrid: Knobs + Digi Touch
Finishing	Satin	Slider	Red
Design	Square design	Handle	Smeg Classic
Door	With 2 horizontal strips	Handle Colour	Brushed stainless steel
Upstand	Yes	Glass type	eclipse
Hob colour	Stainless steel	Feet	Silver
Command panel finish	Finger friendly stainless steel	Storage compartment	Door
Control knobs	Smeg Classic	Logo	Assembled st/steel
Controls colour	Stainless steel	Logo position	Facia below the oven
Display	Touch		

Programs / Functions

No. of cooking functions 9

Traditional cooking functions

 Static	 Fan assisted	 Circulaire
 Turbo	 ECO Eco	 Small grill
 Large grill	 Fan grill (large)	 Fan assisted bottom

Cleaning functions

Pyrolytic

Hob options

Control lock	Yes	Limited Power	1000, 1600, 2200, 2800,
End cooking timer	4	Consumption Mode in W	3500, 6000, 7200 W
Minute minder	1	Bridge option	Yes

Hob technical features

Total no. of cook zones 4

Front left - Induction - single - 1.50 kW - Booster 2.00 kW - - Ø 18.0 cm

Rear left - Induction - single - 1.50 kW - Booster 2.00 kW - - Ø 18.0 cm

Rear right - Induction - single - 1.50 kW - Booster 2.00 kW - - Ø 18.0 cm

Front right - Induction - single - 1.50 kW - Booster 2.00 kW - - Ø 18.0 cm

Booster power left Bridge	3,0 kW	Minimum pan diameter indication	Yes
Booster power right Bridge	3,0 kW	Selected zone indicator	Yes
Automatic switch off when overheat	Yes	Residual heat indicator	Yes
Automatic pan detection	Yes		

Main Oven Technical Features

No. of lights	1	Removable inner door	Yes
Fan number	1	Total no. of door glasses	4
Net volume of the cavity	70 l	No. of thermo-reflective door glasses	3
Gross volume, 1st cavity	79 l	Safety Thermostat	Yes
Cavity material	Ever Clean enamel	Heating suspended when door is opened	Yes
No. of shelves	5	Cooling system	Tangential
Type of shelves	Metal racks	Door Lock During Pyrolysis	Yes
Light type	Halogen	Usable cavity space dimensions (HxWxD)	360X460X425 mm
Light Power	40 W	Temperature control	Electro-mechanical
Cooking time setting	Start and Stop	Lower heating element power	1200 W
Light when oven door is open	Yes	Upper heating element - Power	1000 W
Door opening	Flap down		
Removable door	Yes		
Full glass inner door	Yes		

Large grill - Power	2700 W
Circular heating element - Power	2000 W
Grill type	Electric

Options Main Oven

Timer	Yes	Minimum Temperature	50 °C
End of cooking acoustic alarm	Yes	Maximum temperature	280 °C

Accessories included for Main Oven & Hob

Rack with back and side stop	1	Grill mesh	1
20mm deep tray	1	Telescopic Guide rails, total Extraction	1
40mm deep tray	1	Meat Probe	1

Electrical Connection

Electrical connection rating	10000 W	Type of electric cable installed	Yes, Single phase
Current	44 A	Type of electric cable	Yes, Double and Three Phase
Voltage	220-240 V	Frequency	50/60 Hz
Voltage 2 (V)	380-415 V	Terminal block	5 poles

Not included accessories

SFLK1
Child lock

BNP608T
Teflon-coated tray, 8mm depth, to be placed on the grid

SCRP
Induction and ceramic hobs and teppanyaki scraper

KITP60X9
Splashback, 90 cm, stainless steel, suitable for pyrolytic Concerto cookers

BN640
Enamelled tray, 40mm deep

GTP
Partially extractable telescopic guides (1 level) Extraction: 300 mm
Material: Stainless steel AISI 430 polished

BN620-1
Enamelled tray, 20mm deep

STONE
Rectangular refractory stone PPR2. Ideal for cooking pizzas with the same results as a typical wood-fired oven. Can also be used for baking bread, focaccias and other recipes such as pies, flans or biscuits Dimensions: L42 x H1,8 x P37,5 cm.

GTT
Totally extractable telescopic guides (1 level) Extraction: 433 mm
Material: Stainless steel AISI 430 polished

SMOLD
Set of 7 silicone moulds for ice creams, ice lollies, pralines, ice cubes or to portion food. Usable from -60°C to +230°C

Symbols glossary (TT)

 <p>Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.</p>	 <p>A: Product drying performance, measured from A+++ to D / G depending on the product family</p>
 <p>Air cooling system: to ensure a safe surface temperatures.</p>	 <p>Quadruple glazed: Number of glazed doors.</p>
 <p>Enamel interior: The enamel interior of all Smeg ovens have a special antacid lining which helps keep the interior clean by reducing the amount of cooking grease adhering to it.</p>	 <p>Fingerprint proof stainless steel: Fingerprint proof stainless steel keeps stainless steel looking as good as new.</p>
 <p>Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.</p>	 <p>Fan with upper and lower elements: The elements combined with the fan aim to provide more uniform heat, a similar method to conventional cooking, so pre-heat is required. Most suitable for items requiring slow cooking methods.</p>
 <p>Upper and lower element only: a traditional cooking method best suited for single items located in the centre of the oven. the top pf the oven will always be hottest. Ideal for roast, fruit cakes, bread etc.</p>	 <p>Circulaire: The combination of the fan and circular element around it gives a hot air cooking method. This provides many benefits including no preheat if cook time is more than 20 minutes, no flavour transfer when cooking different foods at the same time, less energy, and shorter cook times. Good for all types of food.</p>
 <p>ECO: The combination of the grill, fan and lower element is particularly suitable for cooking small quantities of food.</p>	 <p>Grill element: Using of grill gives excellent results when cooking meat of medium and small portions, especially when combined with a rotisserie (where possible). Also ideal for cooking sausages and bacon.</p>
 <p>Half grill: For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.</p>	 <p>Fan with grill element: The fan reduces the fierce heat from the grill, providing an excellent method of grilling various foods, chops, steaks, sausages etc. giving even browning and heat distribution, without drying out the food. The top two levels recommended for use, and the lower part of the oven can be used to keep items warm at the same time, an excellent facility when cooking a grilled breakfast. Half grill (centre portion only) is ideal for small quantities of food.</p>
 <p>Circulaire with upper and lower elements: The use of the fan with both elements allows food to be cooked quickly and effectively, ideal for large joints that require thorough cooking. It offers a similar result to rotisserie, moving the heat around the food, instead of moving the food itself, enabling any size or shape to be cooked.</p>	 <p>Overheat protection: The safety system that automatically turns off the hob in case of overheating of the control unit.</p>

-
- | | | | |
|--|---|---|---|
|  | Induction: The work of these hobs is based on the principle of electromagnetic induction. The heat is generated directly in the bottom of the pan during its contact with the hob. |  | All glass inner door: All glass inner door, a single flat surface which is simple to keep clean. |
|  | The inner door glass: can be removed with a few quick movements for cleaning. |  | Side lights: Two opposing side lights increase visibility inside the oven. |
|  | Automatic opening: some models have Automatic opening door when the cycle is finished which is a perfect solution for handle-less kitchen units as no handle is needed. For safety reasons, the door locks automatically when the machine is in use to avoid it being opened inadvertently. |  | Pyrolytic: Pyrolytic cleaning cycles can be selected as necessary to automatically clean the oven interior. |
|  | Indication of residual heat: After the glass ceramic hob is switched off the residual heat indicator shows which of the heating zones still remains hot. When the temperature drops below 60 ° C, the indicator goes out. |  | The oven cavity has 5 different cooking levels. |
|  | Telescopic rails: allow you to pull out the dish and check it without having to remove it from the oven entirely. |  | Timer: All ceramic hobs have a timer which automatically ends cooking after a preset time. |
|  | TWIN_ZONE_72dpi |  | The capacity indicates the amount of usable space in the oven cavity in litres. |
|  | ... | | |

Benefit (TT)

True-convection

The best cooking performances guaranteed by ventilated circular flow.

Multiple fans and heating elements guarantee the perfect aerodynamic heat flow, allowing homogeneous and quicker cooking inside the cavity.

Induction hob

Induction offers fast cooking and precise temperature control

Through the use of suitable cookware, induction is easy to use and maintain, safe and responsive

Touch control

Easy and intuitive timer setting with a single touch

Single turbine

The oven has a fan equipped with a circular heating element allowing cooking with rotating heat

Isothermic Cavity

The best cooking performance at the highest energy efficiency

Tangential cooling

New cooling system with tangential fan and airflow from the door to the splashback

Pyrolysis

Easy oven cleaning thanks to special pyrolytic function

Multilevel halogen light

Internal halogen lighting on different levels guarantees excellent visibility

Telescopic guides

Easy extraction and safe insertion of trays into the oven thanks to telescopic guides

Adjustable height

Cooker top flushed with the working area thanks to adjustable feet

Removable inner glass

Internal door glasses are easily removable for complete cleaning

Multilevel cooking

Several cooking levels allow maximum flexibility of use

Cold door

During any function, the external door glass is cold, avoiding any risk of burns

AirFry (AIRFRY optional accessory)

Lighter and tastier food thanks to airfry basket

BBQ (optional accessory)

Barbeque cooking directly in the oven with the double-sided grill

Pizza stone (optional accessory)

Baking with refractory stone for soft and crispy pizza and yeast products (STONE optional accessory)

Storage compartment

More space thanks to the lower compartment, ideal for storing accessories or cooking utensils
