

C7GPX9

Cooker size	70x60 cm
N. of cavities with energy label	1
Cavity heat source	Electric
Hob type	Gas
Type of main oven	Thermo-ventilated
Cleaning system main oven	Pyrolytic
EAN code	8017709272616
Energy efficiency class	A

Aesthetics

Design	Square design	Control knobs	Smeg Classic
Command panel finish	Finger friendly stainless steel	Controls colour	Stainless steel
Aesthetics	Classic	No. of controls	7
Logo	Assembled st/steel	Serigraphy colour	Black
Colour	Stainless steel	Display	Touch
Logo position	Facia below the oven	Door	With 2 horizontal strips
Finishing	Brushed	Glass type	dark grey
Upstand	Yes	Handle	Smeg Classic
Series	Symphony	Handle Colour	Brushed stainless steel
Hob colour	Stainless steel	Storage compartment	Door
Type of pan stands	Cast Iron	Feet	Silver
Type of control setting	Control knobs		

Programs / Functions

No. of cooking functions

9

Light when oven door is open	Yes	Lower heating element power	1200 W
Door opening	Flap down	Upper heating element - Power	1000 W
Removable door	Yes	Grill elememt	1700 W
Full glass inner door	Yes	Large grill - Power	2700 W
Removable inner door	Yes	Circular heating element - Power	2000 W
		Grill type	Electric

Options Main Oven

Timer	Yes	Minimum Temperature	50 °C
End of cooking acoustic alarm	Yes	Maximum temperature	280 °C

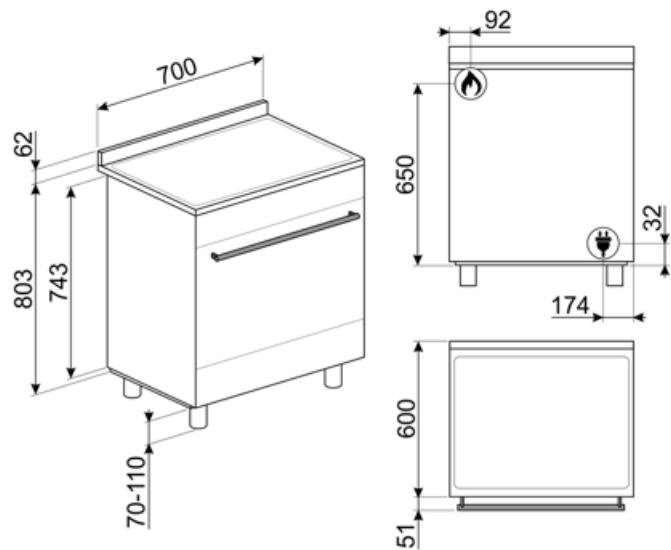

Accessories included for Main Oven & Hob

Moka stand	1	Grill mesh	1
Chrome shelf with back and side stop	2	Telescopic Guide rails, partial Extraction	1
40mm deep tray	1		

Electrical Connection

Max Power Draw	3000 W	Power supply cable length	115 cm
Current	13 A	Frequency	50/60 Hz
Voltage	220-240 V	Terminal block	3 poles
Type of electric cable	Yes, Single phase	Plug	No

Compatible Accessories

AIRFRY

Air fryer rack AIRFRY. Ideal for recreating traditional frying in the oven, but with fewer calories and less fat. It allows you to cook quickly and simply dishes such as French fries, fried vegetables and fish, ensuring perfect browning and crispiness.

BBQ

Double sided plate BBQ. Suitable for recreating succulent and crispy dishes in the oven with the typical taste of grilled cooking. The ribbed side is particularly suitable for meats and cheeses. The smooth side for fish, seafood and vegetables.

BN640

Enamelled tray, 40mm deep

AIRFRY2

Air fryer tray. Ideal for recreating traditional frying in the oven, but with fewer calories and less fat. It allows you to cook quickly and simply dishes such as French fries, fried vegetables and fish, ensuring perfect browning and crispiness.

BN620-1

Enamelled tray, 20mm deep

BNP608T

Teflon-coated tray, 8mm depth, to be placed on the grid

GTP

Partially extractable telescopic guides (1 level) Extraction: 300 mm Material: Stainless steel AISI 430 polished

GTT

Totally extractable telescopic guides (1 level) Extraction: 433 mm Material: Stainless steel AISI 430 polished

KITC7X

Splashback, 70x75 cm, stainless steel, suitable for Symphony cookers

KITPBX

Height reduction feet (850 mm)

PALPZ

Pizza shovel with fold away handle width: 315mm length : 325mm

SFLK1

Child lock

SMOLD

Set of 7 silicone moulds for ice creams, ice lollies, pralines, ice cubes or to portion food. Usable from -60°C to +230°C

Symbols glossary

	A: Product drying performance, measured from A+++ to D / G depending on the product family		Heavy duty cast iron pan stands: for maximum stability and strength.
	Installation in column: Installation in column		Air cooling system: to ensure a safe surface temperatures.
	Quadruple glazed: Number of glazed doors.		Enamel interior: The enamel interior of all Smeg ovens have a special antacid lining which helps keep the interior clean by reducing the amount of cooking grease adhering to it.
	Fingerprint proof stainless steel: Fingerprint proof stainless steel keeps stainless steel looking as good as new.		Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.
	Fan with upper and lower elements: The elements combined with the fan aim to provide more uniform heat, a similar method to conventional cooking, so pre-heat is required. Most suitable for items requiring slow cooking methods.		Upper and lower element only: a traditional cooking method best suited for single items located in the centre of the oven. the top pf the oven will always be hottest. Ideal for roast, fruit cakes, bread etc.
	Circulaire: The combination of the fan and circular element around it gives a hot air cooking method. This provides many benefits including no preheat if cook time is more than 20 minutes, no flavour transfer when cooking different foods at the same time, less energy, and shorter cook times. Good for all types of food.		ECO: The combination of the grill, fan and lower element is particularly suitable for cooking small quantities of food.
	Grill element: Using of grill gives excellent results when cooking meat of medium and small portions, especially when combined with a rotisserie (where possible). Also ideal for cooking sausages and bacon.		Half grill: For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.
	Fan with grill element: The fan reduces the fierce heat from the grill, providing an excellent method of grilling various foods, chops, steaks, sausages etc. giving even browning and heat distribution, without drying out the food. The top two levels recommended for use, and the lower part of the oven can be used to keep items warm at the same time, an excellent facility when cooking a grilled breakfast. Half grill (centre portion only) is ideal for small quantities of food.		Circulaire with upper and lower elements: The use of the fan with both elements allows food to be cooked quickly and effectively, ideal for large joints that require thorough cooking. It offers a similar result to rotisserie, moving the heat around the food, instead of moving the food itself, enabling any size or shape to be cooked.
	All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.		The inner door glass: can be removed with a few quick movements for cleaning.

Side lights: Two opposing side lights increase visibility inside the oven.

Automatic opening: some models have Automatic opening door when the cycle is finished which is a perfect solution for handle-less kitchen units as no handle is needed. For safety reasons, the door locks automatically when the machine is in use to avoid it being opened inadvertently.

Pyrolytic: Pyrolytic cleaning cycles can be selected as necessary to automatically clean the oven interior.

The oven cavity has 5 different cooking levels.

Telescopic rails: allow you to pull out the dish and check it without having to remove it from the oven entirely.

Ultra rapid burners: Powerful ultra rapid burners offer up to 5kw of power.

The capacity indicates the amount of usable space in the oven cavity in litres.

The touch timer display or DigiScreen guarantees simple functionality. They display the time, set programmed cooking and the minute minder timer.
