

C9174TN5D

Product Family	Refrigerator
Installation	Built-in
Category	Bottom Mount
Built-in niche	178
Reference width	Until 60
Reference height	160 - 200
No-Frost system	Total
Cooling type	Total No Frost - Double Cooling system
Defrost	Automatic
Hinge type	Sliding
Kitchen panel	Not supplied
Hinge position	Right
Reversible door	Yes
EAN code	8017709337223

Aesthetics

Aesthetics	Universal	Door shelves profile colour	Silver
Colour	White	Drawers profile colour	Silver
Material	Metal sheet	Colour of glass shelf profile	Silver
Side material	Steel	Display	LCD Touch
Side colour	White	Display position	Interior (on the top)
Logo	Silk screen		

Refrigerator compartment features

No. of adjustable shelves	3	Type of crisper/vegetable drawers cover	Glass
Number of fruit and vegetables drawers	2	No. of lights	3
Type of adjustable shelves	Glass	Internal light in fridge	Yes
Type of crisper/vegetable drawers cover	On sliding rails	Type of internal light (fridge)	LED
Crisper Cover	Yes		

Refrigerator Inner Door

No. of bottle shelves	1
-----------------------	---

No. of door shelves with transparent cover 1

Number of adjustable door shelves 2

Other Refrigerator features

Accessories
MultiFlow

Egg tray
Metal

Fan

Yes

Freezer compartment features

Number of drawers 3

Other Freezer features

Accessories 1 ice box

Other technical features

Functions display

Fast freezing, Fast cooling, ECO, Control lock, Temperature alarm, Cooling timer

Temperature alarm lamp

Yes

Door open alarm

Yes

Temperature Alarm

Yes

Type of temperature control

Electronic

No. of compressors

1

Refrigerant gas type

R600a

Type of compressor

Variable Speed Compressor

Foam agent

Cyclopentane

Performance / Energy Label

Annual energy consumption 173 KWh/year

Noise level 35 dB(A) re 1 pW

Energy efficiency class D

Thaw time 11 h

Airborne acoustical noise emission class B

4 star - Freezing capacity 7.5 Kg/24h

Total volume 248 l

Climatic class SN, N, ST, T

Sum of the volumes of the frozen compartment(s) 62 l

EEl 80 %

Sum of the volumes of the chill compartment(s) and the unfrozen compartment(s) 186 l

Electrical Connection

Plug	(F;E) Schuko	Voltage (V)	230-240 V
Nominal power	140 W	Frequency (Hz)	50 Hz
Current	1,1 A	Power supply cable length	240 cm

Symbols glossary

-  The automatic defrost system works by automatically defrosting at regular intervals eliminating the need to defrost altogether.
-  LCD display: to optimize performance and simplify the use of the appliance.
-  Ventilated: Forced distribution of cold air in the refrigerator compartment, which allows even temperature distribution within the fridge.
-  LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance.
-  Built-in niche
-  Multiflow Cooling System: the Multiflow ventilation system allows an even distribution of cool air around the fridge cabinet. The stainless steel panel gives a more premium look to the appliance.
-  Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.
-  Economical mode: Analyzes fridge functioning during the activation and optimizes the operating cycle in order to reduce power consumption.
-  Fast freezing: The fast freezing function brings the temperature of the compartment down when activated a few hours prior to usage.
-  Inverter technology: The evolution of Smeg's driers towards more intelligent and environmentally sustainable models has led to the choice of using Inverter technology with heat pumps, which reduces significantly energy consumption.
-  Energy efficiency class D

Benefit

No-Frost system

The No Frost system prevents the formation of ice and contributes to better preservation of food in the refrigerator

Metallic Multiflow system

The metal Multiflow system ensures an even distribution of cold air inside the refrigerator, which diffuses through an elegant stainless steel panel

A back panel with a series of openings ensures uniform circulation of cold air around each shelf of the refrigerator. This advanced air recirculation system ensures a constant temperature and humidity level, preserving food freshness for longer and helping to reduce food waste significantly

Fan

The fan contributes to an even distribution of air inside the refrigerator

Refrigerant gas R600a

Environmentally friendly R600a refrigerant gas contributes to rapid cooling with lower energy consumption

Refrigerator Internal lighting

Interior lighting for perfect visibility of shelves in the refrigerator compartment

Fruit and vegetable drawer

The fruit and vegetable drawer ensures the best storage conditions for fresh food, avoiding any contamination

Inverter compressor

Inverter compressor reduces noise and vibration levels for a quiet and comfortable kitchen environment

Inverter compressor technology offers significant advantages for refrigeration systems, improving both performance and efficiency. Better temperature control ensures a more stable and constant indoor environment, preserving the freshness of food. This technology also results in reduced energy consumption, as the compressor adjusts its speed according to cooling needs.

Internal display

Internal display for targeted temperature control and a clean, minimalist design
