

C9IMN2

Cooker size	90x60 cm
N. of cavities with energy label	1
Cavity heat source	ELECTRICITY
Hob type	Induction
Type of main oven	Thermo-ventilated
Cleaning system main oven	Vapor Clean
EAN code	8017709336233
Energy efficiency class	A

Aesthetics

			
Aesthetic	Classica	No. of controls	7
Series	Sinfonia	Serigraphy colour	Silver
Colour	Black	Type of control setting hob	Control knobs
Finishing	Matt black	Hob LED colours	Red
Design	Square design	Handle	Smeg Classic
Door	With 2 horizontal strips	Handle Colour	Black
Hob colour	Black enamel	Glass type	Eclipse
Command panel finish	Enamelled metal	Feet	Black
Control knobs	Smeg Classic	Storage compartment	Door
Controls colour	Black	Logo	Assembled st/steel
Display	DigiScreen	Logo position	Facia below the oven

Programme / Functions

No. of cooking functions	9
Traditional cooking functions	

 Static	 Fan assisted	 Circulaire
 Eco	 Small grill	 Large grill
 Fan grill (large)	 Base	 Fan assisted bottom

Cleaning functions

 Vapor clean

Other functions

 Defrost by time

Hob options

			
Control lock	Yes	Limited Power	3700, 4800, 7400 W
Limited Power	Yes	Consumption Mode in W	
Consumption Mode		Multizone Option	Yes

Hob technical features

Total no. of cook zones 5

Front left - Induction - multizone - 2.10 kW - Booster 2.30 kW - 21.0x19.0 cm

Rear left - Induction - multizone - 1.60 kW - Booster 1.85 kW - 21.0x19.0 cm

Central - Induction - single - 2.30 kW - Booster 3.00 kW - Ø 27.0 cm

Rear right - Induction - single - 1.20 kW - Booster 1.40 kW - Ø 18.0 cm

Front right - Induction - single - 2.30 kW - Booster 3.00 kW - Ø 21.0 cm

No. of cooking zones with Booster	5	Minimum pan diameter indication	Yes
Automatic switch off when overheat	Yes	Selected zone indicator	Yes
Automatic pan detection	Yes	Residual heat indicator	Yes

Main Oven Technical Features

No. of lights	2	Removable inner door	Yes
Fan number	2	Total no. of door glasses	3
Net volume of the cavity	115 l	No. of thermo-reflective door glasses	2
Gross volume, 1st cavity	129 l	Safety Thermostat	Yes
Cavity material	Ever Clean enamel	Cooling system	Tangential
No. of shelves	5	Usable cavity space dimensions (HxWxD)	371x724x418 mm
Type of shelves	Metal racks	Temperature control	Electro-mechanical
Light type	Halogen	Lower heating element power	1700 W
Light Power	40 W	Upper heating element - Power	1200 W
Cooking time setting	Start and Stop	Grill element	1700 W
Light when oven door is open	Yes		
Door opening	Flap down		
Removable door	Yes		

Full glass inner door	Yes	Large grill - Power	2900 W
		Circular heating element - Power	2 x 1550 W
		Grill type	Electric

Options Main Oven

Timer	Yes	Minimum Temperature	50 °C
End of cooking acoustic alarm	Yes	Maximum temperature	260 °C

Accessories included for Main Oven & Hob

Rack with back and side stop	1	Grill mesh	1
20mm deep tray	1	Meat Probe	1
40mm deep tray	1		

Electrical Connection

Electrical connection rating	10600 W	Voltage 2 (V)	380-415 V
Current	46 A	Frequency	50/60 Hz
Voltage	220-240 V	Terminal block	5 poles

Not included accessories

AIRFRY9

Air fryer rack AIRFRY . Ideal for recreating traditional frying in the oven, but with fewer calories and less fat. It allows you to cook quickly and simply dishes such as French fries, fried vegetables and fish, ensuring perfect browning and crispiness.

SFLK1

Child lock

PRTX

Refractory pizza stone with handles. D=35cm Not suitable for microwave ovens. Suitable for gas ovens, to be put on the griddle.

PPR9

Refractory pizza stone without handles. Squared shaped stone: L64xH2,3xP37,5 cm Suitable also for gas ovens, to be put on the griddle.

BBQ9

SCRP

Non-scratch hob scraper - suitable for induction and ceramic hobs

KITH95MN

GTP

Partially extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

GRILLPLATE

Universal griddle for induction, gas, ceramic and electric hobs. Non-stick surface ideal for cooking meat, cheese and vegetables. Dimensions: 410 x 240 mm.

KITPBX

Height reduction feet (850mm), st/steel, for Sinfonia and Master cookers (845-856mm)

KITSB9MB

BBQ

Double sided plate BBQ. Suitable for recreating succulent and crispy dishes in the oven with the typical taste of grilled cooking. The ribbed side is particularly suitable for meats and cheeses. The smooth side for fish, seafood and vegetables.

TPKPLATE

Universal plate for induction, gas, ceramic and electric hobs. Non-stick surface ideal for cooking fish, eggs and vegetables. Dimensions: 410 X 240 mm.

KITC9X9-1

Splashback kit, st/steel, 90cm, suitable for Portofino Multifunction, Master and Sinfonia cookers

PALPZ

Pizza shovel with folding handle. Dimensions L31.5 x H32.5 cm. Easy and convenient to use and store. Perfect for serving pizza, bread and savory pastries in a safe and professional way.

KITC9X9

Splashback, 90x75 cm, stainless steel, suitable for Master cookers

GTT

Totally extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

SMOLD

Set of 7 silicone moulds for ice creams, ice lollies, pralines, ice cubes or to portion food. Usable from -60°C to +230°C

Symbols glossary (TT)

	A: Product drying performance, measured from A+++ to D / G depending on the product family		Power booster: option allows the zone to work at full power when very intense cooking is necessary.
	Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.		Air cooling system: to ensure a safe surface temperatures.
	Defrost by time: Manual defrost function. At the end of the set duration, the function stops.		Triple glazed doors: Number of glazed doors.
	ECO-logic: option allows you to restrict the power limit of the appliance real energy saving.		Ever Clean Enamel: Ever Clean enamel is applied electrostatically, corner to corner and edge to edge to prevent cracking or cracks over time. It is a particular pyrolytic enamel, resistant to acids which, in addition to being pleasantly bright, promotes greater cleaning of the oven walls, thanks to its lower porosity. It is baked at over 850 ° C and slowly polymerized at a scientifically determined rate to ensure uniform depth and strength Ever Clean enamel creates an impeccable finish both on the inside of the oven and on the trays, making the surfaces of the oven incredibly easy to maintain over time as it reduces the adhesion of fat during cooking
	Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.		Fan assisted: Intense and homogeneous traditional cooking, also suitable for complex recipes. The fan is active and the heat comes from below and from above at the same time. Ventilated cooking ensures a faster and more homogeneous result, leaving fragrant foods outside and moister inside. Ideal for baked pasta, biscuits, roasts and cobblers.
	Static: Traditional cooking suitable for the preparation of one dish at a time. The fan is not active and the heat comes from below and from above at the same time. Static cooking is slower and more delicate, ideal in order to get well cooked and dry dishes even inside. Ideal for cooking all types of roasts, fatty meats, bread, filled cakes.		Base: the heat comes only from the bottom of the cavity. The fan is not active. Ideal for sweet and savory pies, cobblers and pizzas. Designed to complete cooking and make food more crunchy This symbol in gas ovens indicates the gas burner.
	Circulaire: it is the perfect function for cooking all types of dishes in a more delicate way. The heat comes from the back of the oven and is distributed quickly and evenly The fan is active. It is also ideal for cooking on multiple levels without mixing smells and flavors.		ECO: low energy consumption cooking: this function is particularly suitable for cooking on a single shelf with low energy consumption. It is recommended for all types of food except those that can generate a lot of moisture (for example vegetables). To achieve maximum energy savings and reduce time, it is recommended to put the food in the oven without preheating the cooking compartment

	Grill: Very intense heat coming only from above from a double heating element. The fan is not active. Provides excellent grilling and gratinating results. Used at the end of cooking, it gives a uniform browning to dishes.		Half grill: For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.
	Fan grill: very intense heat coming only from above from a double heating element The fan is active. It allows the optimal grilling of thickest meats. Ideal for large cuts of meat.		Overheat protection: The safety system that automatically turns off the hob in case of overheating of the control unit.
	Induction: The work of these hobs is based on the principle of electromagnetic induction. The heat is generated directly in the bottom of the pan during its contact with the hob.		All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.
	The inner door glass: can be removed with a few quick movements for cleaning.		Side lights: Two opposing side lights increase visibility inside the oven.
	Indication of residual heat: After the glass ceramic hob is switched off the residual heat indicator shows which of the heating zones still remains hot. When the temperature drops below 60 ° C, the indicator goes out.		The oven cavity has 5 different cooking levels.
	Vapor Clean: a simple cleaning function using steam to loosen deposits in the oven cavity.		The capacity indicates the amount of usable space in the oven cavity in litres.
	4.3 inch display with LED technology, usability with knobs + 3 touch keys		Knobs control

Benefit (TT)

True-convection

The best cooking performances guaranteed by ventilated circular flow.

Multiple fans and heating elements guarantee the perfect aerodynamic heat flow, allowing homogeneous and quicker cooking inside the cavity.

Induction hob

Induction offers fast cooking and precise temperature control

Through the use of suitable cookware, induction is easy to use and maintain, safe and responsive

Vapor Clean

By inserting water into a recess at the bottom of the cavity, steam is generated, which softens the residue and facilitates its removal

By inserting water into a recess at the bottom of the cavity, steam is generated, which softens the residue and facilitates its removal.
