

C9IMN2

| | |
|----------------------------------|-------------------|
| Cooker size | 90x60 cm |
| N. of cavities with energy label | 1 |
| Cavity heat source | ELECTRICITY |
| Hob type | Induction |
| Type of main oven | Thermo-ventilated |
| Cleaning system main oven | Vapor Clean |
| EAN code | 8017709336233 |
| Energy efficiency class | A |

Aesthetics

| | | | |
|------------------------------------|----------------------|----------------------------|--------------------------|
| Design | Square design | Controls colour | Black |
| Aesthetic | Classica | No. of controls | 7 |
| Logo | Assembled st/steel | Serigraphy colour | Silver |
| Colour | Matt Black | Display name | DigiScreen |
| Logo position | Facia below the oven | Door | With 2 horizontal strips |
| Finishing | Matt black | Glass type | Eclipse |
| Series | Sinfonia | Handle | Smeg Classic |
| Hob colour | Matt black painted | Handle Colour | Black |
| Type of control setting hob | Control knobs | Storage compartment | Door |
| Hob LED colours | Red | Feet color | Black |
| Type of control knobs | Smeg Classic | | |

Programs / Functions main oven

No. of cooking functions 9

Traditional cooking functions

| | | |
|--|--|---|
|  Static |  Fan assisted |  Circulaire |
|  Eco |  Small grill |  Large grill |
|  Fan grill (large) |  Base |  Fan assisted base |

Other functions

 Defrost by time

Cleaning functions

 Vapor clean

Hob options

| | | | |
|------------------|-----|-----------------------|--------------------|
| Control lock | Yes | Limited Power | 3700, 4800, 7400 W |
| Limited Power | Yes | Consumption Mode in W | |
| Consumption Mode | | Multizone Option | Yes |

Hob technical features

Total no. of cook zones 5

Front left - Induction - multizone - 2.10 kW - Booster 2.30 kW - 21.0x19.0 cm

Rear left - Induction - multizone - 1.60 kW - Booster 1.85 kW - 21.0x19.0 cm

Central - Induction - single - 2.30 kW - Booster 3.00 kW - Ø 27.0 cm

Rear right - Induction - single - 1.20 kW - Booster 1.40 kW - Ø 18.0 cm

Front right - Induction - single - 2.30 kW - Booster 3.00 kW - Ø 21.0 cm

| | | | |
|------------------------------------|-----|---------------------------------|-----|
| No. of cooking zones with Booster | 5 | Minimum pan diameter indication | Yes |
| Number of Flexible zones | 1 | Selected zone indicator | Yes |
| Automatic switch off when overheat | Yes | Residual heat indicator | Yes |
| Automatic pan detection | Yes | | |

Main Oven Technical Features

| | | | |
|------------------------------|-------------------|--|--------------------|
| No. of lights | 2 | Removable inner door | Yes |
| Fan number | 2 | Total no. of door glasses | 3 |
| Net volume of the cavity | 115 l | No. of thermo-reflective door glasses | 2 |
| Gross volume, 1st cavity | 129 l | Safety Thermostat | Yes |
| Cavity material | Ever Clean enamel | Cooling system | Tangential |
| No. of shelves | 5 | Usable cavity space dimensions (HxWxD) | 371x724x418 mm |
| Type of shelves | Metal racks | Temperature control | Electro-mechanical |
| Light type | Halogen | Lower heating element power | 1700 W |
| Light Power | 40 W | Upper heating element - Power | 1200 W |
| Cooking time setting | Start and Stop | | |
| Light when oven door is open | Yes | | |
| Door opening | Flap down | | |

| | | | |
|------------------------------|-----|---|------------|
| Removable door | Yes | Grill element | 1700 W |
| Full glass inner door | Yes | Large grill - Power | 2900 W |
| | | Circular heating element - Power | 2 x 1550 W |
| | | Grill type | Electric |

Options Main Oven

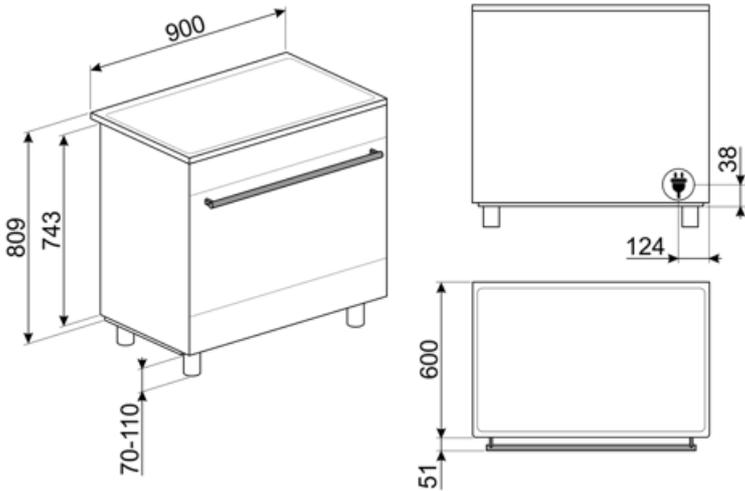

| | | | |
|--------------------------------------|-----|----------------------------|--------|
| Timer | Yes | Minimum Temperature | 50 °C |
| End of cooking acoustic alarm | Yes | Maximum temperature | 260 °C |

Accessories included for Main Oven & Hob

| | | | |
|-------------------------------------|---|-------------------|---|
| Rack with back and side stop | 1 | Grill mesh | 1 |
| 20mm deep tray | 1 | Meat Probe | 1 |
| 40mm deep tray | 1 | | |

Electrical Connection

| | | | |
|-------------------------------------|-----------|-----------------------|-------------|
| Electrical connection rating | 10600 W | Frequency | 50/60 Hz |
| Current | 46 A | Terminal block | 5 poles |
| Voltage | 220-240 V | Plug | Not present |
| Voltage 2 (V) | 380-415 V | | |

Compatible Accessories

AIRFRY9

Air fryer rack AIRFRY . Ideal for recreating traditional frying in the oven, but with fewer calories and less fat. It allows you to cook quickly and simply dishes such as French fries, fried vegetables and fish, ensuring perfect browning and crispiness.

BBQ9

teflon-coated aluminum grid for 90 cm cavity

BN940

Enamelled tray 90 cm, 40 mm deep

GTP

Partially extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

KITC9X9-1

Splashback kit, st/steel, 90cm, suitable for Portofino Multifunction, Master and Sinfonia cookers

KITPBX

Height reduction feet (850mm), st/steel, for Sinfonia and Master cookers (845-856mm)

PALPZ

Pizza shovel with folding handle. Dimensions L31.5 x H32.5 cm. Easy and convenient to use and store. Perfect for serving pizza, bread and savory pastries in a safe and professional way.

SFLK1

Child lock

BBQ

Double sided plate BBQ. Suitable for recreating succulent and crispy dishes in the oven with the typical taste of grilled cooking. The ribbed side is particularly suitable for meats and cheeses. The smooth side for fish, seafood and vegetables.

BN920

Enamelled tray 90cm cavity, 20mm deep

GRILLPLATE

Universal griddle for induction, gas, ceramic and electric hobs. Non-stick surface ideal for cooking meat, cheese and vegetables. Dimensions: 410 x 240 mm.

GTT

Totally extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

KITH95MN

KITSB9MB

SCRP

Non-scratch hob scraper - suitable for induction and ceramic hobs

SMOLD

Set of 7 silicone moulds for ice creams, ice lollies, pralines, ice cubes or to portion food. Usable from -60°C to +230°C

TPKPLATE

Universal plate for induction, gas, ceramic and electric hobs. Non-stick surface ideal for cooking fish, eggs and vegetables. Dimensions: 410 X 240 mm.

Symbols glossary

| | |
|---|--|
|  <p>Automatic merge of zones for a bigger area</p> |  <p>Power booster: option allows the zone to work at full power when very intense cooking is necessary.</p> |
|  <p>Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.</p> |  <p>Energy efficiency class A</p> |
|  <p>Installation in column: Installation in column.</p> |  <p>Knobs control</p> |
|  <p>Air cooling system: to ensure a safe surface temperatures.</p> |  <p>Defrost by time: Manual defrost function. At the end of the set duration, the function stops.</p> |
|  <p>4.3 inch display with LED technology, usability with knobs + 3 touch keys</p> |  <p>Triple glazed doors: Number of glazed doors.</p> |
|  <p>ECO-logic: option allows you to restrict the power limit of the appliance real energy saving.</p> |  <p>Ever Clean Enamel: Ever Clean enamel is applied electrostatically, corner to corner and edge to edge to prevent cracking or cracks over time. It is a particular pyrolytic enamel, resistant to acids which, in addition to being pleasantly bright, promotes greater cleaning of the oven walls, thanks to its lower porosity. It is baked at over 850 °C and slowly polymerized at a scientifically determined rate to ensure uniform depth and strength. Ever Clean enamel creates an impeccable finish both on the inside of the oven and on the trays, making the surfaces of the oven incredibly easy to maintain over time as it reduces the adhesion of fat during cooking.</p> |
|  <p>Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.</p> |  <p>Fan assisted: Intense and homogeneous traditional cooking, also suitable for complex recipes. The fan is active and the heat comes from below and from above at the same time. Ventilated cooking ensures a faster and more homogeneous result, leaving fragrant foods outside and moister inside. Ideal for baked pasta, biscuits, roasts and cobblers.</p> |
|  <p>Static: Traditional cooking suitable for the preparation of one dish at a time. The fan is not active and the heat comes from below and from above at the same time. Static cooking is slower and more delicate, ideal in order to get well cooked and dry dishes even inside. Ideal for cooking all types of roasts, fatty meats, bread, filled cakes.</p> |  <p>Base: the heat comes only from the bottom of the cavity. The fan is not active. Ideal for sweet and savory pies, cobblers and pizzas. Designed to complete cooking and make food more crunchy. This symbol in gas ovens indicates the gas burner.</p> |

Circulaire: it is the perfect function for cooking all types of dishes in a more delicate way. The heat comes from the back of the oven and is distributed quickly and evenly. The fan is active. It is also ideal for cooking on multiple levels without mixing smells and flavors.

ECO: low energy consumption cooking: this function is particularly suitable for cooking on a single shelf with low energy consumption. It is recommended for all types of food except those that can generate a lot of moisture (for example vegetables). To achieve maximum energy savings and reduce time, it is recommended to put the food in the oven without preheating the cooking compartment.

Grill: Very intense heat coming only from above from a double heating element. The fan is not active. Provides excellent grilling and gratinating results. Used at the end of cooking, it gives a uniform browning to dishes.

Half grill: For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.

Fan grill: very intense heat coming only from above from a double heating element. The fan is active. It allows the optimal grilling of thickest meats. Ideal for large cuts of meat.

Overheat protection: The safety system that automatically turns off the hob in case of overheating of the control unit.

Induction: The work of these hobs is based on the principle of electromagnetic induction. The heat is generated directly in the bottom of the pan during its contact with the hob.

All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.

The inner door glass: can be removed with a few quick movements for cleaning.

Side lights: Two opposing side lights increase visibility inside the oven.

Automatic opening: some models have Automatic opening door when the cycle is finished which is a perfect solution for handle-less kitchen units as no handle is needed. For safety reasons, the door locks automatically when the machine is in use to avoid it being opened inadvertently.

Indication of residual heat: After the glass ceramic hob is switched off the residual heat indicator shows which of the heating zones still remains hot. When the temperature drops below 60 ° C, the indicator goes out.

The oven cavity has 5 different cooking levels.

Vapor Clean: a simple cleaning function using steam to loosen deposits in the oven cavity.

The capacity indicates the amount of usable space in the oven cavity in litres.
