

CB300UI

Product Family	Refrigerator
Installation	Built-in
Category	Bottom Mount
Cooling type	Fan assisted refrigerator, no-frost freezer
Defrost	Automatic
Hinge type	Door on door
Hinge position	Right
Reversible door	Yes
EAN code	8017709246884

Aesthetics

Finishing	Panel-ready	Color of glass shelf profile	White
Material	Stainless steel	Display	LED
Side material	Steel	Display position	Interno (sul Top)
Logo	Silk screen		

Refrigerator compartment features

Number of compartments	2	Type of adjustable shelves	Glass
Compartment types	Low temperature compartment, Fruit and vegetable compartment	Crisper Cover	Yes
No. of adjustable shelves	3	Low temperature compartment	Yes
Number of fruit and vegetables drawers	1	Type of internal light (fridge)	LED

Refrigerator Inner Door

No. of door shelves with transparent cover	1	No. of bottle shelves	1
Number of adjustable door shelves	1	Bottle shelves with wire support	Yes

Other Refrigerator features

Accessories
Fan

Yes

Antibacterial odour
filter

Yes

Freezer compartment features

Number of drawers

2

No. of shelves

1

Other Freezer features

Accessories
Ice maker

1 ice box
Automatic

Fast freezing
compartment
Ice tray shelf

Yes

Yes

Other technical features

Functions display

Holiday, Fast freezing, Fast cooling, ECO

Fast freezing button

Yes

Water network connection

Yes

Power on lamp

Yes

Temperature alarm lamp

Yes

Door open alarm

Yes

Type of temperature control

Electro-mechanical

No. of compressors

1

Refrigerant gas type

R600a

Foam agent

Cyclopentane

Performance / Energy Label - Reg. 2019

Airborne acoustical
noise emissions

39 dB(A) re 1 pW

Electrical Connection

Plug (B) NEMA 5-15P

Voltage (V) 120 V

Electrical connection
rating 170 W

Frequency (Hz) 60 Hz

Current 2,1 A

Power supply cable
length 84 5/8 "

Symbols glossary

	4 stars freezing compartment for better food preservation.		The automatic defrost system works by automatically defrosting at regular intervals eliminating the need to defrost altogether.
	LED display: to show programmes, functions and options selected and the time to the end of the cycle.		Economical mode: Analyzes fridge functioning during the activation and optimizes the operating cycle in order to reduce power consumption.
	Ventilated: Forced distribution of cold air in the refrigerator compartment, which allows even temperature distribution within the fridge.		Fast freezing: The fast freezing function brings the temperature of the compartment down when activated a few hours prior to usage.
	Power saving mode: The power saving mode allows you to disable the refrigerator and keep the freezer working.		LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance.
	Smeg's evolution towards more intelligent and eco-friendly models has led to the choice of Inverter technology, which significantly reduces consumption.		Built-in niche
	No Frost: The No Frost and Frost free systems prevent ice from forming so that no defrosting is required.		

Benefit (TT)

Fan

The fan contributes to an even distribution of air inside the refrigerator

Refrigerant gas R600a

Environmentally friendly R600a refrigerant gas contributes to rapid cooling with lower energy consumption

Climate class

Climatic class SN-T makes the appliance suitable for working at room temperature between 10 °C and 43 °C (50 °F ~ 109 °F)

Self-supporting hinges

Self-supporting hinges ensure a perfect fit between the equipment door and the cabinet door, giving the product a minimalist and elegant appearance

Refrigerator Internal lighting

Interior lighting for perfect visibility of shelves in the refrigerator compartment

Fruit and vegetable drawer

The fruit and vegetable drawer ensures the best storage conditions for fresh food, avoiding any contamination

Inverter compressor

Inverter compressor reduces noise and vibration levels for a quiet and comfortable kitchen environment

Inverter compressor technology offers significant advantages for refrigeration systems, improving both performance and efficiency. Better temperature control ensures a more stable and constant indoor environment, preserving the freshness of food. This technology also results in reduced energy consumption, as the compressor adjusts its speed according to cooling needs.

Automatic ice maker with direct water connection

Constant ice availability thanks to the automatic ice maker, directly connected to the water supply for effortless and uninterrupted production

Internal display

Internal display for targeted temperature control and a clean, minimalist design
