

CB300UI

Product family	Refrigerator
Installation	Built-in
Category	Bottom mount
No-frost system	Total
Cooling type	Fan-assisted refrigerator, no-frost freezer
Defrost	Automatic
Hinge	Door-to-door
Hinge position	Right
Reversible door	Yes
EAN code	8017709246884

Aesthetic

Finishing	Panel-ready	Glass shelf profile color	White
Material	Steel	Display	LED
Side material	Steel	Display position	Internal
Logo	Silkscreened		

Refrigerator compartment features

No. of adjustable shelves	3	Crisper cover	Yes
Number of fruit and vegetables drawers	2	Refrigerator lighting	LED
Type of adjustable shelves	Glass		

Refrigerator Inner Door

No. of door shelves with transparent cover	1	No. of bottle shelves	1
Number of adjustable door shelves	1	Door bin with wire support	Yes

Other Refrigerator features

Accessories

Fan Yes

Anti-odour filter

Yes

Freezer features

Number of drawers 2

No. of shelves 1

Other Freezer features

Accessories

Ice maker 1 x ice box Automatic

Fast-freezing compartment

Yes

Ice-tray shelf

Yes

Other technical features

Display functions

Fast-freezing button

Water network connection

Power-on light

Temperature alarm

Door open alarm

Temperature setting type

No. of compressors

Refrigerant gas type

Foam agent

Holiday, Fast-freezing, Fast-cooling, ECO

Electro-mechanical

1

R600a

Cyclopentane

Performance / Energy Label

Noise level 39 dB(A) re 1 pW

Electrical Connection

Plug (B) NEMA 5-15P

Electrical connection 170 W

rating 2.1 A

Current 2.1 A

Voltage (V) 120 V

Frequency (Hz) 60 Hz

Power cord length 84 5/8 "

Symbols glossary

	4 stars freezing compartment for better food preservation.		The automatic defrost system works by automatically defrosting at regular intervals eliminating the need to defrost altogether.
	LED display: to show programmes, functions and options selected and the time to the end of the cycle.		Economical mode: Analyzes fridge functioning during the activation and optimizes the operating cycle in order to reduce power consumption.
	Ventilated: Forced distribution of cold air in the refrigerator compartment, which allows even temperature distribution within the fridge.		Fast freezing: The fast freezing function brings the temperature of the compartment down when activated a few hours prior to usage.
	Power saving mode: The power saving mode allows you to disable the refrigerator and keep the freezer working.		LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance.
	Inverter technology: The evolution of Smeg's driers towards more intelligent and environmentally sustainable models has led to the choice of using Inverter technology with heat pumps, which reduces significantly energy consumption.		Built-in niche
	No Frost: The No Frost and Frost free systems prevent ice from forming so that no defrosting is required.		

Benefit (TT)

Fan

The fan contributes to an even distribution of air inside the refrigerator

Refrigerant gas R600a

Environmentally friendly R600a refrigerant gas contributes to rapid cooling with lower energy consumption

Climate class

Climatic class SN-T makes the appliance suitable for working at room temperature between 10 °C and 43 °C (50 °F ~ 109 °F)

Self-supporting hinges

Self-supporting hinges ensure a perfect fit between the equipment door and the cabinet door, giving the product a minimalist and elegant appearance

Refrigerator Internal lighting

Interior lighting for perfect visibility of shelves in the refrigerator compartment

Fruit and vegetable drawer

The fruit and vegetable drawer ensures the best storage conditions for fresh food, avoiding any contamination

Inverter compressor

Inverter compressor reduces noise and vibration levels for a quiet and comfortable kitchen environment

Inverter compressor technology offers significant advantages for refrigeration systems, improving both performance and efficiency. Better temperature control ensures a more stable and constant indoor environment, preserving the freshness of food. This technology also results in reduced energy consumption, as the compressor adjusts its speed according to cooling needs.

Internal display

Internal display for targeted temperature control and a clean, minimalist design
