Benefit

Conical burrs

Conical stainless steel grinders ensure better consistency of the selected grain size.

Versatile

Up to 30 degrees of fineness to grind at different grind grades, suitable for multiple types of extractions: Mocha, Frenchpress, Filter coffee or for espresso machines.

Grinding Function

Coffee grinder: the true aroma of coffee begins with the grinding

CGF11 marketing description HoC

CGF11 HoC Marketing Description

There are numerous methods for making an excellent coffee-based drink at home, but true connoisseurs understand that regardless of the extraction method used, the coffee beans must be freshly ground. The aroma and flavour of freshly ground coffee are far more intense than those of ready-ground coffee.

Whether you use an espresso or a filter coffee machine, a moka coffee pot or a French press: each method requires its own grind size, and the CGF11 multi-functional coffee grinder allows you to select the appropriate setting (Fine, Medium, Coarse) from 30 different grind sizes.

Its stainless steel conical grindstones guarantee an even grind that preserves all the coffee aromas without altering its flavour: simply select the type of grind and the desired amount of coffee. It will stop automatically as soon as the quantity of ground coffee is ready.
