|                                                                                    |                                                                                                                                                                                                          |                                                                                     |                                                                                                                                                                                       |
|------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|    | Rinsing: There is an automatic rinsing with hot water when the coffee machine is switched on.                                                                                                            |    | Automatic switch on: It is possible to program automatic switch on of the machine to make it ready for use by the required time.                                                      |
|    | Three levels adjustable coffee temperature to taste the coffee on the temperature desired.                                                                                                               |    | Semiprofessional steamer with a dedicated heating element to manage the steam outlet. Suitable for recipes such as hot chocolate, punch, bombardino, vin brulé.                       |
|    | Types of coffee: You can prepare the following types of coffee: Ristretto-Corto (small portion) / Normale (medium portion) / Lungo (large portion)                                                       |    | Types of coffee: You can prepare the following types of coffee: Ristretto-Corto (small portion) / Normale (medium portion) / Lungo (large portion)                                    |
|    | The double coffee function makes possible to prepare two espresso at the same time with just one infusion cycle.                                                                                         |    | Coffee beans: You can use coffee beans in the coffee machine with the possibility to adjust the coarseness of grind.                                                                  |
|    | Descaling function: Is essential to remove excess deposits of limestone in the tank and allow the proper operation of the product. The need to perform this operation is signaled by the product itself. |    | LCD display: to optimize performance and simplify the use of the appliance.                                                                                                           |
|  | Ground coffee: You can use ground coffee or coffee beans in the coffee machine with the possibility to adjust the coarseness of grind.                                                                   |  | Compact appliances with a height of 45 cm - perfect solution to meet the functional requirements of kitchen sets of small height. Available in several types and in different styles. |
|  | Hot water: Coffee machine can make hot water for tea or other hot drinks                                                                                                                                 |  | 5 levels adjustable coffee intensity. This function makes possible to adjust the quantity of beans grounded in any infusion cycle.                                                    |
|  | Side lights: Two opposing side lights increase visibility inside the oven.                                                                                                                               |  | The milk froth is adjustable through the thermal carafe knob.                                                                                                                         |
|  | Touch controls: Easy to use touch controls allow the appliance to be programmed at the touch of a button.                                                                                                |                                                                                     |                                                                                                                                                                                       |

---

## Benefit (TT)

---

### **Favorites Function**

'Favorites' function to save and recreate preferred drinks with a single touch, customizing intensity and quantity

### **Coffee compatibility**

Compatible with both coffee beans and ground coffee, ideal for switching between blends, including decaf
