 <p>Air cooling system: to ensure a safe surface temperatures.</p>	 <p>Triple glazed doors: Number of glazed doors.</p>
 <p>Ever Clean Enamel: Ever Clean enamel is applied electrostatically, corner to corner and edge to edge to prevent cracking or cracks over time. It is a particular pyrolytic enamel, resistant to acids which, in addition to being pleasantly bright, promotes greater cleaning of the oven walls, thanks to its lower porosity. It is baked at over 850 ° C and slowly polymerized at a scientifically determined rate to ensure uniform depth and strength Ever Clean enamel creates an impeccable finish both on the inside of the oven and on the trays, making the surfaces of the oven incredibly easy to maintain over time as it reduces the adhesion of fat during cooking</p>	 <p>Fingerprint proof stainless steel: Fingerprint proof stainless steel keeps stainless steel looking as good as new.</p>
 <p>Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.</p>	 <p>Base: the heat comes only from the bottom of the cavity. The fan is not active. Ideal for sweet and savory pies, cobblers and pizzas. Designed to complete cooking and make food more crunchy This symbol in gas ovens indicates the gas burner.</p>

Used at the end of cooking, it gives a uniform browning to dishes.</p>	 <p>Gas ovens offer instantaneous heat control, reduced cooking times and the ability to bake at much lower temperatures than electric ovens.</p>
 <p>All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.</p>	 <p>The inner door glass: can be removed with a few quick movements for cleaning.</p>
