

CPF30UGMX

Range size	30"
N. of cavities with energy label	1
Oven energy source	Electricity
Main oven	Thermo-ventilated
EAN code	8017709256449

Aesthetic

Aesthetics	Portofino	Controls color	Stainless steel
Design	Flush mounted	No. of controls	7
Color	Stainless steel	Silkscreen color	Black
Finishing	Satin	Display	Touch
Control panel finish	Fingerprint-proof stainless steel	Door	With frame
Logo	Stainless steel	Door glass type	Gray
Logo position	Fascia below the oven	Handle	Portofino
Upstand	Yes	Handle color	Brushed stainless steel
Cooktop color	Stainless steel	Storage compartment	Storage drawer
Grates	Cast Iron	Feet	Stainless steel
Control setting type	Control knobs	Plinth	Black
Control knobs	Portofino		

Programs / Functions

No. of cooking functions 9

Traditional cooking functions

 Static	 Fan-assisted	 True European convection
 Small grill	 Large grill	 Large grill + Fan
 Bottom	 Convection bottom	 Pizza

Other functions

 Defrost by time

Cooktop technical features

Cooking zones 4

Left - Gas - Dual ultra-rapid - 5860 W - 20000 BTU
 Rear-center - Gas - Semi-rapid - 2340 W - 8000 BTU
 Front-center - AUX - 1310 W - 4500 BTU
 Right - Gas - Ultra-rapid - 5860 W - 20000 BTU

Burners type	Standard	Gas safety valves	Yes
Automatic gas ignition	Yes	Burner caps	Enameled matte black

Main Oven Technical Features

No. of lights	2	Total no. of door glasses	3
Fan number	1	No. of thermo-reflective door glasses	2
Volume	0.13 cu. ft.	Safety thermostat	Yes
Cavity material	EverClean enamel	Cooling system	Tangential
No. of shelves	4	Inner cavity dimensions (HxWxD)	340 x 640 x 430 "
Shelves type	Metal racks	Temperature control	Electro-mechanical
Light type	Halogen	Bottom heating element - Power	1700 W
Light Power	40 W	Upper heating element - Power	1200 W
Time setting	Start and end	Grill power	1700 W
Light on when door is open	Yes	Large grill - Power	2900 W
Door opening	Drop-down	Circular heating element - Power	2700 W
Removable door	Yes	Grill type	Electric
Full-glass inner door	Yes	Soft Close system	Yes
Removable inner door	Yes		

Main oven options

Timer	Yes	Minimum Temperature	120 °F
End-of-cooking alarm	Yes	Maximum temperature	500 °F

Included accessories

Cast iron wok support	1	0.8"-deep tray	1
Oven wire rack	1		

TOP Oven grid with back stop	1	Grill mesh	1
Wide baking tray	1	Telescopic Guide rails, partial Extraction	1

Electrical Connection

Electrical connection rating	3700 W	Type of electric cable installed	Yes, Double phase
Current	20 A	Power cord length	47 1/4 "
Circuit breaker	20 A	Frequency	60 Hz
Voltage	240/208 V	Terminal block	5 poles

Not included accessories

GT91P

Partial-extraction telescopic guides for 30" Portofino ranges

SFLK1

Child lock

PALPZ

Pizza shovel with fold away handle
width: 315mm length : 325mm

Symbols glossary

 <p>Heavy duty cast iron pan stands: for maximum stability and strength.</p>	 <p>Installation in column: Installation in column</p>
 <p>Knobs control</p>	 <p>Air cooling system: to ensure a safe surface temperatures.</p>
 <p>Defrost by time: with this function the time of thawing of foods are determined automatically.</p>	 <p>...</p>
 <p>Triple glazed doors: Number of glazed doors.</p>	 <p>Enamel interior: The enamel interior of all Smeg ovens have a special antacid lining which helps keep the interior clean by reducing the amount of cooking grease adhering to it.</p>
 <p>Fingerprint proof stainless steel: Fingerprint proof stainless steel keeps stainless steel looking as good as new.</p>	 <p>Circogas: In gas ovens the fan distributes the heat quickly and evenly throughout the oven cavity, avoiding flavour transfer when cooking a number of different dishes at the same time. In electric ovens this combination completes cooking more quickly of foods that are ready on the surface, but that require more cooking inside, without further browning.</p>
 <p>Fan with upper and lower elements: The elements combined with the fan aim to provide more uniform heat, a similar method to conventional cooking, so pre-heat is required. Most suitable for items requiring slow cooking methods.</p>	 <p>Upper and lower element only: a traditional cooking method best suited for single items located in the centre of the oven. the top pf the oven will always be hottest. Ideal for roast, fruit cakes, bread etc.</p>
 <p>Lower heating element only: This function is ideal for foods that require extra base temperature without browning, e.g. pastry dishes, pizza. Also suitable for slow cooking of stews and casseroles.</p>	 <p>True European Convection: The combination of the fan and circular heating element around it provides many benefits, including no preheat if cooking time is longer than 20 minutes, no flavor transfer when cooking different foods at the same time, lower energy consumption, and shorter cooking times. Suitable for all types of food preparations.</p>
 <p>Grill element: Using of grill gives excellent results when cooking meat of medium and small portions, especially when combined with a rotisserie (where possible). Also ideal for cooking sausages and bacon.</p>	 <p>Half grill: For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.</p>
 <p>Fan with grill element: The fan reduces the fierce heat from the grill, providing an excellent method of grilling various foods, chops, steaks, sausages etc. giving even browning and heat distribution, without drying out the food. The top two levels recommended for use, and the lower part of the oven can be used to keep items warm at the same time, an excellent facility when cooking a grilled breakfast. Half grill (centre portion only) is ideal for small quantities of food.</p>	 <p>Pizza function: The simultaneous operation of three elements ensures an optimum cooking facility when used with the Smeg pizza stone.</p>

-
-  Gas ovens offer instantaneous heat control, reduced cooking times and the ability to bake at much lower temperatures than electric ovens.
 -  The inner door glass: can be removed with a few quick movements for cleaning.
 -  Automatic opening: some models have Automatic opening door when the cycle is finished which is a perfect solution for handle-less kitchen units as no handle is needed. For safety reasons, the door locks automatically when the machine is in use to avoid it being opened inadvertently.
 -  Soft close: all models are equipped with advanced function of smooth closing of the door, which allows the device to close smoothly and quietly.
 -  Ultra rapid burners: Powerful ultra rapid burners offer up to 5kw of power.
 -  All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.
 -  Side lights: Two opposing side lights increase visibility inside the oven.
 -  The oven cavity has 4 different cooking levels.
 -  Telescopic rails: allow you to pull out the dish and check it without having to remove it from the oven entirely.

Benefit (TT)

Gas hob

Induction offers fast cooking and precise temperature control

Equipped with a thermocouple, the gas supply is cut off if the flame is extinguished for greater safety

Touch control

Easy and intuitive timer setting with a single touch

Storage compartment

More space thanks to the lower compartment, ideal for storing accessories or cooking utensils

True-convection

The best cooking performances guaranteed by ventilated circular flow.

Multiple fans and heating elements guarantee the perfect aerodynamic heat flow, allowing homogeneous and quicker cooking inside the cavity.

Multilevel cooking

Several cooking levels allow maximum flexibility of use

Multilevel halogen light

Internal halogen lighting on different levels guarantees excellent visibility

Removable inner glass

Internal door glasses are easily removable for complete cleaning

Tangential cooling

New cooling system with tangential fan and airflow from the door to the splashback

Telescopic guides

Easy extraction and safe insertion of trays into the oven thanks to telescopic guides

Isothermic Cavity

The best cooking performance at the highest energy efficiency

BBQ (optional accessory)

Barbeque cooking directly in the oven with the double-sided grill

Pizza stone (optional accessory)

Baking with refractory stone for soft and crispy pizza and yeast products (STONE optional accessory)

Adjustable height

Cooker top flushed with the working area thanks to adjustable feet

Cold door

During any function, the external door glass is cold, avoiding any risk of burns

AirFry (AIRFRY optional accessory)

Lighter and tastier food thanks to airfry basket

Soft close

The door is equipped with a specific system for silent closing

Single turbine

The oven has a fan equipped with a circular heating element allowing cooking with rotating heat
