

CPF36UGMAN

Cooker size	36"
N. of cavities with energy label	1
Cavity heat source	ELECTRICITY
Type of main oven	Thermo-ventilated
Cleaning system main oven	Vapor Clean
EAN code	8017709260705

Aesthetics

			
Design	Flush fit	Controls colour	Stainless steel
Command panel finish	Enamelled metal	No. of controls	8
Aesthetic	Portofino	Serigraphy colour	Silver
Logo	Assembled st/steel	Display	Touch
Colour	Anthracite	Door	With frame
Logo position	Facia below the oven	Glass type	Grey
Upstand	Yes	Handle	Smeg Portofino
Hob colour	Stainless steel	Handle Colour	coloured
Type of pan stands	Cast Iron	Storage compartment	Push pull
Type of control setting	Control knobs	Feet	Stainless steel
Control knobs	Smeg Portofino	Plinth	Black

Programs / Functions

No. of cooking functions	10
--------------------------	----

Traditional cooking functions

 Static	 Fan assisted	 Circulaire
 Small grill	 Large grill	 Fan grill (large)
 Base	 Fan assisted bottom	 Pizza
 Rotisserie		

Other functions

	Defrost by time
--	-----------------

Cleaning functions

	Vapor clean
--	-------------

Hob technical features

			
Total no. of cook zones 5			
Left - Gas - 2UR (dual) - 5.86 kW - 20000 BTU			
Rear centre - Gas - AUX - 1.31 kW - 4500 BTU			
Front centre - Gas - Rapid - 3.08 kW - 10500 BTU			
Rear right - Gas - Rapid - 3.51 kW - 12000 BTU			
Front right - Gas - Semi Rapid - 2.34 kW - 8000 BTU			
Type of gas burners	Standard	Gas safety valves	Yes
Automatic electronic ignition	Yes	Burner caps	Matt black enamelled

Main Oven Technical Features

																					
No. of lights	2											Total no. of door glasses	3								
Fan number	3											No. of thermo-reflective door glasses	2								
Gross volume, 1st cavity	0.16 cu. ft.											Safety Thermostat	Yes								
Cavity material	Ever Clean enamel											Cooling system	Tangential								
No. of shelves	5											Usable cavity space dimensions (HxWxD)	370 x 690 x 415 "								
Type of shelves	Metal racks											Temperature control	Electro-mechanical								
Light type	Halogen											Lower heating element power	1700 W								
Light Power	40 W											Upper heating element - Power	1200 W								
Cooking time setting	Start and Stop											Grill element	1700 W								
Light when oven door is open	Yes											Large grill - Power	2900 W								
Door opening	Flap down																				
Removable door	Yes																				

Full glass inner door	Yes	Circular heating element	2 x 1550 W
Removable inner door	Yes	- Power	
		Grill type	Electric
		Soft Close system	Yes

Options Main Oven

Timer	Yes	Minimum Temperature	120 °F
End of cooking acoustic alarm	Yes	Maximum temperature	500 °F

Accessories included for Main Oven & Hob

Cast iron wok support	1	40mm deep tray	1
TOP Oven grid with back stop	2	Telescopic Guide rails, total Extraction	1

Electrical Connection

Electrical connection rating	3800 W	Power supply cable length	47 1/4 "
Current	20 A	Frequency	60 Hz
Circuit breaker	20 A	Terminal block	5 poles
Voltage	240/208 V	Plug	No
Type of electric cable installed	Yes, Double phase		

Compatible Accessories

GT3T

Totally extractable telescopic guides

SFLK1

Child lock

PALPZ

Pizza shovel with folding handle.
Dimensions L31.5 x H32.5 cm. Easy
and convenient to use and store.
Perfect for serving pizza, bread and
savory pastries in a safe and
professional way.

Symbols glossary

	Triple Fan Technology: The oven is equipped with an exclusive three fan system, which, combined with the increased power of the motors, enables excellent cooking performance. The two large side fans distribute the air around the outer perimeter of the cavity while the smaller central fan increases ventilation by creating a vertical vortex of heat. Accordingly, the temperature within the cavity is uniform, allowing food to be cooked evenly on all five levels, like in professional kitchens.		Heavy duty cast iron pan stands: for maximum stability and strength.
	Installation in column: Installation in column		Knobs control
	Air cooling system: to ensure a safe surface temperatures.		Defrost by time: Manual defrost function. At the end of the set duration, the function stops.
	4.3 inch display with LED technology, usability with knobs + 3 touch keys		Triple glazed doors: Number of glazed doors.
	Ever Clean Enamel: Ever Clean enamel is applied electrostatically, corner to corner and edge to edge to prevent cracking or cracks over time. It is a particular pyrolytic enamel, resistant to acids which, in addition to being pleasantly bright, promotes greater cleaning of the oven walls, thanks to its lower porosity. It is baked at over 850 ° C and slowly polymerized at a scientifically determined rate to ensure uniform depth and strength Ever Clean enamel creates an impeccable finish both on the inside of the oven and on the trays, making the surfaces of the oven incredibly easy to maintain over time as it reduces the adhesion of fat during cooking		Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.
	Fan assisted: Intense and homogeneous traditional cooking, also suitable for complex recipes. The fan is active and the heat comes from below and from above at the same time. Ventilated cooking ensures a faster and more homogeneous result, leaving fragrant foods outside and moister inside. Ideal for baked pasta, biscuits, roasts and cobbler.		Static: Traditional cooking suitable for the preparation of one dish at a time. The fan is not active and the heat comes from below and from above at the same time. Static cooking is slower and more delicate, ideal in order to get well cooked and dry dishes even inside. Ideal for cooking all types of roasts, fatty meats, bread, filled cakes.
	Base: the heat comes only from the bottom of the cavity. The fan is not active. Ideal for sweet and savory pies, cobbler and pizzas. Designed to complete cooking and make food more crunchy This symbol in gas ovens indicates the gas burner.		Circulaire: it is the perfect function for cooking all types of dishes in a more delicate way. The heat comes from the back of the oven and is distributed quickly and evenly The fan is active. It is also ideal for cooking on multiple levels without mixing smells and flavors.

 <p>Grill: Very intense heat coming only from above from a double heating element. The fan is not active. Provides excellent grilling and gratinating results. Used at the end of cooking, it gives a uniform browning to dishes.</p>	 <p>Half grill: For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.</p>
 <p>Fan grill: very intense heat coming only from above from a double heating element The fan is active. It allows the optimal grilling of thickest meats. Ideal for large cuts of meat.</p>	 <p>Pizza function: Specific function for cooking pizza in a pan. It allows to obtain a pizza that is soft inside and crispy outside with the topping perfectly cooked, not dry and not burnt.</p>
 <p>Rotisserie: The rotisserie (where installed) works in combination with the grill element to brown foods to perfection.</p>	 <p>All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.</p>
 <p>The inner door glass: can be removed with a few quick movements for cleaning.</p>	 <p>Side lights: Two opposing side lights increase visibility inside the oven.</p>
 <p>Automatic opening: some models have Automatic opening door when the cycle is finished which is a perfect solution for handle-less kitchen units as no handle is needed. For safety reasons, the door locks automatically when the machine is in use to avoid it being opened inadvertently.</p>	 <p>The oven cavity has 5 different cooking levels.</p>
 <p>Soft close: all models are equipped with advanced function of smooth closing of the door, which allows the device to close smoothly and quietly.</p>	 <p>Telescopic rails: allow you to pull out the dish and check it without having to remove it from the oven entirely.</p>
 <p>Ultra rapid burners: Powerful ultra rapid burners offer up to 5kw of power.</p>	 <p>Vapor Clean: a simple cleaning function using steam to loosen deposits in the oven cavity.</p>
