

CPF36UGMWH

Cooker size	36"
N. of cavities with energy label	1
Cavity heat source	ELECTRICITY
Type of main oven	Thermo-ventilated
Cleaning system main oven	Vapor Clean
EAN code	8017709254032

Aesthetics

Aesthetic	Portofino	Controls colour	Stainless steel
Design	Flush fit	No. of controls	8
Colour	White	Serigraphy colour	Black
Command panel finish	Enamelled metal	Display	Touch
Logo	Assembled st/steel	Door	With frame
Logo position	Facia below the oven	Glass type	Grey
Upstand	Yes	Handle	Smeg Portofino
Hob colour	Stainless steel	Handle Colour	coloured
Type of pan stands	Cast Iron	Storage compartment	Push pull
Type of control setting	Control knobs	Feet	Stainless steel
Control knobs	Smeg Portofino	Plinth	Black

Programs / Functions

No. of cooking functions	10
--------------------------	----

Traditional cooking functions

 Static	 Fan assisted	 Circulaire
 Small grill	 Large grill	 Fan grill (large)
 Base	 Fan assisted bottom	 Pizza
 Rotisserie		

Other functions

 Defrost by time
--

Cleaning functions

 Vapor clean
--

Hob technical features

UR			
Total no. of cook zones	5		
Left - Gas - 2UR (dual) - 5.86 kW - 20000 BTU			
Rear centre - Gas - AUX - 1.31 kW - 4500 BTU			
Front centre - Gas - Rapid - 3.08 kW - 10500 BTU			
Rear right - Gas - Rapid - 3.51 kW - 12000 BTU			
Front right - Gas - Semi Rapid - 2.34 kW - 8000 BTU			
Type of gas burners	Standard	Gas safety valves	Yes
Automatic electronic ignition	Yes	Burner caps	Matt black enamelled

Main Oven Technical Features

																					
No. of lights	2	Total no. of door glasses	3																		
Fan number	3	No. of thermo-reflective door glasses	2																		
Gross volume, 1st cavity	0.16 cu. ft.	Safety Thermostat	Yes																		
Cavity material	Ever Clean enamel	Cooling system	Tangential																		
No. of shelves	5	Usable cavity space dimensions (HxWxD)	370 x 690 x 415 "																		
Type of shelves	Metal racks	Temperature control	Electro-mechanical																		
Light type	Halogen	Lower heating element power	1700 W																		
Light Power	40 W	Upper heating element - Power	1200 W																		
Cooking time setting	Start and Stop	Grill element	1700 W																		
Light when oven door is open	Yes	Large grill - Power	2900 W																		
Door opening	Flap down																				
Removable door	Yes																				

Full glass inner door	Yes	Circular heating element	2 x 1550 W
Removable inner door	Yes	- Power	
		Grill type	Electric
		Soft Close system	Yes

Options Main Oven

Timer	Yes	Minimum Temperature	120 °F
End of cooking acoustic alarm	Yes	Maximum temperature	500 °F

Accessories included for Main Oven & Hob

Cast iron wok support	1	40mm deep tray	1
TOP Oven grid with back stop	2	Telescopic Guide rails, total Extraction	1

Electrical Connection

Electrical connection rating	3800 W	Type of electric cable installed	Yes, Double phase
Current	20 A	Power supply cable length	47 1/4 "
Circuit breaker	20 A	Frequency	60 Hz
Voltage	240/208 V	Terminal block	5 poles

Not included accessories

SFLK1
Child lock

BGTR9
Cast iron grill plate suitable for 90 cm Victoria, 60 and 90 cm Master and Sinfonia cookers

PPR9
Refractory pizza stone without handles. Squared shaped stone: L64xH2,3xP37,5 cm Suitable also for gas ovens, to be put on the griddle.

PRTX
Refractory pizza stone with handles. D=35cm Not suitable for microwave ovens. Suitable for gas ovens, to be put on the griddle.

GT3T
Totally extractable telescopic guides

PALPZ
Pizza shovel with folding handle. Dimensions L31.5 x H32.5 cm. Easy and convenient to use and store. Perfect for serving pizza, bread and savory pastries in a safe and professional way.

Symbols glossary (TT)

-  Triple Fan Technology: The oven is equipped with an exclusive three fan system, which, combined with the increased power of the motors, enables excellent cooking performance. The two large side fans distribute the air around the outer perimeter of the cavity while the smaller central fan increases ventilation by creating a vertical vortex of heat. Accordingly, the temperature within the cavity is uniform, allowing food to be cooked evenly on all five levels, like in professional kitchens.
-  Installation in column: Installation in column
-  Defrost by time: Manual defrost function. At the end of the set duration, the function stops.
-  Ever Clean Enamel: Ever Clean enamel is applied electrostatically, corner to corner and edge to edge to prevent cracking or cracks over time. It is a particular pyrolytic enamel, resistant to acids which, in addition to being pleasantly bright, promotes greater cleaning of the oven walls, thanks to its lower porosity. It is baked at over 850 ° C and slowly polymerized at a scientifically determined rate to ensure uniform depth and strength Ever Clean enamel creates an impeccable finish both on the inside of the oven and on the trays, making the surfaces of the oven incredibly easy to maintain over time as it reduces the adhesion of fat during cooking
-  Fan assisted: Intense and homogeneous traditional cooking, also suitable for complex recipes. The fan is active and the heat comes from below and from above at the same time. Ventilated cooking ensures a faster and more homogeneous result, leaving fragrant foods outside and moister inside. Ideal for baked pasta, biscuits, roasts and cobblers.
-  Base: the heat comes only from the bottom of the cavity. The fan is not active. Ideal for sweet and savory pies, cobblers and pizzas. Designed to complete cooking and make food more crunchy This symbol in gas ovens indicates the gas burner.
-  Grill: Very intense heat coming only from above from a double heating element. The fan is not active. Provides excellent grilling and gratinating results. Used at the end of cooking, it gives a uniform browning to dishes.
-  Heavy duty cast iron pan stands: for maximum stability and strength.
-  Air cooling system: to ensure a safe surface temperatures.
-  Triple glazed doors: Number of glazed doors.
-  Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.
-  Static: Traditional cooking suitable for the preparation of one dish at a time. The fan is not active and the heat comes from below and from above at the same time. Static cooking is slower and more delicate, ideal in order to get well cooked and dry dishes even inside. Ideal for cooking all types of roasts, fatty meats, bread, filled cakes.
-  Circulaire: it is the perfect function for cooking all types of dishes in a more delicate way. The heat comes from the back of the oven and is distributed quickly and evenly The fan is active. It is also ideal for cooking on multiple levels without mixing smells and flavors.
-  Half grill: For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.

-
- | | | | |
|--|---|---|--|
|  | Fan grill: very intense heat coming only from above from a double heating element The fan is active. It allows the optimal grilling of thickest meats. Ideal for large cuts of meat. |  | Pizza function: Specific function for cooking pizza in a pan. It allows to obtain a pizza that is soft inside and crispy outside with the topping perfectly cooked, not dry and not burnt. |
|  | Rotisserie: The rotisserie (where installed) works in combination with the grill element to brown foods to perfection. |  | All glass inner door: All glass inner door, a single flat surface which is simple to keep clean. |
|  | The inner door glass: can be removed with a few quick movements for cleaning. |  | Side lights: Two opposing side lights increase visibility inside the oven. |
|  | Automatic opening: some models have Automatic opening door when the cycle is finished which is a perfect solution for handle-less kitchen units as no handle is needed. For safety reasons, the door locks automatically when the machine is in use to avoid it being opened inadvertently. |  | The oven cavity has 5 different cooking levels. |
|  | Soft close: all models are equipped with advanced function of smooth closing of the door, which allows the device to close smoothly and quietly. |  | Telescopic rails: allow you to pull out the dish and check it without having to remove it from the oven entirely. |
|  | Ultra rapid burners: Powerful ultra rapid burners offer up to 5kw of power. |  | Vapor Clean: a simple cleaning function using steam to loosen deposits in the oven cavity. |
|  | 4.3 inch display with LED technology, usability with knobs + 3 touch keys |  | Knobs control |

Benefit (TT)

True-convection

The best cooking performances guaranteed by ventilated circular flow.

Multiple fans and heating elements guarantee the perfect aerodynamic heat flow, allowing homogeneous and quicker cooking inside the cavity.

Gas hob

Induction offers fast cooking and precise temperature control

Equipped with a thermocouple, the gas supply is cut off if the flame is extinguished for greater safety

Vapor Clean

By inserting water into a recess at the bottom of the cavity, steam is generated, which softens the residue and facilitates its removal

By inserting water into a recess at the bottom of the cavity, steam is generated, which softens the residue and facilitates its removal.

Touch control

Easy and intuitive timer setting with a single touch

Isothermic Cavity

The best cooking performance at the highest energy efficiency

Triple Turbine

The oven has three fans and two circular heating elements, allowing cooking with rotating heat

Tangential cooling

New cooling system with tangential fan and airflow from the door to the splashback

Soft close

The door is equipped with a specific system for silent closing

Multilevel halogen light

Internal halogen lighting on different levels guarantees excellent visibility

Telescopic guides

Easy extraction and safe insertion of trays into the oven thanks to telescopic guides

Adjustable height

Cooker top flushed with the working area thanks to adjustable feet

Removable inner glass

Internal door glasses are easily removable for complete cleaning

Multilevel cooking

Several cooking levels allow maximum flexibility of use

Cold door

During any function, the external door glass is cold, avoiding any risk of burns

AirFry (AIRFRY optional accessory)

Lighter and tastier food thanks to airfry basket

BBQ (optional accessory)

Barbeque cooking directly in the oven with the double-sided grill

Pizza stone (optional accessory)

Baking with refractory stone for soft and crispy pizza and yeast products (STONE optional accessory)

Push-pull storage compartment

More space thanks to the lower push-pull compartment, ideal for storing accessories or cooking utensils
