Stainless steel AISI 430 polished

#### KITC9X9-1

Splashback, 90x75 cm, stainless steel, suitable for Portofino and Symphony cookers

#### KITH900CPF9

Height extension kit, suitable for 90 cookers (codes starting CPF9, CPF92 and C92)

#### KITH95CPF9

Height extension kit (950 mm), suitable for Portofino cookers

#### **KITPAX**

Heigh extension feet (950 mm), stainless steel, suitable for Master, Symphony and Concertcookers

#### **KITPBX**

Height reduction feet (850 mm)

Heigh extension black feet (950 mm) for cookers

#### **SCRP**

Induction and ceramic hobs and teppanyaki scraper

#### SFLK1

Child lock

#### **SMOLD**

Set of 7 silicone moulds for ice creams. ice lollies, pralines, ice cubes or to portion food. Usable from -60°C to +230°C

#### **STONE**

Rectangular refractory stone. Ideal for cooking pizzas with the same results as a typical wood-fired oven. Can also be used for baking bread, focaccias and other recipes such as pies, flans or biscuits Dimensions:L42 x H1.8 x P37.5 cm.

# Symbols glossary

Symbols glossary			
A A	A: Product drying performance, measured from A+++ to D / G depending on the product family		Installation in column: Installation in column
	Air cooling system: to ensure a safe surface temperatures.	**	Defrost by time: with this function the time of thawing of foods are determined automatically.
3	Triple glazed doors: Number of glazed doors.	iogic logic	ECO-logic: option allows you to restrict the power limit of the appliance real energy saving.
	Enamel interior: The enamel interior of all Smeg ovens have a special antacid lining which helps keep the interior clean by reducing the amount of cooking grease adhering to it.	*	Fingerprint proof stainless steel: Fingerprint proof stainless steel keeps stainless steel looking as good as new.
*)	Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.	(%)	Fan with upper and lower elements: The elements combined with the fan aim to provide more uniform heat, a similar method to conventional cooking, so pre-heat is required. Most suitable for items requiring slow cooking methods.
	Upper and lower element only: a traditional cooking method best suited for single items located in the centre of the oven. the top pf the oven will always be hottest. Ideal for roast, fruit cakes, bread etc.		Lower heating element only: This function is ideal for foods that require extra base temperature without browning, e.g. pastry dishes, pizza. Also suitable for slow cooking of stews and casseroles.
8	Circulaire: The combination of the fan and circular element around it gives a hot air cooking method. This provides many benefits including no preheat if cook time is more than 20 minutes, no flavour transfer when cooking different foods at the same time, less energy, and shorter cook times. Good for all types of food.	ECO	ECO: The combination of the grill, fan and lower element is particularly suitable for cooking small quantities of food.
··	Grill element: Using of grill gives excellent results when cooking meat of medium and small portions, especially when combined with a rotisserie (where possible). Also ideal for cooking sausages and bacon.	***	Half grill: For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.

of grilling various foods, chops, steaks, sausages etc. giving even browning and heat distribution, without drying out the food. The top two levels recommended for use, and the lower part of the oven can be used to keep items warm at the same time, an excellent facility when cooking a grilled breakfast. Half grill (centre portion only) is ideal for small quantities of food.

Fan with grill element: The fan reduces the fierce

heat from the grill, providing an excellent method

R

SMEG SPA 12/12/2025

Light

Induction: The work of these hobs is based on the principle of electromagnetic induction. The heat is generated directly in the bottom of the pan during its contact with the hob.

All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.

The inner door glass: can be removed with a few quick movements for cleaning.

Side lights: Two opposing side lights increase visibility inside the oven.

Automatic opening: some models have Automatic opening door when the cycle is finished which is a perfect solution for handle-less kitchen units as no handle is needed. For safety reasons, the door locks automatically when the machine is in use to avoid it being opened inadvertently.

The oven cavity has 4 different cooking levels.

The oven cavity has 5 different cooking levels.

Telescopic rails: allow you to pull out the dish and check it without having to remove it from the oven entirely.

Electronic control: Allows you to maintain temperature inside the oven with the precision 2-3 °C. This enables to cook meals that are very sensitive to temperature changes, such as cakes, souffles, puddings.

Vapor Clean: a simple cleaning function using steam to loosen deposits in the oven cavity.

The capacity indicates the amount of usable space in the oven cavity in litres.

The capacity indicates the amount of usable space in the oven cavity in litres.

The touch timer display or DigiScreen guarantees simple functionality. They display the time, set programmed cooking and the minute minder timer.

Knobs control

Automatic merge of zones for a bigger area

### **Benefit**

#### Induction hob

Induction offers fast cooking and precise temperature control

Through the use of suitable cookware, induction is easy to use and maintain, safe and responsive

#### Vapor Clean

Smeg's Vapor Clean function, is an assisted steam clean program designed to help loosen food residue and spills inside the oven for easy cleaning

Smeg's Vapor Clean function, is an assisted steam clean program designed to help loosen food residue and spills inside the oven for easy cleaning

#### Touch control

Easy and intuitive timer setting with a single touch

#### Storage compartment

More space thanks to the lower compartment, ideal for storing accessories or cooking utensils

#### Circulaire

The best cooking performances guaranteed by ventilated circular flow.

Multiple fans and heating elements guarantee the perfect aerodynamic heat flow, allowing homogeneous and quicker cooking inside the cavity.

### Multilevel cooking

Several cooking levels allow maximum flexibility of use

#### Multilevel halogen light

Internal halogen lighting on different levels guarantees excellent visibility

#### Removalble inner glass

Internal door glasses are easily removable for complete cleaning

#### Tangential cooling

New cooling system with tangential fan and airflow from the door to the splashback

#### **Electronic control**

Electronic control for timely temperature management and heat uniformity

#### Telescopic guides

Easy extraction and safe insertion of trays into the oven thanks to telescopic guides

#### **Isothermic Cavity**

The best cooking performance at the highest energy efficiency

#### Cold door

During any function, the external door glass is cold, avoiding any risk of burns

#### AirFry (AIRFRY optional accessory)

Lighter and tastier food thanks to airfry basket

#### Pizza stone (optional accessory)

Baking with refractory stone for soft and crispy pizza and yeast products (STONE optional accessory)

#### BBQ (optional accessory)

Barbeque cooking directly in the oven with the double-sided grill

#### Adjustable height

Cooker top flushed with the working area thanks to adjustable feet

#### Single turbine

The oven has a fan equipped with a circular heating element allowing cooking with rotating heat
