

CPF9GPAN

Cooker size	90x60 cm
N. of cavities with energy label	1
Cavity heat source	Electric
Hob type	Gas
Type of main oven	Thermo-ventilated
Cleaning system main oven	Pyrolytic
EAN code	8017709229429
Energy efficiency class	A+

Aesthetics

Design	Flush fit	Controls colour	Stainless steel
Command panel finish	Enamelled metal	No. of controls	8
Aesthetics	Portofino	Serigraphy colour	Silver
Logo	Assembled st/steel	Display	TFT
Colour	Anthracite	Door	With frame
Logo position	Facia below the oven	Glass type	Grey
Upstand	Yes	Handle	Smeg Portofino
Hob colour	Stainless steel	Handle Colour	coloured
Type of pan stands	Cast Iron	Storage compartment	Push pull
Type of control setting	Control knobs	Feet	Black
Control knobs	Smeg Portofino	Plinth	Black

Hob technical features

Total no. of cook zones 6

Front left - Gas - 2UR (dual) - 4.20 kW

Rear left - Gas - AUX - 1.00 kW

Front centre - Gas - AUX - 1.00 kW

Rear centre - Gas - Semi Rapid - 1.80 kW

Front right - Gas - Semi Rapid - 1.80 kW

Rear right - Gas - Rapid - 3.00 kW

Type of gas burners Standard

Gas safety valves

Yes

Automatic electronic

Burner caps

Matte black enamelled

ignition

Main Oven Technical Features

No. of lights

2

Total no. of door glasses 4

Fan number

3

No. of thermo-reflective 3

Net volume of the cavity 115 litres

door glasses

Gross volume, 1st cavity 129 l

Safety Thermostat

Yes

Cavity material

Easy clean enamel

Heating suspended

Yes

Shelf positions

when door is opened

Cooling system Tangential

Type of shelves	Metal racks	Door Lock During Pyrolysis	Yes
Light type	Halogen	Usable cavity space dimensions (HxWxD)	371x724x418 mm
Light power	40 W	Temperature control	Electronic
Cooking time setting	Start and Stop	Lower heating element power	1700 W
Light when oven door is open	Yes	Upper heating element - Power	1200 W
Door opening	Flap down	Grill element	1700 W
Removable door	Yes	Large grill - Power	2900 W
Full glass inner door	Yes	Circular heating element - Power	2 x 1850 W
Removable inner door	Yes	Grill type	Electric
		Soft Close system	Yes

Options Main Oven

Timer	Yes	Minimum Temperature	50 °C
End of cooking acoustic alarm	Yes	Maximum temperature	260 °C

Accessories included for Main Oven & Hob

Chrome shelf with back and side stop	1	Grill mesh	1
20mm deep tray	1	Telescopic Guide rails, partial Extraction	1
40mm deep tray	1		

Electrical Connection

Max Power Draw	4000 W	Cable testing	Yes
Current	18 A	Additional connection modalities	Yes, Double and Three Phase
Voltage	220-240 V	Frequency	50/60 Hz
Voltage 2 (V)	380-415 V	Terminal block	5 poles
Type of electric cable	Yes, Single phase	Plug	No

Compatible Accessories

AIRFRY9

Air fryer rack AIRFRY . Ideal for recreating traditional frying in the oven, but with fewer calories and less fat. It allows you to cook quickly and simply dishes such as French fries, fried vegetables and fish, ensuring perfect browning and crispiness.

BBQ9

teflon-coated aluminum grid for 90 cm cavity

BN920

Enamelled tray 90cm cavity, 20mm deep

BN940

Enamelled tray 90 cm, 40 mm deep

GTP

Partially extractable telescopic guides (1 level) Extraction: 300 mm Material: Stainless steel AISI 430 polished

GTT

Totally extractable telescopic guides (1 level) Extraction: 433 mm Material: Stainless steel AISI 430 polished

KIT600CPF9P

Cover strip for hob back side, suitable for 90 cm Portofino cookers with piro oven

KITH95CPF9

Height extension kit (950 mm), suitable for Portofino cookers

KITPBX

Height reduction feet (850 mm)

KITPC9X9

Splashback, 90 cm, for Symphony and Portofino pyrolytic cookers

KITPD

Heigh extension black feet (950 mm) for cookers

PALPZ

Pizza shovel with fold away handle width: 315mm length : 325mm

SFLK1

Child lock

SMOLD

Set of 7 silicone moulds for ice creams, ice lollies, pralines, ice cubes or to portion food. Usable from -60°C to +230°C

Symbols glossary

	Triple Fan Technology: The oven is equipped with an exclusive three fan system, which, combined with the increased power of the motors, enables excellent cooking performance. The two large side fans distribute the air around the outer perimeter of the cavity while the smaller central fan increases ventilation by creating a vertical vortex of heat. Accordingly, the temperature within the cavity is uniform, allowing food to be cooked evenly on all five levels, like in professional kitchens.		Heavy duty cast iron pan stands: for maximum stability and strength.
	A+: Energy efficiency class A+ helps to save up to 10% energy compared to class A. Maximum performance with minimum consumption is guaranteed.		Installation in column: Installation in column
	Knobs control		Air cooling system: to ensure a safe surface temperatures.
	Defrost by time: with this function the time of thawing of foods are determined automatically.		Defrost by weight: With this function the defrosting time is determined
	Quadruple glazed: Number of glazed doors.		Enamel interior: The enamel interior of all Smeg ovens have a special antacid lining which helps keep the interior clean by reducing the amount of cooking grease adhering to it.
	Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.		Fan with upper and lower elements: The elements combined with the fan aim to provide more uniform heat, a similar method to conventional cooking, so pre-heat is required. Most suitable for items requiring slow cooking methods.
	Upper and lower element only: a traditional cooking method best suited for single items located in the centre of the oven. the top pf the oven will always be hottest. Ideal for roast, fruit cakes, bread etc.		Lower heating element only: This function is ideal for foods that require extra base temperature without browning, e.g. pastry dishes, pizza. Also suitable for slow cooking of stews and casseroles.
	Circulaire: The combination of the fan and circular element around it gives a hot air cooking method. This provides many benefits including no preheat if cook time is more than 20 minutes, no flavour transfer when cooking different foods at the same time, less energy, and shorter cook times. Good for all types of food.		ECO: The combination of the grill, fan and lower element is particularly suitable for cooking small quantities of food.
	Grill element: Using of grill gives excellent results when cooking meat of medium and small portions, especially when combined with a rotisserie (where possible). Also ideal for cooking sausages and bacon.		Half grill: For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.

	<p>Fan with grill element: The fan reduces the fierce heat from the grill, providing an excellent method of grilling various foods, chops, steaks, sausages etc. giving even browning and heat distribution, without drying out the food. The top two levels recommended for use, and the lower part of the oven can be used to keep items warm at the same time, an excellent facility when cooking a grilled breakfast. Half grill (centre portion only) is ideal for small quantities of food.</p>		<p>Circulaire with upper and lower elements: The use of the fan with both elements allows food to be cooked quickly and effectively, ideal for large joints that require thorough cooking. It offers a similar result to rotisserie, moving the heat around the food, instead of moving the food itself, enabling any size or shape to be cooked.</p>
	<p>All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.</p>		<p>The inner door glass: can be removed with a few quick movements for cleaning.</p>
	<p>Side lights: Two opposing side lights increase visibility inside the oven.</p>		<p>Automatic opening: some models have Automatic opening door when the cycle is finished which is a perfect solution for handle-less kitchen units as no handle is needed. For safety reasons, the door locks automatically when the machine is in use to avoid it being opened inadvertently.</p>
	<p>Pyrolytic: Pyrolytic cleaning cycles can be selected as necessary to automatically clean the oven interior.</p>		<p>Pyrolytic: The Eco pyrolytic cleaning function can be selected when the oven has a lighter build up of dirt. This function has a maximum duration of 1.5 hours.</p>
	<p>Air at 40°C provides the perfect environment for proving yeast type dough mixes. Simply select the function and place dough in the cavity for allotted</p>		<p>Sabbath: This function allows you to cook food whilst respecting the provisions of the Jewish day of rest.</p>
	<p>The oven cavity has 5 different cooking levels.</p>		<p>Soft close: all models are equipped with advanced function of smooth closing of the door, which allows the device to close smoothly and quietly.</p>
	<p>Telescopic rails: allow you to pull out the dish and check it without having to remove it from the oven entirely.</p>		<p>Electronic control: Allows you to maintain temperature inside the oven with the precision 2-3 ° C. This enables to cook meals that are very sensitive to temperature changes, such as cakes, souffles, puddings.</p>
	<p>Ultra rapid burners: Powerful ultra rapid burners offer up to 5kw of power.</p>		<p>The capacity indicates the amount of usable space in the oven cavity in litres.</p>
	<p>...</p>
