

# CPF9IPWH

Cooker size	90x60 cm
N. of cavities with energy label	1
Cavity heat source	ELECTRICITY
Hob type	Induction
Type of main oven	Thermoseal
Cleaning system main oven	Pyrolitic
EAN code	8017709240769
Energy efficiency class	A+

## Aesthetics

<b>Design</b>	Flush fit	<b>No. of controls</b>	7
<b>Command panel finish</b>	Enamelled metal	<b>Serigraphy colour</b>	Black
<b>Aesthetic</b>	Portofino	<b>Display</b>	TFT
<b>Logo</b>	Assembled st/steel	<b>Door</b>	With frame
<b>Colour</b>	White	<b>Glass type</b>	Grey
<b>Logo position</b>	Facia below the oven	<b>Handle</b>	Smeg Portofino
<b>Upstand</b>	Yes	<b>Handle Colour</b>	coloured
<b>Hob colour</b>	Stainless steel	<b>Storage compartment</b>	Push pull
<b>Type of control setting</b>	Control knobs	<b>Feet</b>	Black
<b>Control knobs</b>	Smeg Portofino	<b>Plinth</b>	Black
<b>Controls colour</b>	Stainless steel		

## Programs / Functions

No. of cooking functions	10
--------------------------	----

### Traditional cooking functions

Static	Fan assisted	Circulaire
Turbo	Eco	Small grill
Large grill	Fan grill (large)	Base
Fan assisted bottom		

### Other functions

Defrost by time	Defrost by weight	Proving
Sabbath		

### Cleaning functions

Pyrolytic	Pyrolytic eco
-----------	---------------

Automatic programs 20

## Hob technical features

Total no. of cook zones 5

Front left - Induction - single - 1.40 kW - Booster 2.20 kW - Ø 14.5 cm

Rear left - Induction - single - 1.85 kW - Booster 3.00 kW - Ø 18.0 cm

Central - Induction - single - 2.60 kW - Booster 3.70 kW - Ø 27.0 cm

Rear right - Induction - single - 2.30 kW - Booster 3.70 kW - Ø 21.0 cm

Front right - Induction - single - 1.40 kW - Booster 2.20 kW - Ø 14.5 cm

<b>Automatic switch off when overheat</b>	Yes	<b>Selected zone indicator</b>	Yes
		<b>Residual heat indicator</b>	Yes

**Automatic pan detection** Yes

**Minimum pan diameter indication** Yes

## Main Oven Technical Features

<b>No. of lights</b>	2	<b>Total no. of door glasses</b>	4
<b>Fan number</b>	3	<b>No. of thermo-reflective door glasses</b>	3
<b>Net volume of the cavity</b>	115 l	<b>Safety Thermostat</b>	Yes
<b>Gross volume, 1st cavity</b>	129 l	<b>Heating suspended when door is opened</b>	Yes
<b>Cavity material</b>	Ever Clean enamel	<b>Cooling system</b>	Tangential
<b>No. of shelves</b>	5		
<b>Type of shelves</b>	Metal racks		

Light type	Halogen	Door Lock During Pyrolysis	Yes
Light Power	40 W	Usable cavity space dimensions (HxWxD)	371x724x418 mm
Cooking time setting	Start and Stop	Temperature control	Electronic
Light when oven door is open	Yes	Lower heating element power	1700 W
Door opening	Flap down	Upper heating element - Power	1200 W
Removable door	Yes	Grill element	1700 W
Full glass inner door	Yes	Large grill - Power	2900 W
Removable inner door	Yes	Circular heating element - Power	2 x 1850 W
		Grill type	Electric
		Soft Close system	Yes

## Options Main Oven

Timer	Yes	Minimum Temperature	50 °C
End of cooking acoustic alarm	Yes	Maximum temperature	260 °C

## Accessories included for Main Oven & Hob

Rack with back and side stop	1	Grill mesh	1
20mm deep tray	1	Telescopic Guide rails, partial Extraction	1
40mm deep tray	1		

## Electrical Connection

Electrical connection rating	11400 W	Type of electric cable	Yes, Double and Three Phase
Current	50 A	Frequency	50/60 Hz
Voltage	220-240 V	Terminal block	5 poles
Voltage 2 (V)	380-415 V	Plug	No
Type of electric cable installed	Yes, Single phase		

## Compatible Accessories

### AIRFRY9

Air fryer rack AIRFRY . Ideal for recreating traditional frying in the oven, but with fewer calories and less fat. It allows you to cook quickly and simply dishes such as French fries, fried vegetables and fish, ensuring perfect browning and crispiness.

### BN920

Enamelled tray 90cm cavity, 20mm deep

### GRILLPLATE

Universal griddle for induction, gas, ceramic and electric hobs. Non-stick surface ideal for cooking meat, cheese and vegetables. Dimensions: 410 x 240 mm.

### GTT

\*\*Totally extractable telescopic guides (1 level)\*\* Extraction: 433 mm Material: Stainless steel AISI 430 polished

### KITH95CPF9

Height extension kit (950 mm), suitable for Portofino cookers

### KITPC9X9

Splashback, 90 cm, for Sinfonia and Portofino pyrolytic cookers

### PALPZ

Pizza shovel with fold away handle width: 315mm length : 325mm

### SFLK1

Child lock

### BBQ9

teflon-coated aluminum grid for 90 cm cavity

### BN940

Enamelled tray 90 cm, 40 mm deep

### GTP

\*\*Partially extractable telescopic guides (1 level)\*\* Extraction: 300 mm Material: Stainless steel AISI 430 polished

### KIT600CPF9P

Cover strip for hob back side, suitable for 90 cm Portofino cookers with piro oven

### KITPBX

Height reduction feet (850 mm)

### KITPD

Height extension black feet (950 mm) for cookers

### SCRP

Induction and ceramic hobs and teppanyaki scraper

### SMOLD

Set of 7 silicone moulds for ice creams, ice lollies, pralines, ice cubes or to portion food. Usable from -60°C to +230°C

### TPKPLATE

Universal plate for induction, gas, ceramic and electric hobs. Non-stick surface ideal for cooking fish, eggs and vegetables. Dimensions: 410 X 240 mm.

## Symbols glossary

 <p><b>Triple Fan Technology:</b> The oven is equipped with an exclusive three fan system, which, combined with the increased power of the motors, enables excellent cooking performance. The two large side fans distribute the air around the outer perimeter of the cavity while the smaller central fan increases ventilation by creating a vertical vortex of heat. Accordingly, the temperature within the cavity is uniform, allowing food to be cooked evenly on all five levels, like in professional kitchens.</p>	 <p><b>A+:</b> Energy efficiency class A+ helps to save up to 10% energy compared to class A. Maximum performance with minimum consumption is guaranteed.</p>
 <p><b>Installation in column:</b> Installation in column</p>	 <p><b>Knobs control</b></p>
 <p><b>Air cooling system:</b> to ensure a safe surface temperatures.</p>	 <p><b>Defrost by time:</b> with this function the time of thawing of foods are determined automatically.</p>
 <p><b>Defrost by weight:</b> With this function the defrosting time is determined</p>	 <p>...</p>
 <p><b>Quadruple glazed:</b> Number of glazed doors.</p>	 <p><b>Enamel interior:</b> The enamel interior of all Smeg ovens have a special antacid lining which helps keep the interior clean by reducing the amount of cooking grease adhering to it.</p>
 <p><b>Fan assisted base:</b> the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.</p>	 <p><b>Fan with upper and lower elements:</b> The elements combined with the fan aim to provide more uniform heat, a similar method to conventional cooking, so pre-heat is required. Most suitable for items requiring slow cooking methods.</p>
 <p><b>Upper and lower element only:</b> a traditional cooking method best suited for single items located in the centre of the oven. the top pf the oven will always be hottest. Ideal for roast, fruit cakes, bread etc.</p>	 <p><b>Lower heating element only:</b> This function is ideal for foods that require extra base temperature without browning, e.g. pastry dishes, pizza. Also suitable for slow cooking of stews and casseroles.</p>
 <p><b>Circulaire:</b> The combination of the fan and circular element around it gives a hot air cooking method. This provides many benefits including no preheat if cook time is more than 20 minutes, no flavour transfer when cooking different foods at the same time, less energy, and shorter cook times. Good for all types of food.</p>	 <p><b>ECO:</b> The combination of the grill, fan and lower element is particularly suitable for cooking small quantities of food.</p>
 <p><b>Grill element:</b> Using of grill gives excellent results when cooking meat of medium and small portions, especially when combined with a rotisserie (where possible). Also ideal for cooking sausages and bacon.</p>	 <p><b>Half grill:</b> For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.</p>

-  **Fan with grill element:** The fan reduces the fierce heat from the grill, providing an excellent method of grilling various foods, chops, steaks, sausages etc. giving even browning and heat distribution, without drying out the food. The top two levels recommended for use, and the lower part of the oven can be used to keep items warm at the same time, an excellent facility when cooking a grilled breakfast. Half grill (centre portion only) is ideal for small quantities of food.

 **Circulaire with upper and lower elements:** The use of the fan with both elements allows food to be cooked quickly and effectively, ideal for large joints that require thorough cooking. It offers a similar result to rotisserie, moving the heat around the food, instead of moving the food itself, enabling any size or shape to be cooked.
-  **Overheat protection:** The safety system that automatically turns off the hob in case of overheating of the control unit.

 **Induction:** The work of these hobs is based on the principle of electromagnetic induction. The heat is generated directly in the bottom of the pan during its contact with the hob.
-  **All glass inner door:** All glass inner door, a single flat surface which is simple to keep clean.

 **The inner door glass:** can be removed with a few quick movements for cleaning.
-  **Side lights:** Two opposing side lights increase visibility inside the oven.

 **Automatic opening:** some models have Automatic opening door when the cycle is finished which is a perfect solution for handle-less kitchen units as no handle is needed. For safety reasons, the door locks automatically when the machine is in use to avoid it being opened inadvertently.
-  **Pyrolytic:** Pyrolytic cleaning cycles can be selected as necessary to automatically clean the oven interior.

 **Pyrolytic:** The Eco pyrolytic cleaning function can be selected when the oven has a lighter build up of dirt. This function has a maximum duration of 1.5 hours.
-  **Air at 40°C** provides the perfect environment for proving yeast type dough mixes. Simply select the function and place dough in the cavity for allotted

 **Indication of residual heat:** After the glass ceramic hob is switched off the residual heat indicator shows which of the heating zones still remains hot. When the temperature drops below 60 ° C, the indicator goes out.
-  **Sabbath:** This function allows you to cook food during the Sabbath, the Holiday of rest in the Jewish religion, respecting the precepts. The oven works

 **The oven cavity has 5 different cooking levels.**
-  **Soft close:** all models are equipped with advanced function of smooth closing of the door, which allows the device to close smoothly and quietly.

 **Telescopic rails:** allow you to pull out the dish and check it without having to remove it from the oven entirely.
-  **Electronic control:** Allows you to maintain temperature inside the oven with the precision 2-3 ° C. This enables to cook meals that are very sensitive to temperature changes, such as cakes, souffles, puddings.

 **The capacity indicates the amount of usable space in the oven cavity in litres.**
