

# CPF9IPX

Cooker size	90x60 cm
N. of cavities with energy label	1
Cavity heat source	ELECTRICITY
Hob type	Induction
Type of main oven	Thermoseal
Cleaning system main oven	Pyrolitic
EAN code	8017709240776
Energy efficiency class	A+

## Aesthetics

			
Aesthetic	Portofino	No. of controls	7
Colour	Stainless steel	Serigraphy colour	Black
Finishing	Satin	Handle	Smeg Portofino
Design	Flush fit	Handle Colour	Brushed stainless steel
Door	With frame	Glass type	Grey
Upstand	Yes	Feet	Black
Hob colour	Stainless steel	Plinth	Black
Command panel finish	Finger friendly stainless steel	Storage compartment	Push pull
Control knobs	Smeg Portofino	Logo	Assembled st/steel
Controls colour	Stainless steel	Logo position	Facia below the oven
Display	LCD		

## Programs / Functions

No. of cooking functions	10
--------------------------	----

## Traditional cooking functions

 Static	 Fan assisted	 Circulaire
 Turbo	 Eco	 Small grill
 Large grill	 Fan grill (large)	 Base
		

## Cleaning functions

 Pyrolytic	 Pyrolytic eco
--	---

## Automatic programs

20

## Other functions

 Defrost by time	 Defrost by weight	 Proving
		

## Hob technical features

**Total no. of cook zones** 5

Front left - Induction - single - 1.40 kW - Booster 2.20 kW - Ø 14.5 cm

Rear left - Induction - single - 1.85 kW - Booster 3.00 kW - Ø 18.0 cm

Central - Induction - single - 2.60 kW - Booster 3.70 kW - Ø 27.0 cm

Rear right - Induction - single - 2.30 kW - Booster 3.70 kW - Ø 21.0 cm

Front right - Induction - single - 1.40 kW - Booster 2.20 kW - Ø 14.5 cm

<b>Automatic switch off when overheat</b>	Yes	<b>Selected zone indicator</b>	Yes
---	-----	--------------------------------	-----

<b>Residual heat indicator</b>	Yes
--------------------------------	-----

<b>Automatic pan detection</b>	Yes
--------------------------------	-----

<b>Minimum pan diameter indication</b>	Yes
--	-----

## Main Oven Technical Features

<b>No. of lights</b>	2
----------------------	---

<b>Fan number</b>	3
-------------------	---

<b>Net volume of the cavity</b>	115 l
---------------------------------	-------

<b>Gross volume, 1st cavity</b>	129 l
---------------------------------	-------

<b>Cavity material</b>	Ever Clean enamel
------------------------	-------------------

<b>No. of shelves</b>	5
-----------------------	---

<b>Type of shelves</b>	Metal racks
------------------------	-------------

<b>Light type</b>	Halogen
-------------------	---------

<b>Total no. of door glasses</b>	4
----------------------------------	---

<b>No. of thermo-reflective door glasses</b>	3
--	---

<b>Safety Thermostat</b>	Yes
--------------------------	-----

<b>Heating suspended when door is opened</b>	Yes
--	-----

<b>Cooling system</b>	Tangential
-----------------------	------------

Light Power	40 W	Door Lock During Pyrolysis	Yes
Cooking time setting	Start and Stop	Usable cavity space dimensions (HxWxD)	371x724x418 mm
Light when oven door is open	Yes	Temperature control	Electronic
Door opening	Flap down	Lower heating element power	1700 W
Removable door	Yes	Upper heating element - Power	1200 W
Full glass inner door	Yes	Grill element	1700 W
Removable inner door	Yes	Large grill - Power	2900 W
		Circular heating element - Power	2 x 1850 W
		Grill type	Electric
		Soft Close system	Yes

## Options Main Oven

Timer	Yes	Minimum Temperature	50 °C
End of cooking acoustic alarm	Yes	Maximum temperature	260 °C

## Accessories included for Main Oven & Hob

Rack with back and side stop	1	Grill mesh	1
20mm deep tray	1	Telescopic Guide rails, partial Extraction	1
40mm deep tray	1		

## Electrical Connection

Electrical connection rating	11400 W	Type of electric cable installed	Yes, Single phase
Current	50 A	Type of electric cable	Yes, Double and Three Phase
Voltage	220-240 V	Frequency	50/60 Hz
Voltage 2 (V)	380-415 V	Terminal block	5 poles

## Not included accessories

### AIRFRY9

Air fryer rack AIRFRY . Ideal for recreating traditional frying in the oven, but with fewer calories and less fat. It allows you to cook quickly and simply dishes such as French fries, fried vegetables and fish, ensuring perfect browning and crispiness.

### SFLK1

Child lock

### PRTX

Refractory pizza stone with handles. D=35cm Not suitable for microwave ovens. Suitable for gas ovens, to be put on the griddle.

### PPR9

Refractory pizza stone without handles. Squared shaped stone: L64xH2,3xP37,5 cm Suitable also for gas ovens, to be put on the griddle.

### KITPBX

Height reduction feet (850 mm)

### SCRP

Induction and ceramic hobs and teppanyaki scraper

### TPKPLATE

Universal plate for induction, gas, ceramic and electric hobs. Non-stick surface ideal for cooking fish, eggs and vegetables. Dimensions: 410 X 240 mm.

### GTT

\*\*Totally extractable telescopic guides (1 level)\*\* Extraction: 433 mm Material: Stainless steel AISI 430 polished

### KITH95CPF9

Height extension kit (950 mm), suitable for Portofino cookers

### GTP

\*\*Partially extractable telescopic guides (1 level)\*\* Extraction: 300 mm Material: Stainless steel AISI 430 polished

### GRILLPLATE

Universal griddle for induction, gas, ceramic and electric hobs. Non-stick surface ideal for cooking meat, cheese and vegetables. Dimensions: 410 x 240 mm.

### KIT600CPF9P

Cover strip for hob back side, suitable for 90 cm Portofino cookers with piro oven

### BBQ9

### KITPD

Height extension black feet (950 mm) for cookers

### PALPZ

Pizza shovel with fold away handle width: 315mm length : 325mm

### SMOLD

Set of 7 silicone moulds for ice creams, ice lollies, pralines, ice cubes or to portion food. Usable from -60°C to +230°C

## Symbols glossary (TT)

	Air cooling system: to ensure a safe surface temperatures.		Defrost by time: with this function the time of thawing of foods are determined automatically.
	A+: Energy efficiency class A+ helps to save up to 10% energy compared to class A. Maximum performance with minimum consumption is guaranteed.		Defrost by weight: With this function the defrosting time is determined
	Quadruple glazed: Number of glazed doors.		Enamel interior: The enamel interior of all Smeg ovens have a special antacid lining which helps keep the interior clean by reducing the amount of cooking grease adhering to it.
	Fingerprint proof stainless steel: Fingerprint proof stainless steel keeps stainless steel looking as good as new.		Circogas: In gas ovens the fan distributes the heat quickly and evenly throughout the oven cavity, avoiding flavour transfer when cooking a number of different dishes at the same time. In electric ovens this combination completes cooking more quickly of foods that are ready on the surface, but that require more cooking inside, without further browning.
	Fan with upper and lower elements: The elements combined with the fan aim to provide more uniform heat, a similar method to conventional cooking, so pre-heat is required. Most suitable for items requiring slow cooking methods.		Upper and lower element only: a traditional cooking method best suited for single items located in the centre of the oven. the top pf the oven will always be hottest. Ideal for roast, fruit cakes, bread etc.
	Lower heating element only: This function is ideal for foods that require extra base temperature without browning, e.g. pastry dishes, pizza. Also suitable for slow cooking of stews and casseroles.		Circulaire: The combination of the fan and circular element around it gives a hot air cooking method. This provides many benefits including no preheat if cook time is more than 20 minutes, no flavour transfer when cooking different foods at the same time, less energy, and shorter cook times. Good for all types of food.
	ECO: The combination of the grill, fan and lower element is particularly suitable for cooking small quantities of food.		Grill element: Using of grill gives excellent results when cooking meat of medium and small portions, especially when combined with a rotisserie (where possible). Also ideal for cooking sausages and bacon.
	Half grill: For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.		Fan with grill element: The fan reduces the fierce heat from the grill, providing an excellent method of grilling various foods, chops, steaks, sausages etc. giving even browning and heat distribution, without drying out the food. The top two levels recommended for use, and the lower part of the oven can be used to keep items warm at the same time, an excellent facility when cooking a grilled breakfast. Half grill (centre portion only) is ideal for small quantities of food.

 <p><b>Circulaire with upper and lower elements:</b> The use of the fan with both elements allows food to be cooked quickly and effectively, ideal for large joints that require thorough cooking. It offers a similar result to rotisserie, moving the heat around the food, instead of moving the food itself, enabling any size or shape to be cooked.</p>	 <p><b>Overheat protection:</b> The safety system that automatically turns off the hob in case of overheating of the control unit.</p>
 <p><b>Induction:</b> The work of these hobs is based on the principle of electromagnetic induction. The heat is generated directly in the bottom of the pan during its contact with the hob.</p>	 <p><b>All glass inner door:</b> All glass inner door, a single flat surface which is simple to keep clean.</p>
 <p><b>The inner door glass:</b> can be removed with a few quick movements for cleaning.</p>	 <p><b>Side lights:</b> Two opposing side lights increase visibility inside the oven.</p>
 <p><b>Pyrolitic:</b> Pyrolitic cleaning cycles can be selected as necessary to automatically clean the oven interior.</p>	 <p><b>Pyrolitic:</b> The Eco pyrolitic cleaning function can be selected when the oven has a lighter build up of dirt. This function has a maximum duration of 1.5 hours.</p>
 <p><b>Air at 40°C</b> provides the perfect environment for proving yeast type dough mixes. Simply select the function and place dough in the cavity for allotted</p>	 <p><b>Indication of residual heat:</b> After the glass ceramic hob is switched off the residual heat indicator shows which of the heating zones still remains hot. When the temperature drops below 60 ° C, the indicator goes out.</p>
 <p><b>Sabbath:</b> This function allows you to cook food during the Sabbath, the Holiday of rest in the Jewish religion, respecting the precepts. The oven works</p>	 <p><b>The oven cavity has 5 different cooking levels.</b></p>
 <p><b>Soft close:</b> all models are equipped with advanced function of smooth closing of the door, which allows the device to close smoothly and quietly.</p>	 <p><b>Telescopic rails:</b> allow you to pull out the dish and check it without having to remove it from the oven entirely.</p>
 <p><b>Electronic control:</b> Allows you to maintain temperature inside the oven with the precision 2-3 ° C. This enables to cook meals that are very sensitive to temperature changes, such as cakes, souffles, puddings.</p>	 <p><b>The capacity indicates the amount of usable space in the oven cavity in litres.</b></p>
