Reversible door

Reversible door for easy and versatile installation in any kitchen

E MOTION Electronic Opening System

The innovative E MOTION Electronic Opening System allows convenient opening with a simple touch of the door

A simple touch is enough to unlock the door, which will open slightly thanks to the E MOTION electronic system. To complete the opening, simply accompany the door with your hand. If opening the wine cooler is no longer necessary, the door will close automatically.

UV-protected door glass

The UV-protected door glass protects the bottles from the passage of light into the wine cooler for impeccable storage

Display Shelf

The repositionable display shelf ensures that the best bottles are always in view, with the possibility of displaying magnum bottles as well

LED lights

LED lights ensure perfect multi-level visibility inside the wine cooler. Thanks to the E MOTION Electronic Opening System, a simple touch of the door activates the lighting

Activated charcoal air filter

The activated charcoal air filter ensures excellent quality of the air and is easy to maintain

Touch Display

Touch display for an easy and accurate temperature management inside the refrigerated compartment

Low-vibration compressor

The low-vibration compressor avoids exposing the bottles to prolonged vibrations, which could compromise the quality of the wine

Telescopic guides

Telescopic sliding guides for easy extraction of wine bottles
