Symbols glossary

The automatic defrost system works by automatically defrosting at regular intervals eliminating the need to defrost altogether.

LCD display: to optimize performance and simplify the use of the appliance.

LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance.

Energy efficiency class G

A: Product drying performance, measured from A+++ to D / G depending on the product family

Ventilated: Forced distribution of cold air in the refrigerator compartment, which allows even temperature distribution within the fridge.

Touch controls: Easy to use touch controls allow the appliance to be programmed at the touch of a button.
