## Symbols glossary

The automatic defrost system works by automatically defrosting at regular intervals eliminating the need to defrost altogether.

LED display: to show programmes, functions and options selected and the time to the end of the cycle.

LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance.

Touch controls: Easy to use touch controls allow the appliance to be programmed at the touch of a button.

A+: Energy efficiency class A+ helps to save up to 10% energy compared to class A. Maximum performance with minimum consumption is guaranteed.

Ventilated: Forced distribution of cold air in the refrigerator compartment, which allows even temperature distribution within the fridge.
