#### **AIRFRY**

Air fryer rack AIRFRY . Ideal for recreating traditional frying in the oven, but with fewer calories and less fat. It allows you to cook quickly and simply dishes such as French fries, fried vegetables and fish, ensuring perfect browning and crispiness.

#### AIRFRY2

Air fryer tray. Ideal for recreating traditional frying in the oven, but with fewer calories and less fat. It allows you to cook quickly and simply dishes such as French fries, fried vegetables and fish, ensuring perfect browning and crispiness.

Double sided plate BBQ. Suitable for recreating succulent and crispy dishes in the oven with the typical taste of grilled cooking. The ribbed side is particularly suitable for meats and cheeses. The smooth side for fish, seafood and vegetables.

#### BG6090-1

Cast iron grill plate suitable for Concerto cookers and BM93-BU93

#### BN620-1

Enamelled tray suitable for 45 cm and 60 cm ovens. Depth 20 mm. Perfect for a wide range of savoury and sweet baking.

#### **BN640**

Enamelled tray suitable for 45cm and 60cm ovens. Depth 540 mm. Perfect for cooking and roasting meat and fish in sauces. Also ideal for experimenting with lighter and crunchy side dishes

#### BNP608T

Teflon-coated tray, 8 mm depth, to be placed on the grid

#### **GRM**

Coffee machine support

#### **GTP**

Partially extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

#### **GTT**

Totally extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

#### KITH93

Height extension kit (950mm), black, suitable for TR93 cookers (945-960mm)

#### **PALPZ**

Pizza shovel with folding handle. Dimensions L31.5 x H32.5 cm. Easy and convenient to use and store. Perfect for serving pizza, bread and savory pastries in a safe and professional way.

SFLK1 Child lock

SMOLD

Set of 7 silicone moulds for ice creams, ice lollies, pralines, ice cubes or to portion food. Usable from -60°C to +230°C

### **WOKGHU**

Cast iron WOK Support

# Symbols glossary

<u>.2</u>.

The oven cavity has 2 different cooking levels.

	Heavy duty cast iron pan stands: for maximum stability and strength.	A Å	Energy efficiency class A
	Installation in column: Installation in column.	ø	Knobs control
<b>!!!</b>	Air cooling system: to ensure a safe surface temperatures.	DIGI screen	4.3 inch display with LED technology, usability with knobs + 3 touch keys
$\mathbb{Z}^2$	Double glazed doors: Number of glazed doors.	3	Triple glazed doors: Number of glazed doors.
	Ever Clean Enamel: Ever Clean enamel is applied electrostatically, corner to corner and edge to edge to prevent cracking or cracks over time. It is a particular pyrolytic enamel, resistant to acids which, in addition to being pleasantly bright, promotes greater cleaning of the oven walls, thanks to its lower porosity. It is baked at over 850 °C and slowly polymerized at a scientifically determined rate to ensure uniform depth and strength. Ever Clean enamel creates an impeccable finish both on the inside of the oven and on the trays, making the surfaces of the oven incredibly easy to maintain over time as it reduces the adhesion of fat during cooking.	(%)	Fan assisted: Intense and homogeneous traditional cooking, also suitable for complex recipes. The fan is active and the heat comes from below and from above at the same time. Ventilated cooking ensures a faster and more homogeneous result, leaving fragrant foods outside and moister inside. Ideal for baked pasta, biscuits, roasts and cobblers.
<b>®</b>	Circulaire: it is the perfect function for cooking all types of dishes in a more delicate way. The heat comes from the back of the oven and is distributed quickly and evenly. The fan is active. It is also ideal for cooking on multiple levels without mixing smells and flavors.		Grill: Very intense heat coming only from above from a double heating element. The fan is not active. Provides excellent grilling and gratinating results. Used at the end of cooking, it gives a uniform browning to dishes.
~	Grill element: Using of grill gives excellent results when cooking meat of medium and small portions, especially when combined with a rotisserie (where possible). Also ideal for cooking sausages and bacon.		Half grill: For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.
<b>₹</b>	Fan grill: very intense heat coming only from above from a double heating element. The fan is active. It allows the optimal grilling of thickest meats. Ideal for large cuts of meat.	恩	All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.
	The inner door glass: can be removed with a few quick movements for cleaning.	Ö	Side lights: Two opposing side lights increase visibility inside the oven.

SMEG SPA 12/12/2025

The oven cavity has 4 different cooking levels.

Electronic control: Allows you to maintain temperature inside the oven with the precision 2-3 ° C. This enables to cook meals that are very sensitive to temperature changes, such as cakes, souffles, puddings.

Tilting grill: the tilting grill can be easily unhooked to move the heating element and clean the roof of the appliance in one simple step.

Ultra rapid burners: Powerful ultra rapid burners offer up to 5kw of power.

The capacity indicates the amount of usable space in the oven cavity in litres.

The capacity indicates the amount of usable space in the oven cavity in litres.

# Benefit (TT)

#### Gas hob

Gas provides permanent control of the heat source and the temperature change is immediate

Equipped with a thermocouple, the gas supply is cut off if the flame is extinguished for greater safety.

#### **Ever Clean Enamel**

Easy oven cleaning thanks to special pyrolytic enamel

#### Touch control

Easy and intuitive timer setting with a single touch

#### True-convection

The best cooking performances guaranteed by ventilated circular flow

Multiple fans and heating elements guarantee the perfect aerodynamic heat flow, allowing homogeneous and quicker cooking inside the cavity.

#### Multilevel cooking

Several cooking levels allow maximum flexibility of use

#### Multilevel halogen light

Internal halogen lighting on different levels guarantees excellent visibility

#### Removalble inner glass

Internal door glasses are easily removable for complete cleaning

#### Tangential cooling

New cooling system with tangential fan and airflow from the door to the splashback

### Cold door

During any function, the external door glass is cold, avoiding any risk of burns

#### AirFry (AIRFRY optional accessory)

Lighter and tastier food thanks to airfry basket (optional accessory)

#### Pizza stone (optional accessory)

Baking with refractory stone for soft and crispy pizza and yeast products (STONE optional accessory)

#### BBQ (optional accessory)

Barbecue cooking directly in the oven with the double-sided grill (BBQ optional accessory)

## Adjustable height

Cooker top flushed with the working area thanks to adjustable feet

## **Isothermic Cavity**

The best cooking performance at the highest energy efficiency

## Single turbine

The oven has a fan equipped with a circular heating element allowing cooking with rotating heat
