## Symbols glossary

			Installation in column: Installation in column
	Knobs control		Air cooling system: to ensure a safe surface temperatures.
	Triple glazed doors: Number of glazed doors.		Ever Clean Enamel: Ever Clean enamel is applied electrostatically, corner to corner and edge to edge to prevent cracking or cracks over time. It is a particular pyrolytic enamel, resistant to acids which, in addition to being pleasantly bright, promotes greater cleaning of the oven walls, thanks to its lower porosity. It is baked at over 850 ° C and slowly polymerized at a scientifically determined rate to ensure uniform depth and strength Ever Clean enamel creates an impeccable finish both on the inside of the oven and on the trays, making the surfaces of the oven incredibly easy to maintain over time as it reduces the adhesion of fat during cooking
	Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.		Fan assisted: Intense and homogeneous traditional cooking, also suitable for complex recipes. The fan is active and the heat comes from below and from above at the same time. Ventilated cooking ensures a faster and more homogeneous result, leaving fragrant foods outside and moister inside. Ideal for baked pasta, biscuits, roasts and cobblers.
	Static: Traditional cooking suitable for the preparation of one dish at a time. The fan is not active and the heat comes from below and from above at the same time. Static cooking is slower and more delicate, ideal in order to get well cooked and dry dishes even inside. Ideal for cooking all types of roasts, fatty meats, bread, filled cakes.		ECO: low energy consumption cooking: this function is particularly suitable for cooking on a single shelf with low energy consumption. It is recommended for all types of food except those that can generate a lot of moisture (for example vegetables). To achieve maximum energy savings and reduce time, it is recommended to put the food in the oven without preheating the cooking compartment
	Fan grill: very intense heat coming only from above from a double heating element The fan is active. It allows the optimal grilling of thickest meats. Ideal for large cuts of meat.		All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.
	The inner door glass: can be removed with a few quick movements for cleaning.		Side lights: Two opposing side lights increase visibility inside the oven.
	Automatic opening: some models have Automatic opening door when the cycle is finished which is a perfect solution for handle-less kitchen units as no handle is needed. For safety reasons, the door locks automatically when the machine is in use to avoid it being opened inadvertently.		The oven cavity has 5 different cooking levels.
	The capacity indicates the amount of usable space in the oven cavity in litres.

## Benefit (TT)

---

### **Gas hob**

Gas provides permanent control of the heat source and the temperature change is immediate

Equipped with a thermocouple, the gas supply is cut off if the flame is extinguished for greater safety.

### **Multilevel cooking**

Several cooking levels allow maximum flexibility of use

### **Multilevel halogen light**

Internal halogen lighting on different levels guarantees excellent visibility

### **Removable inner glass**

Internal door glasses are easily removable for complete cleaning

### **Tangential cooling**

New cooling system with tangential fan and airflow from the door to the splashback

### **BBQ (optional accessory)**

Barbecue cooking directly in the oven with the double-sided grill (BBQ optional accessory)

### **Pizza stone (optional accessory)**

Baking with refractory stone for soft and crispy pizza and yeast products (STONE optional accessory)

### **Adjustable height**

Cooker top flushed with the working area thanks to adjustable feet

### **Cold door**

During any function, the external door glass is cold, avoiding any risk of burns

### **AirFry (AIRFRY optional accessory)**

Lighter and tastier food thanks to airfry basket (optional accessory)

### **Isothermic Cavity**

The best cooking performance at the highest energy efficiency

### **Single turbine**

The oven has a fan equipped with a circular heating element allowing cooking with rotating heat
