

CX91IMBL

Cooker size	90x60 cm
N. of cavities with energy label	1
Cavity heat source	ELECTRICITY
Hob type	Induction
Type of main oven	Thermoseal
Cleaning system main oven	Vapour Clean, Catalytic
EAN code	8017709343194
Energy efficiency class	A

Aesthetics

Aesthetic	Classic	Control knobs	Smeg Classic
Serie	Concerto	Controls colour	Stainless steel
Design	Standard	No. of controls	2
Colour	Black	Serigraphy colour	Silver
Finishing	Black	Display	Touch
Command panel finish	Enamelled metal	Door	Full glass
Logo	Embossed	Glass type	Black
Logo position	Facia below the oven	Handle	Smeg Classic
Hob colour	Black enamel	Handle Colour	Brushed stainless steel
Type of control setting	Touch controls	Feet	Black
Slider	Red		

Programs / Functions

No. of cooking functions	8
Traditional cooking functions	

Static

Fan assisted

Vapour Clean

Hob options

Control lock

Yes

Limited Power

Yes

Consumption Mode

Limited Power

3000, 4500, 7400 W

Consumption Mode in W

Hob technical features

Total no. of cook zones 4

Front left - Induction - single - 2.30 kW - Booster 3.00 kW - Ø 21.0 cm

Rear left - Induction - single - 1.30 kW - Booster 1.40 kW - Ø 18.0 cm

Rear right - Induction - giant - 2.30 kW - Booster 3.00 kW - Ø 21.0 cm

Front right - Induction - single - 1.30 kW - Booster 1.40 kW - Ø 18.0 cm

No. of cooking zones with Booster 4

Minimum pan diameter indication Yes

Automatic switch off when overheat Yes

Selected zone indicator Yes

Automatic pan detection Yes

Main Oven Technical Features

No. of lights 2

Fan number 2

Net volume of the cavity 115 l

Gross volume, 1st cavity 129 l

Cavity material Ever Clean enamel

No. of shelves 5

Type of shelves Metal racks

Light type Halogen

Light Power 40 W

Cooking time setting Start and Stop

Light when oven door is open Yes

Door opening Flap down

Removable door Yes

Full glass inner door Yes

Removable inner door Yes

Total no. of door glasses 2

No. of thermo-reflective door glasses 1

Safety Thermostat Yes

Cooling system Tangential

Usable cavity space dimensions (HxWxD) 371x724x418 mm

Temperature control Electro-mechanical

Lower heating element power 1700 W

Upper heating element - Power 1200 W

Grill element 1700 W

Large grill - Power 2900 W

Circular heating element - Power 2 x 1550 W

Grill type Electric

Options Main Oven

Timer	Yes	Minimum Temperature	50 °C
End of cooking acoustic alarm	Yes	Maximum temperature	260 °C

Accessories included for Main Oven & Hob

Rack with back and side stop	1	Catalytic panels	1
20mm deep tray	1		

Electrical Connection

Electrical connection rating	10600 W	Type of electric cable installed	Yes, Single phase
Current	46 A	Type of electric cable	Yes, Double and Three Phase
Voltage	220-240 V	Frequency	50/60 Hz
Voltage 2 (V)	380-415 V	Terminal block	5 poles

Compatible Accessories

AIRFRY9

Air fryer rack AIRFRY . Ideal for recreating traditional frying in the oven, but with fewer calories and less fat. It allows you to cook quickly and simply dishes such as French fries, fried vegetables and fish, ensuring perfect browning and crispiness.

BBQ9

teflon-coated aluminum grid for 90 cm cavity

BN940

GTT

Totally extractable telescopic guides (1 level) Extraction: 433 mm Material: Stainless steel AISI 430 polished

KIT90X9-1

Splash back, 90x60 cm, stainless steel, for Concerto cookers

KITPDQ

Height reduction feet (850 mm), stainless steel, for cookers

PPR9

Refractory pizza stone without handles. Squared shaped stone: L64xH2,3xP37,5 cm Suitable also for gas ovens, to be put on the griddle.

SFLK1

Child lock

AL90X9

Upstand suitable for 90 cm Concert cookers SX91

BN920

GTP

Partially extractable telescopic guides (1 level) Extraction: 300 mm Material: Stainless steel AISI 430 polished

KIT600SNL-9

Cover strip for hob back side, suitable for 90 cm Concerto cookers

KITH95

Height extension kit (950 mm), stainless steel

PALPZ

Pizza shovel with fold away handle width: 315mm length : 325mm

SCRP

Induction and ceramic hobs and teppanyaki scraper

SMOLD

Set of 7 silicone moulds for ice creams, ice lollies, pralines, ice cubes or to portion food. Usable from -60°C to +230°C

Symbols glossary

	A: Product drying performance, measured from A+++ to D / G depending on the product family		Power booster: option allows the zone to work at full power when very intense cooking is necessary.
	Catalytic cleaning: the system ensures perfect hygiene inside the oven thanks to the three self-cleaning panels coated with a special enamel that promotes the progressive elimination of traces of grease and odors caused by cooking.		Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.
	Installation in column: Installation in column		Air cooling system: to ensure a safe surface temperatures.
	Double glazed doors: Number of glazed doors.		ECO-logic: option allows you to restrict the power limit of the appliance real energy saving.
	Enamel interior: The enamel interior of all Smeg ovens have a special antacid lining which helps keep the interior clean by reducing the amount of cooking grease adhering to it.		Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.
	Fan with upper and lower elements: The elements combined with the fan aim to provide more uniform heat, a similar method to conventional cooking, so pre-heat is required. Most suitable for items requiring slow cooking methods.		Upper and lower element only: a traditional cooking method best suited for single items located in the centre of the oven. the top pf the oven will always be hottest. Ideal for roast, fruit cakes, bread etc.
	Circulaire: The combination of the fan and circular element around it gives a hot air cooking method. This provides many benefits including no preheat if cook time is more than 20 minutes, no flavour transfer when cooking different foods at the same time, less energy, and shorter cook times. Good for all types of food.		ECO: The combination of the grill, fan and lower element is particularly suitable for cooking small quantities of food.
	Grill element: Using of grill gives excellent results when cooking meat of medium and small portions, especially when combined with a rotisserie (where possible). Also ideal for cooking sausages and bacon.		Half grill: For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.

	<p>Fan with grill element: The fan reduces the fierce heat from the grill, providing an excellent method of grilling various foods, chops, steaks, sausages etc. giving even browning and heat distribution, without drying out the food. The top two levels recommended for use, and the lower part of the oven can be used to keep items warm at the same time, an excellent facility when cooking a grilled breakfast. Half grill (centre portion only) is ideal for small quantities of food.</p>		<p>Giant zone: The giant zone offers extra space and flexibility.</p>
	<p>Overheat protection: The safety system that automatically turns off the hob in case of overheating of the control unit.</p>		<p>Induction: The work of these hobs is based on the principle of electromagnetic induction. The heat is generated directly in the bottom of the pan during its contact with the hob.</p>
	<p>All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.</p>		<p>The inner door glass: can be removed with a few quick movements for cleaning.</p>
	<p>Side lights: Two opposing side lights increase visibility inside the oven.</p>		<p>Automatic opening: some models have Automatic opening door when the cycle is finished which is a perfect solution for handle-less kitchen units as no handle is needed. For safety reasons, the door locks automatically when the machine is in use to avoid it being opened inadvertently.</p>
	<p>The oven cavity has 5 different cooking levels.</p>		<p>Vapour Clean: a simple cleaning function using steam to loosen deposits in the oven cavity.</p>
	<p>The capacity indicates the amount of usable space in the oven cavity in litres.</p>		<p>...</p>
	<p>Touch control</p>		

Benefit (TT)

Induction hob

Induction offers fast cooking and precise temperature control

Through the use of suitable cookware, induction is easy to use and maintain, safe and responsive

Catalysis

Easy oven cleaning through the use of catalytic panels in the cavity

This permanent process allows continuous cleaning and degreasing of the three cavity walls, starting its grease oxidation phase when the oven reaches 200°C.

Vapor Clean

By inserting water into a recess at the bottom of the cavity, steam is generated, which softens the residue and facilitates its removal

By inserting water into a recess at the bottom of the cavity, steam is generated, which softens the residue and facilitates its removal.

Touch control

Easy and intuitive timer setting with a single touch

True-convection

The best cooking performances guaranteed by ventilated circular flow.

Multiple fans and heating elements guarantee the perfect aerodynamic heat flow, allowing homogeneous and quicker cooking inside the cavity.

Multilevel cooking

Several cooking levels allow maximum flexibility of use

Multilevel halogen light

Internal halogen lighting on different levels guarantees excellent visibility

Removable inner glass

Internal door glasses are easily removable for complete cleaning

Tangential cooling

New cooling system with tangential fan and airflow from the door to the splashback

Adjustable height

Cooker top flushed with the working area thanks to adjustable feet

BBQ (optional accessory)

Barbeque cooking directly in the oven with the double-sided grill

Pizza stone (optional accessory)

Baking with refractory stone for soft and crispy pizza and yeast products (STONE optional accessory)

Cold door

During any function, the external door glass is cold, avoiding any risk of burns

AirFry (AIRFRY optional accessory)

Lighter and tastier food thanks to airfry basket

Isothermic Cavity

The best cooking performance at the highest energy efficiency

Double Turbine

The oven has two fans equipped with two circular heating elements allowing cooking with rotating heat
