CX92GMBL

Cooker size	90x60 cm
N. of cavities with energy label	2
Cavity heat source	ELECTRICITY
Hob type	Gas
Type of main oven	Thermo-ventilated
Type of second oven	Static
Cleaning system main oven	Vapor Clean
EAN code	8017709367008
Energy efficiency class	A
Energy efficiency class, second cavity	A

Aesthetics

Design	Standard	**Type of control knobs**	Smeg Classic
Command panel finish	Enamelled metal	**Controls colour**	Stainless steel
Aesthetic	Classica	**No. of controls**	8
Logo	Embossed	**Serigraphy colour**	Silver
Colour	Black	**Display name**	DigiScreen
Logo position	Facia below the oven	**Door**	Full glass
Finishing	Glossy black	**Glass type**	Black
Series	Concerto	**Handle**	Smeg Classic
Hob colour	Black enamel	**Handle Colour**	Brushed stainless steel
Type of pan stands	Cast Iron	**Feet color**	Black
Type of control setting hob	Control knobs

UR

Total no. of cook zones 5

Front left - Gas - Rapid - 3.00 kW
Rear left - Gas - Semi Rapid - 1.80 kW
Central - Gas - UR - 3.50 kW
Rear right - Gas - Semi Rapid - 1.80 kW
Front right - Gas - AUX - 1.00 kW

Type of gas burners	Standard	**Gas safety valves**	Yes
Automatic electronic ignition	Yes	**Burner caps**	Matt black enamelled

Main Oven Technical Features

No. of lights	1	**Full glass inner door**	Yes
Fan number	1	**Removable inner door**	Yes
Net volume of the cavity	70 l	**Total no. of door glasses**	3
Gross volume, 1st cavity	79 l	**No.of thermo-reflective door glasses**	1
Cavity material	Ever Clean enamel	**Safety Thermostat**	Yes
No. of shelves	5	**Cooling system**	Tangential
Type of shelves	Metal racks	**Usable cavity space dimensions (HxWxD)**	360X460X425 mm
Light type	Halogen	**Temperature control**	Electro-mechanical
Light Power	40 W	**Lower heating element power**	1200 W
Cooking time setting	Start and Stop	**Upper heating element - Power**	1000 W
Light when oven door is open	Yes	**Grill element**	1700 W
Door opening	Flap down	**Circular heating element - Power**	2000 W
Removable door	Yes	**Grill type**	Electric

Options Main Oven

Timer	Yes	**Minimum Temperature**	50 °C
End of cooking acoustic alarm	Yes	**Maximum temperature**	260 °C

Second Oven Technical Features

Net volume of the second cavity	35 l	**No. total door glasses**	3
Gross volume, 2nd cavity	36 l	**No. thermo-reflective door glasses**	1
Cavity material	Ever Clean enamel	**Safety Thermostat**	Yes
No. of shelves	4	**Cooling system**	Tangential
Type of shelves	Metal racks	**Usable cavity space dimensions (HxWxD)**	311x206x418 mm
No. of lights	1	**Temperature control**	Electro-mechanical
Light type	Incandescent	**Lower heating element - power**	700 W
Light Power	25 W	**Upper heating element - Power**	600 W
Door opening	Flap down	**Grill element - power**	1300 W
Removable door	Yes	**Large grill - Power**	1900 W
Full glass inner door	Yes	**Grill type**	Electric
Removable inner door	Yes		

Options Auxiliary Oven

Minimum Temperature	50 °C	**Maximum temperature**	245 °C

Accessories included for Main Oven & Hob

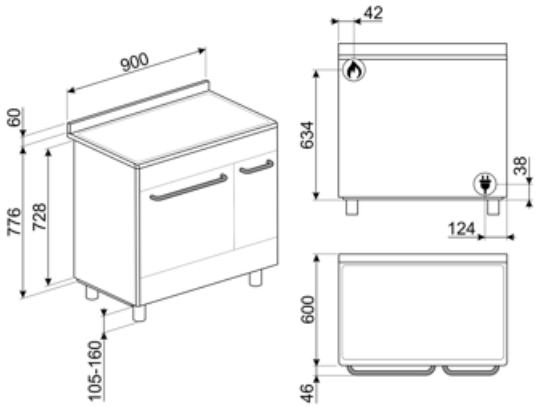

Chrome shelf, tray support	1	**40mm deep tray**	1
Rack with back and side stop	1	**Grill mesh**	1
TOP Oven grid with back stop	1	**Telescopic Guide rails, partial Extraction**	1
20mm deep tray	1		

Accessories included for Secondary Oven

Rack with back and side stop	1	**Grill mesh**	1
Wide baking tray	1		

Electrical Connection

Electrical connection rating	4800 W
Current	21 A
Voltage	220-240 V
Voltage 2 (V)	380-415 V
Electric cable	Installed, Single phase
Power supply cable length	120 cm
Additional connection modalities	Double and Three Phase
Frequency	50/60 Hz
Terminal block	5 poles
Plug	Not present

Compatible Accessories

GTP

Partially extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

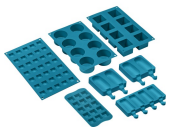

SFLK1

Child lock

GTT

Totally extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

SMOLD

Set of 7 silicone moulds for ice creams, ice lollies, pralines, ice cubes or to portion food. Usable from -60°C to +230°C

Symbols glossary

Energy efficiency class A

Installation in column: Installation in column.

Triple glazed doors: Number of glazed doors.

Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.

Static: Traditional cooking suitable for the preparation of one dish at a time. The fan is not active and the heat comes from below and from above at the same time. Static cooking is slower and more delicate, ideal in order to get well cooked and dry dishes even inside. Ideal for cooking all types of roasts, fatty meats, bread, filled cakes.

Base: the heat comes only from the bottom of the cavity. The fan is not active. Ideal for sweet and savory pies, cobblers and pizzas. Designed to complete cooking and make food more crunchy. This symbol in gas ovens indicates the gas burner.

Circulaire: it is the perfect function for cooking all types of dishes in a more delicate way. The heat comes from the back of the oven and is distributed quickly and evenly. The fan is active. It is also ideal for cooking on multiple levels without mixing smells and flavors.

Heavy duty cast iron pan stands: for maximum stability and strength.

Air cooling system: to ensure a safe surface temperatures.

Ever Clean Enamel: Ever Clean enamel is applied electrostatically, corner to corner and edge to edge to prevent cracking or cracks over time. It is a particular pyrolytic enamel, resistant to acids which, in addition to being pleasantly bright, promotes greater cleaning of the oven walls, thanks to its lower porosity. It is baked at over 850 °C and slowly polymerized at a scientifically determined rate to ensure uniform depth and strength. Ever Clean enamel creates an impeccable finish both on the inside of the oven and on the trays, making the surfaces of the oven incredibly easy to maintain over time as it reduces the adhesion of fat during cooking.

Fan assisted: Intense and homogeneous traditional cooking, also suitable for complex recipes. The fan is active and the heat comes from below and from above at the same time. Ventilated cooking ensures a faster and more homogeneous result, leaving fragrant foods outside and moister inside. Ideal for baked pasta, biscuits, roasts and cobblers.

Static: Traditional cooking suitable for the preparation of one dish at a time. The fan is not active and the heat comes from below and from above at the same time. Static cooking is slower and more delicate, ideal in order to get well cooked and dry dishes even inside. Ideal for cooking all types of roasts, fatty meats, bread, filled cakes.

Base: the heat comes only from the bottom of the cavity. The fan is not active. Ideal for sweet and savory pies, cobblers and pizzas. Designed to complete cooking and make food more crunchy This symbol in gas ovens indicates the gas burner.

ECO: low energy consumption cooking: this function is particularly suitable for cooking on a single shelf with low energy consumption. It is recommended for all types of food except those that can generate a lot of moisture (for example vegetables). To achieve maximum energy savings and reduce time, it is recommended to put the food in the oven without preheating the cooking compartment.

Grill: Very intense heat coming only from above from a double heating element. The fan is not active. Provides excellent grilling and gratinating results. Used at the end of cooking, it gives a uniform browning to dishes.

Half grill: For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.

Light

All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.

The inner door glass: can be removed with a few quick movements for cleaning.

Side lights: Two opposing side lights increase visibility inside the oven.

Automatic opening: some models have Automatic opening door when the cycle is finished which is a perfect solution for handle-less kitchen units as no handle is needed. For safety reasons, the door locks automatically when the machine is in use to avoid it being opened inadvertently.

The oven cavity has 4 different cooking levels.

The oven cavity has 5 different cooking levels.

Telescopic rails: allow you to pull out the dish and check it without having to remove it from the oven entirely.

Electronic control: Allows you to maintain temperature inside the oven with the precision 2-3 ° C. This enables to cook meals that are very sensitive to temperature changes, such as cakes, souffles, puddings.

Ultra rapid burners: Powerful ultra rapid burners offer up to 5kw of power.

Vapor Clean: a simple cleaning function using steam to loosen deposits in the oven cavity.

The capacity indicates the amount of usable space in the oven cavity in litres.

The capacity indicates the amount of usable space in the oven cavity in litres.

4.3 inch display with LED technology, usability with knobs + 3 touch keys

Knobs control

Benefit (TT)

Gas hob

Gas provides permanent control of the heat source and the temperature change is immediate

Equipped with a thermocouple, the gas supply is cut off if the flame is extinguished for greater safety.

Vapor Clean

By inserting water into a recess at the bottom of the cavity, steam is generated, which softens the residue and facilitates its removal

By inserting water into a recess at the bottom of the cavity, steam is generated, which softens the residue and facilitates its removal.

Touch control

Easy and intuitive timer setting with a single touch

True-convection

The best cooking performances guaranteed by ventilated circular flow

Multiple fans and heating elements guarantee the perfect aerodynamic heat flow, allowing homogeneous and quicker cooking inside the cavity.

Multilevel cooking

Several cooking levels allow maximum flexibility of use

Multilevel halogen light

Internal halogen lighting on different levels guarantees excellent visibility

Removalble inner glass

Internal door glasses are easily removable for complete cleaning

Tangential cooling

New cooling system with tangential fan and airflow from the door to the splashback

Telescopic guides

Easy extraction and safe insertion of trays into the oven thanks to telescopic guides

Adjustable height

Cooker top flushed with the working area thanks to adjustable feet

Isothermic Cavity

The best cooking performance at the highest energy efficiency

AirFry (AIRFRY optional accessory)

Lighter and tastier food thanks to airfry basket (optional accessory)

Cold door

During any function, the external door glass is cold, avoiding any risk of burns

Pizza stone (optional accessory)

Baking with refractory stone for soft and crispy pizza and yeast products (STONE optional accessory)

BBQ (optional accessory)

Barbecue cooking directly in the oven with the double-sided grill (BBQ optional accessory)

Single turbine

The oven has a fan equipped with a circular heating element allowing cooking with rotating heat
