

CX92IMBL

| | |
|--|-------------------|
| Cooker size | 90x60 cm |
| N. of cavities with energy label | 2 |
| Cavity heat source | ELECTRICITY |
| Hob type | Induction |
| Type of main oven | Thermo-ventilated |
| Type of second oven | Static |
| Cleaning system main oven | Vapor Clean |
| EAN code | 8017709367015 |
| Energy efficiency class | A |
| Energy efficiency class, second cavity | A |

Aesthetics

Main Oven Technical Features

| | | | |
|-------------------------------------|-------------------|---|--------------------|
| No. of lights | 1 | Full glass inner door | Yes |
| Fan number | 1 | Removable inner door | Yes |
| Net volume of the cavity | 70 l | Total no. of door glasses | 3 |
| Gross volume, 1st cavity | 79 l | No. of thermo-reflective door glasses | 1 |
| Cavity material | Ever Clean enamel | Safety Thermostat | Yes |
| No. of shelves | 5 | Cooling system | Tangential |
| Type of shelves | Metal racks | Usable cavity space dimensions (HxWxD) | 360X460X425 mm |
| Light type | Halogen | Temperature control | Electro-mechanical |
| Light Power | 40 W | Lower heating element power | 1200 W |
| Cooking time setting | Start and Stop | Upper heating element - Power | 1000 W |
| Light when oven door is open | Yes | Grill element | 1700 W |
| Door opening | Flap down | Circular heating element - Power | 2000 W |
| Removable door | Yes | Grill type | Electric |

Options Main Oven

| | | | |
|--------------------------------------|-----|----------------------------|--------|
| Timer | Yes | Minimum Temperature | 50 °C |
| End of cooking acoustic alarm | Yes | Maximum temperature | 260 °C |

Second Oven Technical Features

| | | | |
|--|-------------------|---|--------------------|
| Net volume of the second cavity | 35 l | No. total door glasses | 3 |
| Gross volume, 2nd cavity | 36 l | No. thermo-reflective door glasses | 1 |
| Cavity material | Ever Clean enamel | Safety Thermostat | Yes |
| No. of shelves | 4 | Cooling system | Tangential |
| Type of shelves | Metal racks | Usable cavity space dimensions (HxWxD) | 311x206x418 mm |
| No. of lights | 1 | Temperature control | Electro-mechanical |
| Light type | Incandescent | Lower heating element - power | 700 W |
| Light Power | 25 W | Upper heating element - Power | 600 W |
| Door opening | Flap down | Grill element - power | 1300 W |
| Removable door | Yes | Large grill - Power | 1900 W |
| Full glass inner door | Yes | Grill type | Electric |
| Removable inner door | Yes | | |

Options Auxiliary Oven

| | | | |
|----------------------------|-------|----------------------------|--------|
| Minimum Temperature | 50 °C | Maximum temperature | 245 °C |
|----------------------------|-------|----------------------------|--------|

Accessories included for Secondary Oven

| | | | |
|-------------------------------------|---|-------------------|---|
| Rack with back and side stop | 1 | Grill mesh | 1 |
| Wide baking tray | 1 | | |

Electrical Connection

| | | | |
|-------------------------------------|-------------------|---|------------------------|
| Electrical connection rating | 11000 W | Additional connection modalities | Double and Three Phase |
| Current | 33 A | Frequency | 50/60 Hz |
| Voltage | 220-240 V | Terminal block | 5 poles |
| Voltage 2 (V) | 380-415 V | Plug | Not present |
| Cable testing | Yes, Single phase | | |

Compatible Accessories

GTP

Partially extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

SCRP

Non-scratch hob scraper - suitable for induction and ceramic hobs

SMOLD

Set of 7 silicone moulds for ice creams, ice lollies, pralines, ice cubes or to portion food. Usable from -60°C to +230°C

GTT

Totally extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

SFLK1

Child lock

Symbols glossary

| | |
|---|---|
|  Energy efficiency class A |  Installation in column: Installation in column. |
|  Air cooling system: to ensure a safe surface temperatures. |  Triple glazed doors: Number of glazed doors. |
|  ECO-logic: option allows you to restrict the power limit of the appliance real energy saving. |  Ever Clean Enamel: Ever Clean enamel is applied electrostatically, corner to corner and edge to edge to prevent cracking or cracks over time. It is a particular pyrolytic enamel, resistant to acids which, in addition to being pleasantly bright, promotes greater cleaning of the oven walls, thanks to its lower porosity. It is baked at over 850 °C and slowly polymerized at a scientifically determined rate to ensure uniform depth and strength. Ever Clean enamel creates an impeccable finish both on the inside of the oven and on the trays, making the surfaces of the oven incredibly easy to maintain over time as it reduces the adhesion of fat during cooking. |
|  Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food. |  Fan assisted: Intense and homogeneous traditional cooking, also suitable for complex recipes. The fan is active and the heat comes from below and from above at the same time. Ventilated cooking ensures a faster and more homogeneous result, leaving fragrant foods outside and moister inside. Ideal for baked pasta, biscuits, roasts and cobblers. |
|  Static: Traditional cooking suitable for the preparation of one dish at a time. The fan is not active and the heat comes from below and from above at the same time. Static cooking is slower and more delicate, ideal in order to get well cooked and dry dishes even inside. Ideal for cooking all types of roasts, fatty meats, bread, filled cakes. |  Base: the heat comes only from the bottom of the cavity. The fan is not active. Ideal for sweet and savory pies, cobblers and pizzas. Designed to complete cooking and make food more crunchy. This symbol in gas ovens indicates the gas burner. |
|  Circulaire: it is the perfect function for cooking all types of dishes in a more delicate way. The heat comes from the back of the oven and is distributed quickly and evenly. The fan is active. It is also ideal for cooking on multiple levels without mixing smells and flavors. |  ECO: low energy consumption cooking: this function is particularly suitable for cooking on a single shelf with low energy consumption. It is recommended for all types of food except those that can generate a lot of moisture (for example vegetables). To achieve maximum energy savings and reduce time, it is recommended to put the food in the oven without preheating the cooking compartment. |
|  Grill: Very intense heat coming only from above from a double heating element. The fan is not active. Provides excellent grilling and gratinating results. Used at the end of cooking, it gives a uniform browning to dishes. |  Light |

-
- | | | | |
|--|--|---|---|
|  | Giant zone: The giant zone offers extra space and flexibility. |  | Induction: The work of these hobs is based on the principle of electromagnetic induction. The heat is generated directly in the bottom of the pan during its contact with the hob. |
|  | All glass inner door: All glass inner door, a single flat surface which is simple to keep clean. |  | The inner door glass: can be removed with a few quick movements for cleaning. |
|  | Side lights: Two opposing side lights increase visibility inside the oven. |  | Automatic opening: some models have Automatic opening door when the cycle is finished which is a perfect solution for handle-less kitchen units as no handle is needed. For safety reasons, the door locks automatically when the machine is in use to avoid it being opened inadvertently. |
|  | The oven cavity has 4 different cooking levels. |  | The oven cavity has 5 different cooking levels. |
|  | Electronic control: Allows you to maintain temperature inside the oven with the precision 2-3 ° C. This enables to cook meals that are very sensitive to temperature changes, such as cakes, souffles, puddings. |  | Vapor Clean: a simple cleaning function using steam to loosen deposits in the oven cavity. |
|  | The capacity indicates the amount of usable space in the oven cavity in litres. |  | The capacity indicates the amount of usable space in the oven cavity in litres. |
|  | 4.3 inch display with LED technology, usability with knobs + 3 touch keys |  | Touch control |

Benefit (TT)

Induction hob

Induction offers fast cooking and precise temperature control

Through the use of suitable cookware, induction is easy to use and maintain, safe and responsive.

Vapor Clean

By inserting water into a recess at the bottom of the cavity, steam is generated, which softens the residue and facilitates its removal

By inserting water into a recess at the bottom of the cavity, steam is generated, which softens the residue and facilitates its removal.

Touch control

Easy and intuitive timer setting with a single touch

True-convection

The best cooking performances guaranteed by ventilated circular flow

Multiple fans and heating elements guarantee the perfect aerodynamic heat flow, allowing homogeneous and quicker cooking inside the cavity.

Multilevel cooking

Several cooking levels allow maximum flexibility of use

Multilevel halogen light

Internal halogen lighting on different levels guarantees excellent visibility

Removable inner glass

Internal door glasses are easily removable for complete cleaning

Tangential cooling

New cooling system with tangential fan and airflow from the door to the splashback

Adjustable height

Cooker top flushed with the working area thanks to adjustable feet

Isothermic Cavity

The best cooking performance at the highest energy efficiency

AirFry (AIRFRY optional accessory)

Lighter and tastier food thanks to airfry basket (optional accessory)

Cold door

During any function, the external door glass is cold, avoiding any risk of burns

Pizza stone (optional accessory)

Baking with refractory stone for soft and crispy pizza and yeast products (STONE optional accessory)

BBQ (optional accessory)

Barbecue cooking directly in the oven with the double-sided grill (BBQ optional accessory)

Single turbine

The oven has a fan equipped with a circular heating element allowing cooking with rotating heat
