Symbols glossary

Easy Iron: this is an option which can be selected to ensure the finished laundry is left with less creases to make ironing easier.

Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.

A+++: Appliances with this symbol can reduce energy consumption by a further 30% from the standard A energy rating.

LED display: to show programmes, functions and options selected and the time to the end of the cycle.

38 cm: Large loading hatch of 38 cm in diameter, makes laundry loading and unloading easier and faster with maximum ease of use.

End: Show the stage at which the program is in progress: the program has finished.

Internal lights: help to illuminate the inside of the drum.

Smeg's evolution towards more intelligent and eco-friendly models has led to the choice of Inverter technology, which significantly reduces consumption.

Timed program for shirts

Specific for child garments

Program for drying cotton items including sheets, pillow cases, pajamas, lingerie, tablecloths, etc

Delicate garments that allows the drying

For fiber duvets indicating suitability on the label

For synthetic fabrics without pigments and for cotton

Gentle drying for shirts in 30 min. avoiding the formation of folds

To dry wool clohtes placed on a suitable basket

Super fast 45 min: a program designed to wash small amounts of laundry fast, ideal for washing lightly soiled garments.

Wool: this programme for wool or delicate fabrics uses slower rotations of the drum to ensure the utmost care for clothing.

Shows the phase of program: Shows the phase in which the program is being.

Drying time: By setting the drying time it is possible to reach the desired drying level at low temperatures. The program stops at the end of the selected time.

Special program for garments / fabrics, such as children's clothes, which require sanitized and delicate washing.

Program dedicated to drying thick cotton laundry, such as towels, bathrobes, etc.

The noise level is minimized

This programme is suitable for outdoor clothing, waterproof jackets, jackets with inner insulation, etc. Thanks to the delicate temperature and the delicate movement of the drum, it treats the garments better to protect the external fabrics.

Program for delicately treating garments in synthetic or mixed fabrics, such as t-shirts and blouses.
