Symbols glossary

	Easy Iron: this is an option which can be selected to ensure the finished laundry is left with less creases to make ironing easier.		Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.
	Delay timer: can be set to run the programme at a convenient time or to take advantage of off-peak energy periods.		LED display: to show programmes, functions and options selected and the time to the end of the cycle.
	40 cm: Large loading hatch of 40 cm in diameter, makes laundry loading and unloading easier and faster with maximum ease of use.		End: Show the stage at which the program is in progress: the program has finished.
	Internal lights: help to illuminate the inside of the drum.		Smeg's evolution towards more intelligent and eco-friendly models has led to the choice of Inverter technology, which significantly reduces consumption.
	Noise Level: Excellent insulation and special devices keep noise to a minimum.		Use to wash your normally soiled, durable cotton and linen laundry. Although it washes longer than all other programmes, it provides high energy and water savings. Actual water temperature may be different from the stated wash temperature. When you load the machine with less laundry (e.g. ½ capacity or less), programme time may automatically get shorter. In this case, energy and water consumption will decrease more, providing a more economic wash. This programme is available in the models with the remaining time indicator.
	Program for drying cotton items including sheets, pillow cases, pajamas, lingerie, tablecloths, etc		Delicate garments that allows the drying
	For fiber duvets indicating suitability on the label		For high speed centrifuged jeans
	For synthetic fabrics without pigments and for cotton		Short ventilation for cotton and linen garments without blowing hot air
	Drying syntetic, cotton or mixed garments		Selection of timed cycles at low temperatures.
	Jeans: a washing cycle which is kind to the colour and fabric of denim whilst minimising wrinkles.		Super fast: a programme designed to wash small amounts of laundry fast, ideal for washing lightly soiled garments.
	Refresh: an ideal program to refresh the garments that have been kept for a long time indoors and eliminate unpleasant odors, without having to wash.		Gym: Gym, a cycle designed for washing lightly soiled garments, ie sports wear, this is a fast wash which is also kind to fabrics.
	Shows the phase of program: Shows the phase in which the program is being.		Special program for garments / fabrics, such as children's clothes, which require sanitized and delicate washing.

Program dedicated to drying thick cotton laundry, such as towels, bathrobes, etc.

The noise level is minimized

Program for delicately treating garments in synthetic or mixed fabrics, such as t-shirts and blouses.
