DH24UWH

EAN Code	8017709344344
UPC Code	812895026436
Product family	Tumble dryer
Installation	Freesstanding
Drying system	Heat pump condenser
Loading type	Frontal load

Aesthetic

Color	White	**Front panel type**	NovaCare
Control panel color	White	**Door color**	Black with chrome ring
LED display color	White	**Door handle color**	Black
Control buttons color	Black	**Cabinet color**	White
Control knob color	Black/Chrome		

Programs

Controls	Electronics
No. of programmes	15

Programs

Normal	Timed Dry	Quick Dry

Special programs

Denim | Quick Dry | Sportswear

Quiet | Refresh

Display

Drying Level | Program duration | Time Drying

Delay start | Residual time indicator

Display type	LED DISPLAY
Program progress indicator	
End-of-cycle indicator	
Clean-filter indicator	Yes
Indicator condense container full	Yes

Technical Features

Motor type	Inverter	**Transparent door**	Yes
Controls	Electronic	**Door size**	15 3/4 "
Drying cycle duration setting	10 to 160 minutes	**Max. door opening angle**	155 °
Cooling down phase	Yes	**Door hinges**	Right
Anti-wrinkle phase at the end of the cycle	Yes	**Reversible door**	Yes
		Child lock	Yes
Alternate drum rotation	Yes	**Condenser position**	On top
Internal light	Yes	**Heating pump system**	Yes
Combined filter	Yes	**Condenser drain hose**	Yes
Drum material	Stainless steel	**Column installation, just with compatible washing-machine**	With stacking kit, available as optional accessory
Drum volume	3,88 cu. ft.		

Performance / Energy label – Reg 2023

Noise level for the standard cotton programme at full load	66 dB(A) re 1 pW

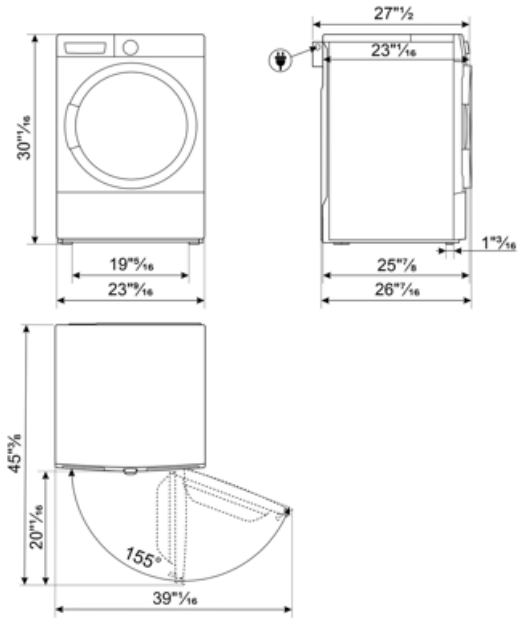

Electrical Connection

Connected power	800 W	**Frequency**	60 Hz
Current	15 A	**Power supply cable length**	59 1/16 "

Voltage (V)	210-240 V	**Plug**	(B) NEMA 14-30R

Logistic Information

Width	23 9/16 "	**Height**	33 5/16 "
Depth	26 7/16 "

Symbols glossary

Easy Iron: this is an option which can be selected to ensure the finished laundry is left with less creases to make ironing easier.

Delay timer: can be set to run the programme at a convenient time or to take advantage of off-peak energy periods.

40 cm: Large loading hatch of 40 cm in diameter, makes laundry loading and unloading easier and faster with maximum ease of use.

Internal lights: help to illuminate the inside of the drum.

Noise Level: Excellent insulation and special devices keep noise to a minimum.

PRG_DR_COTTON_72dpi

For fiber duvets indicating suitability on the label

For synthetic fabrics without pigments and for cotton

Drying syntetic, cotton or mixed garments

Jeans: a washing cycle which is kind to the colour and fabric of denim whilst minimising wrinkles.

Refresh: an ideal program to refresh the garments that have been kept for a long time indoors and eliminate unpleasant odors, without having to wash.

Shows the phase of program: Shows the phase in which the program is being.

Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.

LED display: to show programmes, functions and options selected and the time to the end of the cycle.

End: Show the stage at which the program is in progress: the program has finished.

Inverter technology: The evolution of Smeg's driers towards more intelligent and environmentally sustainable models has led to the choice of using Inverter technology with heat pumps, which reduces significantly energy consumption.

Use to wash your normally soiled, durable cotton and linen laundry. Although it washes longer than all other programmes, it provides high energy and water savings. Actual water temperature may be different from the stated wash temperature. When you load the machine with less laundry (e.g. ½ capacity or less), programme time may automatically get shorter. In this case, energy and water consumption will decrease more, providing a more economic wash. This programme is available in the models with the remaining time indicator.

Delicate garments that allows the drying

For high speed centrifuged jeans

Short ventilation for cotton and linen garments without blowing hot air

Selection of timed cycles at low temperatures

Super fast: a programme designed to wash small amounts of laundry fast, ideal for washing lightly soiled garments.

Gym: Gym, a cycle designed for washing lightly soiled garments, ie sports wear, this is a fast wash which is also kind to fabrics.

Special program for garments / fabrics, such as children's clothes, which require sanitized and delicate washing.

Program dedicated to drying thick cotton laundry, such as towels, bathrobes, etc.

Program for delicately treating garments in synthetic or mixed fabrics, such as t-shirts and blouses.

The noise level is minimized
