Symbols glossary

Easy Iron: this is an option which can be selected to ensure the finished laundry is left with less creases to make ironing easier.

Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.

A+++: Appliances with this symbol can reduce energy consumption by a further 30% from the standard A energy rating.

Energy efficiency class C

Delay timer: can be set to run the programme at a convenient time or to take advantage of offpeak energy periods.

LCD display: to optimize performance and simplify the use of the appliance.

40 cm: Large loading hatch of 40 cm in diameter, makes laundry loading and unloading easier and faster with maximum ease of use.

This shows the amount of laundry that can be inserted into the tumble dryer in KG.

Humidity sensor: allows to adjust dryer to obtain the desired drying level (Iron dry, Cupboard dry and Extra dry), saving time and reducing energy consumption. In addition, manual adjusting allows you to program drying time according to your preferences.

End: Show the stage at which the program is in progress: the program has finished.

Internal lights: help to illuminate the inside of the

Smeg's evolution towards more intelligent and eco-friendly models has led to the choice of Inverter technology, which significantly reduces consumption.

Noise Level: Excellent insulation and special devices keep noise to a minimum.

Eco 40-60: reference programme defined by EU regulations for measuring the energy performance of washing machines. Ideal for normally soiled cotton garments washable at 40 °C or 60 °C, it provides an excellent balance between cleaning performance and savings, although it requires a longer washing time.

Delicate: Clothing such as underwear, hosiery and luxury fabrics should be dried on the delicate cycle to help extend the life of the clothing.

Program for drying cotton items including sheets, pillow cases, pajamas, lingerie, tablecloths, etc

Delicate garments that allows the drying

For fiber duvets indicating suitability on the label

For high speed centrifuged jeans

For synthetic fabrics without pigments and for cotton

The noise level is reduced at the lowest level

Gentle drying for shirts avoiding the formation of folds

Drying syntetic, cotton or mixed garments

Selection of timed cycles at low temperatures.

To dry wool clohtes placed on a suitable basket

Super fast: a programme designed to wash small amounts of laundry fast, ideal for washing lightly soiled garments.

SMEG SPA 31/12/2025

Sport: programme designed to quickly wash sports and technical clothing, which undergo frequent washes, ensuring optimal hygiene and protection of the fibres.

Wool: this programme for wool or delicate fabrics uses slower rotations of the drum to ensure the utmost care for clothing.

Shows the phase of program: Shows the phase in which the program is being.

Special program for garments / fabrics, such as children's clothes, which require sanitized and delicate washing.

Program for delicately treating garments in synthetic or mixed fabrics, such as t-shirts and blouses.
