

DNP09SEBIN

EAN Code	8017709362850
Product familie	Droger
Commerciële breedte	60 cm
Commerciële diepte	Standard (54 cm)
Installatie	Vrijstaand
Droogsysteem	Condens en warmtepomp
Type lading	Voorlader

Design

Door window	Giant door	Kleur knop	Black/Chrome
Kleur	Wit	Type voorpaneel	NovaCare
Kleur voorpaneel	Wit	Kleur deur	Black with chrome ring
Kleur LED/ display	Wit	Kleur handgreep deur	Zwart
Kleur functietoetsen	Zwart	Kleur behuizing	Wit

Programma's

Bediening	Elektronisch
Grafische weergave programma's	Tekst EN
Aantal programma's	15

Symbols glossary

	Sommige modellen zijn voorzien van een functie om het programma/de cyclus te blokkeren zodat het niet per ongeluk kan aangepast worden.		A++: Energy efficiency class A++ helps to save up to 20% energy compared to class A. Maximum performance with minimum consumption is guaranteed.
	Delay timer: can be set to run the programme at a convenient time or to take advantage of off-peak energy periods.		LED display: to show programmes, functions and options selected and the time to the end of the cycle.
	40 cm: Large loading hatch of 40 cm in diameter, makes laundry loading and unloading easier and faster with maximum ease of use.		Humidity sensor: allows to adjust dryer to obtain the desired drying level (Iron dry, Cupboard dry and Extra dry), saving time and reducing energy consumption. In addition, manual adjusting allows you to program drying time according to your preferences.
	End: Show the stage at which the program is in progress: the program has finished.		Internal lights: help to illuminate the inside of the drum.
	Noise Level: Excellent insulation and special devices keep noise to a minimum.		Eco 40-60: reference programme defined by EU regulations for measuring the energy performance of washing machines. Ideal for normally soiled cotton garments washable at 40 °C or 60 °C, it provides an excellent balance between cleaning performance and savings, although it requires a longer washing time.
	Timed program for shirts		Program for drying cotton items including sheets, pillow cases, pajamas, lingerie, tablecloths, etc
	For fiber duvets indicating suitability on the label		For high speed centrifuged jeans
	Short ventilation for cotton and linen garments without blowing hot air		Selection of timed cycles at low temperatures.
	To dry wool clothes placed on a suitable basket		Shirts: Specific program that allows you to wash shirts with the utmost attention. The addition of steam at the end of the cycle ensures a reduction in the formation of creases and ironing times.
	Sport: programme designed to quickly wash sports and technical clothing, which undergo frequent washes, ensuring optimal hygiene and protection of the fibres.		Steam Option: the steam is perfect for smoothing out creases, refreshing fabrics, neutralizing odors and releasing dirt, destroying allergens more quickly than by washing the item in water.
	Shows the phase of program: Shows the phase in which the program is being.		Speciaal programma voor kledingstukken/stoffen, zoals kinderkledij, die extra onderhoud en een delicate was nodig hebben.
	Het geluidsniveau wordt beperkt		This programme is suitable for outdoor clothing, waterproof jackets, jackets with inner insulation, etc. Thanks to the delicate temperature and the delicate movement of the drum, it treats the garments better to protect the external fabrics.

Program for delicately treating garments in synthetic or mixed fabrics, such as t-shirts and blouses.
