DNP83SEUK

EAN Code	8017709327484
Product Family	Tumble dryer
Commercial width	60cm
Commercial depth	Standard (54cm)
Installation	Free-standing
Drying system	Heat pump condenser
Load type	Frontal

Aesthetics

Door window	Giant door	**Control knob colour**	Black/Chrome
Colour	White	**Front panel type**	NovaCare
Front panel colour	White	**Door colour**	Black with chrome ring
LED/display colour	White	**Door handle colour**	Black
Function button colour	Black	**Cabinet colour**	White

Programmes

Controls	Electronics
Programme graphics	Written in EN
No. of programmes	15

Programmes

Cotton ECO	Rapid	Hygiene Drying
Refresh Hygiene	Steam Refresh	Cotton
Synthetic	Silence	Outdoor

Display

Time Drying	Delay start	Residual time indicator

Visualisation of the selected options

Display type	LED DISPLAY
Programme progress indicator	
End of cycle indicator	END
Clean filter indicator	Yes
Condenser container full indicator	Yes

Technical Features

Type of motor	Brushless/Inverter
Functioning	Electronic control
Humidity sensor	Yes
Time drying selection	From 10 to 160 min
Cooling down phase	Yes
Anti-iron phase	Yes
Alternate drum rotation	Yes
Internal light	Yes
Combined filter	Yes
Fluff filter	Yes
Drum material	Stainless steel
Drum volume	110 l

Transparent door	Yes
Door size	40 cm
Max. door opening angle	160 °
Door hinges	Right
Reversible door	Yes
Child lock (programme set lock)	Yes
Water condenser position	At the top
Heating pump system	Yes
Type of cooling gas	R290
Amount of cooling gas in Kg.	0.149
Condenser water drain hose	Yes
Column installation, with compatible washing-machine	With stacking kit, available as optional accessory

Performance / Energy label – Reg 2023

Type	Condensing

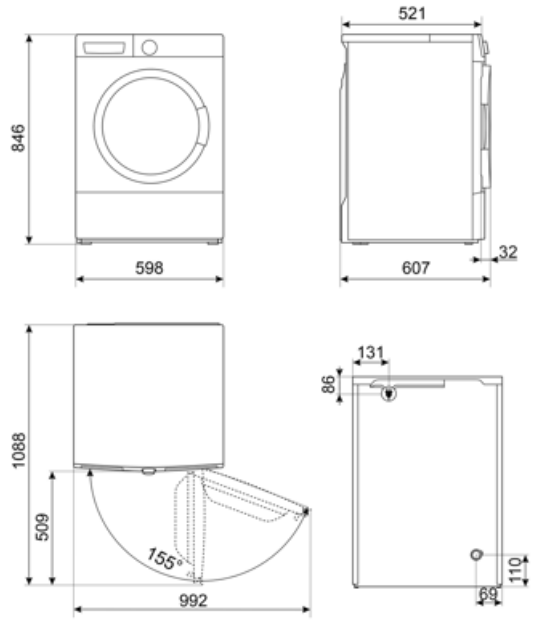

Electrical Connection

Connected power	800 W	**Frequency (Hz)**	50 Hz

Current	10 A	**Power supply cable length**	150 cm
Voltage (V)	230-240 V	**Plug**	(G) UK e Singapore

Logistic Information

Width (mm)	598 mm	**Product Height (mm)**	846 mm
Depth (mm)	607 mm

Symbols glossary

Easy Iron: this is an option which can be selected to ensure the finished laundry is left with less creases to make ironing easier.

A+++: Appliances with this symbol can reduce energy consumption by a further 30% from the standard A energy rating.

LED display: to show programmes, functions and options selected and the time to the end of the cycle.

This shows the amount of laundry that can be inserted into the tumble dryer in KG.

End: Show the stage at which the program is in progress: the program has finished.

Inverter technology: The evolution of Smeg's driers towards more intelligent and environmentally sustainable models has led to the choice of using Inverter technology with heat pumps, which reduces significantly energy consumption.

Use to wash your normally soiled, durable cotton and linen laundry. Although it washes longer than all other programmes, it provides high energy and water savings. Actual water temperature may be different from the stated wash temperature. When you load the machine with less laundry (e.g. ½ capacity or less), programme time may automatically get shorter. In this case, energy and water consumption will decrease more, providing a more economic wash. This programme is available in the models with the remaining time indicator.

Special program for garments / fabrics, such as children's clothes, which require sanitized and delicate washing.

For synthetic fabrics without pigments and for cotton

Short ventilation for cotton and linen garments without blowing hot air

Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.

Delay timer: can be set to run the programme at a convenient time or to take advantage of off-peak energy periods.

40 cm: Large loading hatch of 40 cm in diameter, makes laundry loading and unloading easier and faster with maximum ease of use.

Humidity sensor: allows to adjust dryer to obtain the desired drying level (Iron dry, Cupboard dry and Extra dry), saving time and reducing energy consumption. In addition, manual adjusting allows you to program drying time according to your preferences.

Internal lights: help to illuminate the inside of the drum.

Program for drying cotton items including sheets, pillow cases, pajamas, lingerie, tablecloths, etc

For fiber duvets indicating suitability on the label

For high speed centrifuged jeans

This programme is suitable for outdoor clothing, waterproof jackets, jackets with inner insulation, etc. Thanks to the delicate temperature and the delicate movement of the drum, it treats the garments better to protect the external fabrics.

Gentle drying for shirts avoiding the formation of folds

The noise level is minimized

To dry wool clohtes placed on a suitable basket

Steam Option: the steam is perfect for smoothing out creases, refreshing fabrics, neutralizing odors and releasing dirt, destroying allergens more quickly than by washing the item in water.

Program for delicately treating garments in synthetic or mixed fabrics, such as t-shirts and blouses.

Selection of timed cycles at low temperatures

Super fast: a programme designed to wash small amounts of laundry fast, ideal for washing lightly soiled garments.

Shows the phase of program: Shows the phase in which the program is being.
