

DNP83SEUK

EAN Code	8017709327484
Product Family	Tumble dryer
Commercial width	60cm
Commercial depth	Standard (54cm)
Installation	Free-standing
Drying system	Heat pump condenser
Load type	Frontal

## Technical Features

Type of motor	Brushless/Inverter
Functioning	Electronic control
Humidity sensor	Yes
Time drying selection	From 10 to 160 min
Cooling down phase	Yes
Anti-iron phase	Yes
Internal light	Yes
Condenser filter	Yes
Fluff filter	Yes
Drum material	Stainless steel
Drum volume	110 l
Transparent door	Yes

Door size	40 cm
Max. door opening angle	160 °
Door hinges	Right
Reversible door	Yes
Child lock (programme set lock)	Yes
Water condenser position	At the top
Heating pump system	Yes
Type of cooling gas	R290
Amount of cooling gas in Kg.	0.149
Condenser water drain hose	Yes
Column installation, with compatible washing-machine	With stacking kit, available as optional accessory

## Performance / Energy Label

Load capacity (cotton)	8 kg
Type of dryer	Heat pump condensation
Type	
Energy efficiency class	A+++
Annual energy consumption	177 KWh
Energy consumption of the standard cotton programme at full load	1.44 KWh
Energy consumption of the standard cotton programme at partial load	0.81 KWh
Power consumption of the off-mode for the standard cotton programme at full load	0.47 W

The duration of the left on mode	30 min.
Programme time of the standard cotton programme at full load	174 min.
Programme time of the standard cotton programme at partial load	108 min.
Weighted programme time of the standard cotton programme at full and partial load	136 min.
Condensation efficiency class	A
Average condensation efficiency of the standard cotton programme at full load	91 %

Power consumption of  
the left-on mode for the  
standard cotton  
programme at full load

1.0 W

Average condensation  
efficiency of the  
standard cotton  
programme at partial  
load

91 %

Average condensation  
efficiency of the  
standard cotton  
programme at full and  
partial load

91 %

Noise level for the  
standard cotton  
programme at full load

63 dB(A) re 1 pW

Stacking kit dedicated to WN & DN

## Symbols glossary

	Easy Iron: this is an option which can be selected to ensure the finished laundry is left with less creases to make ironing easier.		Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.
	A+++: Appliances with this symbol can reduce energy consumption by a further 30% from the standard A energy rating.		Delay timer: can be set to run the programme at a convenient time or to take advantage of off-peak energy periods.
	LED display: to show programmes, functions and options selected and the time to the end of the cycle.		40 cm: Large loading hatch of 40 cm in diameter, makes laundry loading and unloading easier and faster with maximum ease of use.
	This shows the amount of laundry that can be inserted into the tumble dryer in KG.		Humidity sensor: allows to adjust dryer to obtain the desired drying level (Iron dry, Cupboard dry and Extra dry), saving time and reducing energy consumption. In addition, manual adjusting allows you to program drying time according to your preferences.
	End: Show the stage at which the program is in progress: the program has finished.		Internal lights: help to illuminate the inside of the drum.
	Inverter technology: The evolution of Smeg's driers towards more intelligent and environmentally sustainable models has led to the choice of using Inverter technology with heat pumps, which reduces significantly energy consumption.		Use to wash your normally soiled, durable cotton and linen laundry. Although it washes longer than all other programmes, it provides high energy and water savings. Actual water temperature may be different from the stated wash temperature. When you load the machine with less laundry (e.g. ½ capacity or less), programme time may automatically get shorter. In this case, energy and water consumption will decrease more, providing a more economic wash. This programme is available in the models with the remaining time indicator.
	Program for drying cotton items including sheets, pillow cases, pajamas, lingerie, tablecloths, etc		For fiber duvets indicating suitability on the label
	For high speed centrifuged jeans		For synthetic fabrics without pigments and for cotton
	Short ventilation for cotton and linen garments without blowing hot air		Gentle drying for shirts avoiding the formation of folds
	Selection of timed cycles at low temperatures		To dry wool clothes placed on a suitable basket
	Super fast: a programme designed to wash small amounts of laundry fast, ideal for washing lightly soiled garments.		Steam Option: the steam is perfect for smoothing out creases, refreshing fabrics, neutralizing odors and releasing dirt, destroying allergens more quickly than by washing the item in water.
	Shows the phase of program: Shows the phase in which the program is being.		Special program for garments / fabrics, such as children's clothes, which require sanitized and delicate washing.

The noise level is minimized

This programme is suitable for outdoor clothing, waterproof jackets, jackets with inner insulation, etc. Thanks to the delicate temperature and the delicate movement of the drum, it treats the garments better to protect the external fabrics.

Program for delicately treating garments in synthetic or mixed fabrics, such as t-shirts and blouses.

---

## Benefit

---

### **15 programmes**

Up to 15 programmes to meet every daily need

### **Easy Iron Option**

The Easy Iron option gently reduces creases and keeps clothes soft, even if you can't unload them right after the cycle ends

### **Steam Energy Technology**

Perfect removal of stains, smells, creases and allergens using steam

Steam Energy technology, uses steam, at the beginning or end of the cycle depending on the programme, to remove stains, creases, smells and allergens.

### **Inverter**

Greater energy efficiency, reduced consumption, and longer lifespan by reducing wear and noise thanks to the Inverter motor

### **Duvet**

Effective drying that maintains volume and softness of duvets and upholstery, thanks to the dedicated Duvet programme

### **Hygiene Drying**

Program designed to dry items that require extra hygiene, such as baby clothes, underwear and towels, ensuring high-level hygiene through the use of heat
