

# DNP83SEUK

<b>EAN Code</b>	8017709327484
<b>Product Family</b>	Tumble dryer
<b>Commercial width</b>	60cm
<b>Commercial depth</b>	Standard (54cm)
<b>Installation</b>	Free-standing
<b>Drying system</b>	Heat pump condenser
<b>Load type</b>	Frontal

## Programmes

<b>Controls</b>	Electronics

Display type	
Programme progress indicator	
End of cycle indicator	
Clean filter indicator	Yes
Condenser container full indicator	Yes

## Technical Features

Type of motor	Brushless/Inverter	Door size	40 cm
Functioning	Electronic control	Max. door opening angle	160 °
Humidity sensor	Yes	Door hinges	Right
Time drying selection	From 10 to 160 min	Reversible door	Yes
Cooling down phase	Yes	Child lock (programme set lock)	Yes
Anti-iron phase	Yes	Water condenser position	At the top
Internal light	Yes	Heating pump system	Yes
Combined filter	Yes	Type of cooling gas	R290
Fluff filter	Yes	Amount of cooling gas in Kg.	0.149
Drum material	Stainless steel	Condenser water drain hose	Yes
Drum volume	110 l	Column installation, with compatible washing-machine	With stacking kit, available as optional accessory
Transparent door	Yes		

## Performance / Energy label – Reg 2023

Type	Condensing
------	------------

## Electrical Connection

Connected power	800 W	Frequency (Hz)	50 Hz
Current	10 A	Power supply cable length	150 cm
Voltage (V)	230-240 V	Plug	(G) UK e Singapore

## Logistic Information

Width (mm)	598 mm	Product Height (mm)	846 mm
Depth (mm)	607 mm

## Compatible Accessories

---

**KITSPNC**

**KITSTWD**

Stacking kit dedicated to WN & DN

## Symbols glossary

 A++: Appliances with this symbol can reduce energy consumption by a further 30% from the standard A energy rating.	 Easy Iron: this is an option which can be selected to ensure the finished laundry is left with less creases to make ironing easier.
 Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.	 Delay timer: can be set to run the programme at a convenient time or to take advantage of off-peak energy periods.
 LED display: to show programmes, functions and options selected and the time to the end of the cycle.	 40 cm: Large loading hatch of 40 cm in diameter, makes laundry loading and unloading easier and faster with maximum ease of use.
 This shows the amount of laundry that can be inserted into the tumble dryer in KG.	 Humidity sensor: allows to adjust dryer to obtain the desired drying level (Iron dry, Cupboard dry and Extra dry), saving time and reducing energy consumption. In addition, manual adjusting allows you to program drying time according to your preferences.
 End: Show the stage at which the program is in progress: the program has finished.	 Internal lights: help to illuminate the inside of the drum.
 Inverter technology: The evolution of Smeg's dryers towards more intelligent and environmentally sustainable models has led to the choice of using Inverter technology with heat pumps, which reduces significantly energy consumption.	 Use to wash your normally soiled, durable cotton and linen laundry. Although it washes longer than all other programmes, it provides high energy and water savings. Actual water temperature may be different from the stated wash temperature. When you load the machine with less laundry (e.g. ½ capacity or less), programme time may automatically get shorter. In this case, energy and water consumption will decrease more, providing a more economic wash. This programme is available in the models with the remaining time indicator.
 Program for drying cotton items including sheets, pillow cases, pajamas, lingerie, tablecloths, etc	 For fiber duvets indicating suitability on the label
 For high speed centrifuged jeans	 For synthetic fabrics without pigments and for cotton
 Short ventilation for cotton and linen garments without blowing hot air	 Gentle drying for shirts avoiding the formation of folds
 Selection of timed cycles at low temperatures	 To dry wool clothes placed on a suitable basket
 Super fast: a programme designed to wash small amounts of laundry fast, ideal for washing lightly soiled garments.	 Steam Option: the steam is perfect for smoothing out creases, refreshing fabrics, neutralizing odors and releasing dirt, destroying allergens more quickly than by washing the item in water.
 Shows the phase of program: Shows the phase in which the program is being.	 Special program for garments / fabrics, such as children's clothes, which require sanitized and delicate washing.

The noise level is minimized

This programme is suitable for outdoor clothing, waterproof jackets, jackets with inner insulation, etc. Thanks to the delicate temperature and the delicate movement of the drum, it treats the garments better to protect the external fabrics.

Program for delicately treating garments in synthetic or mixed fabrics, such as t-shirts and blouses.
