Symbols glossary

Easy Iron: this is an option which can be selected to ensure the finished laundry is left with less creases to make ironing easier.

Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.

A+++: Appliances with this symbol can reduce energy consumption by a further 30% from the standard A energy rating.

Delay timer: can be set to run the programme at a convenient time or to take advantage of offpeak energy periods.

LED display: to show programmes, functions and options selected and the time to the end of the cycle.

40 cm: Large loading hatch of 40 cm in diameter, makes laundry loading and unloading easier and faster with maximum ease of use.

This shows the amount of laundry that can be inserted into the tumble dryer in KG.

Humidity sensor: allows to adjust dryer to obtain the desired drying level (Iron dry, Cupboard dry and Extra dry), saving time and reducing energy consumption. In addition, manual adjusting allows you to program drying time according to your preferences.

End: Show the stage at which the program is in progress: the program has finished.

Internal lights: help to illuminate the inside of the drum.

Smeg's evolution towards more intelligent and eco-friendly models has led to the choice of Inverter technology, which significantly reduces consumption.

Use to wash your normally soiled, durable cotton and linen laundry. Although it washes longer than all other programmes, it provides high energy and water savings. Actual water temperature may be different from the stated wash temperature. When you load the machine with less laundry (e.g. ½ capacity or less), programme time may automatically get shorter. In this case, energy and water consumption will decrease more, providing a more economic wash. This programme is available in the models with the remaining time indicator.

Program for drying cotton items including sheets, pillow cases, pajamas, lingerie, tablecloths, etc

For fiber duvets indicating suitability on the label

For high speed centrifuged jeans

For synthetic fabrics without pigments and for cotton

Short ventilation for cotton and linen garments without blowing hot air

Gentle drying for shirts avoiding the formation of folds

Selection of timed cycles at low temperatures.

To dry wool clohtes placed on a suitable basket

Super fast: a programme designed to wash small amounts of laundry fast, ideal for washing lightly soiled garments.

Steam Option: the steam is perfect for smoothing out creases, refreshing fabrics, neutralizing odors and releasing dirt, destroying allergens more quickly than by washing the item in water.

Shows the phase of program: Shows the phase in which the program is being.

Special program for garments / fabrics, such as children's clothes, which require sanitized and delicate washing.

The noise level is minimized

This programme is suitable for outdoor clothing, waterproof jackets, jackets with inner insulation, etc. Thanks to the delicate temperature and the delicate movement of the drum, it treats the garments better to protect the external fabrics.

Program for delicately treating garments in synthetic or mixed fabrics, such as t-shirts and blouses.

Benefit (TT)

15 programmes

Up to 15 programmes to meet every daily need

Easy Iron Option

Riduce le pieghe mantenendo i capi morbidi, anche quando non vengono rimossi subito dopo il ciclo, grazie alla funzione Easy Iron option

Steam Energy Technology

Perfect removal of stains, smells, creases and allergens using steam

Steam Energy technology, uses steam, at the beginning or end of the cycle depending on the programme, to remove stains, creases, smells and allergens.

Inverter

Greater energy efficiency, lower consumption, and longer lifespan by reducing wear and noise thanks to the Inverter motor

Duvet

Effective drying that maintains volume and softness of duvets and upholstery, thanks to the dedicated Duvet programme

Hygiene Drying

Program designed to dry items that require extra hygiene, such as baby clothes, underwear and towels, ensuring high-level hygiene through the use of heat
