Symbols glossary

	Easy Iron: this is an option which can be selected to ensure the finished laundry is left with less creases to make ironing easier.		Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.
	A+++: Appliances with this symbol can reduce energy consumption by a further 30% from the standard A energy rating.		Energy efficiency class C
	Delay timer: can be set to run the programme at a convenient time or to take advantage of off-peak energy periods.		LCD display: to optimize performance and simplify the use of the appliance.
	40 cm: Large loading hatch of 40 cm in diameter, makes laundry loading and unloading easier and faster with maximum ease of use.		This shows the amount of laundry that can be inserted into the tumble dryer in KG.
	Humidity sensor: allows to adjust dryer to obtain the desired drying level (Iron dry, Cupboard dry and Extra dry), saving time and reducing energy consumption. In addition, manual adjusting allows you to program drying time according to your preferences.		End: Show the stage at which the program is in progress: the program has finished.
	Internal lights: help to illuminate the inside of the drum.		Inverter technology: The evolution of Smeg's driers towards more intelligent and environmentally sustainable models has led to the choice of using Inverter technology with heat pumps, which reduces significantly energy consumption.
	Use to wash your normally soiled, durable cotton and linen laundry. Although it washes longer than all other programmes, it provides high energy and water savings. Actual water temperature may be different from the stated wash temperature. When you load the machine with less laundry (e.g. ½ capacity or less), programme time may automatically get shorter. In this case, energy and water consumption will decrease more, providing a more economic wash. This programme is available in the models with the remaining time indicator.		Program for drying cotton items including sheets, pillow cases, pajamas, lingerie, tablecloths, etc
	For fiber duvets indicating suitability on the label		For high speed centrifuged jeans
	For synthetic fabrics without pigments and for cotton		Short ventilation for cotton and linen garments without blowing hot air
	Gentle drying for shirts avoiding the formation of folds		Selection of timed cycles at low temperatures
	To dry wool clothes placed on a suitable basket		Super fast: a programme designed to wash small amounts of laundry fast, ideal for washing lightly soiled garments.

Shirts: a cycle to wash shirts in a short time with the utmost care, using a delicate spin for easy ironing.

Steam Option: the steam is perfect for smoothing out creases, refreshing fabrics, neutralizing odors and releasing dirt, destroying allergens more quickly than by washing the item in water.

Special program for garments / fabrics, such as children's clothes, which require sanitized and delicate washing.

Program for delicately treating garments in synthetic or mixed fabrics, such as t-shirts and blouses.

Wool: this programme for wool or delicate fabrics uses slower rotations of the drum to ensure the utmost care for clothing.

Shows the phase of program: Shows the phase in which the program is being.

The noise level is minimized
