DNP83SLIN

EAN Code	8017709328252
Product Family	Tumble dryer
Commercial width	60cm
Commercial depth	Standard (54cm)
Installation	Free-standing
Drying system	Heat pump condenser
Load type	Frontal

Programmes

Controls	Electronics
Programme graphics	Written in IT
No. of programmes	15
Programmes	

Cotton ECO	Rapid	Hygiene Drying
Refresh Hygiene	Steam Refresh	Cotton
Synthetic	Silence	Shirts

Hygiene Drying	Refresh Hygiene	Steam Refresh
Wool	Shirts	

Display

Drying Level	Program duration	Time Drying
Delay start	Residual time indicator	

Display type		LCD DISPLAY
Programme progress indicator		(icon)
End of cycle indicator		(icon)
Clean filter indicator		Yes
Condenser container full indicator		Yes

Technical Features

Type of motor	Brushless/Inverter	Door size	40 cm
Functioning	Electronic control	Max. door opening angle	155 °
Humidity sensor	Yes	Door hinges	Right
Time drying selection	From 10 to 160 min	Reversible door	Yes
Cooling down phase	Yes	Child lock (programme set lock)	Yes
Anti-iron phase	Yes		
Internal light	Yes	Water condenser position	At the top
Condenser filter	Yes	Heating pump system	Yes
Fluff filter	Yes	Type of cooling gas	R290
Drum material	Stainless steel	Amount of cooling gas in Kg.	0.149
Drum volume	110 l		
Transparent door	Yes	Condenser water drain hose	Yes
		Column installation, with compatible washing-machine	With stacking kit, available as optional accessory

Performance / Energy label – Reg 2023

| Load capacity (cotton)	8 kg	Energy efficiency class	C
Noise level for the standard cotton programme at full load	63 dB(A) re 1 pW	Weighted energy consumption in kWh per drying cycle	0,96
Programme time of the standard cotton programme at full load	174 min	Acoustic airborne noise emission class	B
Programme time of the standard cotton programme at partial load	108 min	Condensation efficiency class (if applicable)	B
		Condensation efficiency (if applicable)	91 %
Type	Condensing		

Electrical Connection

Connected power	800 W	Frequency (Hz)	50 Hz
Current	10 A		

Voltage (V)	230-240 V	**Power supply cable length**	150 cm
		Plug	(F;E) Schuko

Logistic Information

Width (mm)	598 mm	**Product Height (mm)**	846 mm
Depth (mm)	607 mm		

Compatible Accessories

KITSPNC

Stacking kit dedicated to WN & DN

Symbols glossary

Easy Iron: this is an option which can be selected to ensure the finished laundry is left with less creases to make ironing easier.

A+++: Appliances with this symbol can reduce energy consumption by a further 30% from the standard A energy rating.

LCD display: to optimize performance and simplify the use of the appliance.

This shows the amount of laundry that can be inserted into the tumble dryer in KG.

End: Show the stage at which the program is in progress: the program has finished.

Inverter technology: The evolution of Smeg's driers towards more intelligent and environmentally sustainable models has led to the choice of using Inverter technology with heat pumps, which reduces significantly energy consumption.

Program for drying cotton items including sheets, pillow cases, pajamas, lingerie, tablecloths, etc

For high speed centrifuged jeans

Short ventilation for cotton and linen garments without blowing hot air

Selection of timed cycles at low temperatures

Super fast: a programme designed to wash small amounts of laundry fast, ideal for washing lightly soiled garments.

Wool: this programme for wool or delicate fabrics uses slower rotations of the drum to ensure the utmost care for clothing.

Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.

Delay timer: can be set to run the programme at a convenient time or to take advantage of off-peak energy periods.

40 cm: Large loading hatch of 40 cm in diameter, makes laundry loading and unloading easier and faster with maximum ease of use.

Humidity sensor: allows to adjust dryer to obtain the desired drying level (Iron dry, Cupboard dry and Extra dry), saving time and reducing energy consumption. In addition, manual adjusting allows you to program drying time according to your preferences.

Internal lights: help to illuminate the inside of the drum.

Use to wash your normally soiled, durable cotton and linen laundry. Although it washes longer than all other programmes, it provides high energy and water savings. Actual water temperature may be different from the stated wash temperature. When you load the machine with less laundry (e.g. ½ capacity or less), programme time may automatically get shorter. In this case, energy and water consumption will decrease more, providing a more economic wash. This programme is available in the models with the remaining time indicator.

For fiber duvets indicating suitability on the label

For synthetic fabrics without pigments and for cotton

Gentle drying for shirts avoiding the formation of folds

To dry wool clohtes placed on a suitable basket

Shirts: a cycle to wash shirts in a short time with the utmost care, using a delicate spin for easy ironing.

Steam Option: the steam is perfect for smoothing out creases, refreshing fabrics, neutralizing odors and releasing dirt, destroying allergens more quickly than by washing the item in water.

![smeg logo]

Shows the phase of program: Shows the phase in which the program is being.	Special program for garments / fabrics, such as children's clothes, which require sanitized and delicate washing.
The noise level is minimized	Program for delicately treating garments in synthetic or mixed fabrics, such as t-shirts and blouses.
Energy efficiency class C
