

DNP93SL

EAN Code	8017709309305
Product Family	Tumble dryer
Commercial width	60cm
Installation	Free-standing
Drying system	Heat pump condenser
Load type	Frontal

Display type	
Programme progress indicator	
End of cycle indicator	
Clean filter indicator	Yes
Condenser container full indicator	Yes

## Technical Features

Type of motor	Brushless/Inverter	Door size	40 cm
Functioning	Electronic control	Max. door opening angle	155 °
Humidity sensor	Yes	Door hinges	Right
Time drying selection	From 10 to 160 min	Reversible door	Yes
Cooling down phase	Yes	Child lock (programme set lock)	Yes
Anti-iron phase	Yes	Water condenser position	At the top
Internal light	Yes	Heating pump system	Yes
Condenser filter	Yes	Type of cooling gas	R290
Fluff filter	Yes	Amount of cooling gas in Kg.	0.140
Drum material	Stainless steel	Condenser water drain hose	Yes
Drum volume	118 l	Column installation, with compatible washing-machine	With stacking kit, available as optional accessory
Transparent door	Yes		

## Performance / Energy Label

Load capacity (cotton)	9 kg	The duration of the left on mode	30 min.
Type of dryer	Heat pump condensation	Time of the standard cotton program at full load	215 min.
Type		Time of the standard cotton program at partial load	125 min.
Energy efficiency class	A+++	Weighted programme time of the standard cotton programme at full and partial load	164 min.
Annual energy consumption	194 KWh	Condensation efficiency class	A
Energy consumption of the standard cotton programme at full load	1.62 KWh	Average condensation efficiency of the standard cotton programme at full load	91 %
Energy consumption of the standard cotton programme at partial load	0.87 KWh		
Power consumption of the off-mode for the standard cotton programme at full load	0.47 W		

Power consumption of  
the left-on mode for the  
standard cotton  
programme at full load

1.0 W

Average condensation  
efficiency of the  
standard cotton  
programme at partial  
load

91 %

Average condensation  
efficiency of the  
standard cotton  
programme at full and  
partial load

91 %

Noise level for the  
standard cotton  
programme at full load

63 dB(A) re 1 pW

### KITSPNC

Stacking kit dedicated to WN & DN Dimension (mm): L598xH35xP618

## Symbols glossary

	Easy Iron: this is an option which can be selected to ensure the finished laundry is left with less creases to make ironing easier.		Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.
	A+++: Appliances with this symbol can reduce energy consumption by a further 30% from the standard A energy rating.		Delay timer: can be set to run the programme at a convenient time or to take advantage of off-peak energy periods.
	LCD display: to optimize performance and simplify the use of the appliance.		40 cm: Large loading hatch of 40 cm in diameter, makes laundry loading and unloading easier and faster with maximum ease of use.
	Humidity sensor: allows to adjust dryer to obtain the desired drying level (Iron dry, Cupboard dry and Extra dry), saving time and reducing energy consumption. In addition, manual adjusting allows you to program drying time according to your preferences.		End: Show the stage at which the program is in progress: the program has finished.
	Internal lights: help to illuminate the inside of the drum.		Smeg's evolution towards more intelligent and eco-friendly models has led to the choice of Inverter technology, which significantly reduces consumption.
	Use to wash your normally soiled, durable cotton and linen laundry. Although it washes longer than all other programmes, it provides high energy and water savings. Actual water temperature may be different from the stated wash temperature. When you load the machine with less laundry (e.g. ½ capacity or less), programme time may automatically get shorter. In this case, energy and water consumption will decrease more, providing a more economic wash. This programme is available in the models with the remaining time indicator.		Program for drying cotton items including sheets, pillow cases, pajamas, lingerie, tablecloths, etc
	For fiber duvets indicating suitability on the label		For high speed centrifuged jeans
	For synthetic fabrics without pigments and for cotton		Short ventilation for cotton and linen garments without blowing hot air
	Gentle drying for shirts avoiding the formation of folds		Selection of timed cycles at low temperatures.
	To dry wool clothes placed on a suitable basket		Super fast: a programme designed to wash small amounts of laundry fast, ideal for washing lightly soiled garments.
	Shirts: a cycle to wash shirts in a short time with the utmost care, using a delicate spin for easy ironing.		Wool: this programme for wool or delicate fabrics uses slower rotations of the drum to ensure the utmost care for clothing.

Steam Option: the steam is perfect for smoothing out creases, refreshing fabrics, neutralizing odors and releasing dirt, destroying allergens more quickly than by washing the item in water.

Shows the phase of program: Shows the phase in which the program is being.

Special program for garments / fabrics, such as children's clothes, which require sanitized and delicate washing.

The noise level is minimized

Program for delicately treating garments in synthetic or mixed fabrics, such as t-shirts and blouses.
