Symbols glossary

A b	A: Product drying performance, measured from A+++ to D / G depending on the product family	:	Air cooling system: to ensure a safe surface temperatures.
2	Double glazed doors: Number of glazed doors.	3	Triple glazed doors: Number of glazed doors.
В	B: Product energy rating, measured from A+++ to D / G depending on the product family.	Œ	Electric
	Enamel interior: The enamel interior of all Smeg ovens have a special antacid lining which helps keep the interior clean by reducing the amount of cooking grease adhering to it.		Upper and lower element only: a traditional cooking method best suited for single items located in the centre of the oven. the top pf the oven will always be hottest. Ideal for roast, fruit cakes, bread etc.
8	Circulaire: The combination of the fan and circular element around it gives a hot air cooking method. This provides many benefits including no preheat if cook time is more than 20 minutes, no flavour transfer when cooking different foods at the same time, less energy, and shorter cook times. Good for all types of food.	ECO	ECO: The combination of the grill, fan and lower element is particularly suitable for cooking small quantities of food.
ECO	ECO: The combination of the grill, fan and lower element is particularly suitable for cooking small quantities of food.	<i>-</i>	Grill element: Using of grill gives excellent results when cooking meat of medium and small portions, especially when combined with a rotisserie (where possible). Also ideal for cooking sausages and bacon.
***	Half grill: For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.	(%)	Fan with grill element: The fan reduces the fierce heat from the grill, providing an excellent method of grilling various foods, chops, steaks, sausages etc. giving even browning and heat distribution, without drying out the food. The top two levels recommended for use, and the lower part of the oven can be used to keep items warm at the same time, an excellent facility when cooking a grilled breakfast. Half grill (centre portion only) is ideal for small quantities of food.
具	All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.		The inner door glass: can be removed with a few quick movements for cleaning.
Ö	Side lights: Two opposing side lights increase visibility inside the oven.	<u>-</u>	Rapid preheat: The rapid preheat function can be used to reach the selected temperature in just a few minutes.

The capacity indicates the amount of usable space in the oven cavity in litres.

The capacity indicates the amount of usable space in the oven cavity in litres.

The oven cavity has 2 different cooking levels.

Tilting grill: the tilting grill can be easily unhooked

to move the heating element and clean the roof of

the appliance in one simple step.

SMEG SPA 13/12/2025

35 lt

The oven cavity has 5 different cooking levels.

The capacity indicates the amount of usable

space in the oven cavity in litres.

The capacity indicates the amount of usable space in the oven cavity in litres.

The touch timer display or DigiScreen guarantees simple functionality. They display the time, set programmed cooking and the minute minder timer.

Benefit

Rapid pre-heating

Rapid pre-heating reduces cooking cavity heating time by up to 50%, so you can start cooking faster.
