

DOSF6390X

Category	60cm Double Ovens (Built-in Column)
Product Family	Oven
Power supply	Electric
Heat source	Electric
Heat source second cavity	Electric
Cooking method	Thermo-ventilated
Cooking Method Secondary Oven	Static
EAN code	8017709214203

Aesthetics

Aesthetics	Classic	Serigraphy type	Symbols
Colour	Stainless steel	Door	With 2 horizontal strips
Finishing	Fingerproof	Handle	Classic
Design	Flat	Handle Colour	Stainless steel
Material	Stainless steel	Logo	Embossed
Type of steel	Brushed	Control knobs	Classic
Glass Type	Eclipse	Controls colour	Steel effect
Serigraphy colour	Black		

Programs / Functions

No. of cooking functions	9
Automatic programmes	20
Traditional cooking functions	

 Static	 Fan assisted	 Circulaire
 Turbo (circulaire + bottom + upper + fan)	 ECO	 Large grill
 Fan grill (large)	 Base	 Fan assisted base

Other functions

Defrost by time

Defrost by weight

Proving

Sabbath

Cleaning functions

Vapor Clean

Programs / Functions Auxiliary Oven

No. of functions Secondary oven 4

Traditional cooking functions, cavity 2

Static

ECO

Small grill

Large grill

Controls

Display technology LCD
Control setting Control knobs

No. of controls 4

Options

Time-setting options Delay start and automatic end cooking

Minute minder Yes

Controls Lock / Child Safety Yes

Showroom demo option Yes

Options Auxiliary Oven

Time-setting options No delay options

Technical Features

Minimum Temperature 30 °C

Maximum temperature 280 °C

Shelf positions 5

No. of lights 1

Light type Halogen

Light power 40 W

Heating suspended when door is opened Yes

Door Fresh Touch

Removable door Yes

Full glass inner door Yes

Removable inner door Yes

Total no. of door glasses 3

Light when door is opened	Yes	Cooling system	Tangential
Lower heating element power	1200 W	Cooling duct	Double
Upper heating element - Power	1000 W	Speed Reduction Cooling System	Yes
Grill element - power	1700 W	Usable cavity space dimensions (HxWxD)	316x444x425 mm
Large grill - Power	2700 W	Temperature control	Electro-mechanical
Circular heating element - Power	2000 W	Cavity material	Easy clean enamel

Second Oven Technical Features

Minimum Temperature	50 °C	Grill element - power	1700 W
Maximum temperature	270 °C	Large grill - Power	2700 W
Shelf positions	2	Removable door	Yes
Tilting grill	Yes	Full glass inner door	Yes
No. of lights	1	Removable inner door	Yes
Light type	Halogen	No. of total door glasses	3
Light power	40 W	No. of thermoreflecting door glasses	1
Bottom heating element power	1200 W	Usable cavity space dimensions (HxWxD)	169x440x443 mm
Upper heating element - Power	1000 W		

Performance / Energy Label

Energy efficiency class	A	Energy consumption per cycle in fan-forced convection	0.80 KWh
Net volume of the cavity	70 litres	Number of cavities	2
Energy consumption per cycle in conventional mode	0.99 KWh	Energy efficiency index	95,2 %
Energy consumption in conventional mode	3.56 MJ	Energy Efficiency Index, second cavity	105,7 %
Energy consumption in forced air convection	2.88 MJ		

Performance /Energy Label - Second Cavity

Energy efficiency class, second cavity	A	Net volume of the second cavity	35 litres
Energy efficiency class, second cavity	A	Gross volume of second cavity	41 l
Energy consumption per cycle in conventional mode, second cavity	0.74 KWh	Cavity type EN 50304 second oven	small

Consumo di energia per 2.66 MJ
ciclo in convezione
naturale, seconda
cavità

Accessories Included

Chrome shelf with back
and side stop 2
Extra deep enamelled
tray (40mm) 2

Grill mesh 2
Catalytic Panels Yes

Electrical Connection

Voltage 220-240 V
Current 26 A
Nominal power (W) 5900 W

Voltage 2 (V) 380-415 V
Frequency (Hz) 50/60 Hz
Power supply cable
length 150 cm

Compatible Accessories

GTP

****Partially extractable telescopic guides (1 level)** Extraction: 300 mm Material: Stainless steel AISI 430 polished**

GTT

****Totally extractable telescopic guides (1 level)** Extraction: 433 mm Material: Stainless steel AISI 430 polished**

Symbols glossary

	Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.		A: Product drying performance, measured from A+++ to D / G depending on the product family
	Air cooling system: to ensure a safe surface temperatures.		Defrost by time: with this function the time of thawing of foods are determined automatically.
	Defrost by weight: With this function the defrosting time is determined		Triple glazed doors: Number of glazed doors.
	Electric		Enamel interior: The enamel interior of all Smeg ovens have a special antacid lining which helps keep the interior clean by reducing the amount of cooking grease adhering to it.
	Fingerprint proof stainless steel: Fingerprint proof stainless steel keeps stainless steel looking as good as new.		Fresh Touch: Most of Smeg ovens have a "cool door." Thanks to the combination of tangential cooling and internal heat-reflecting glasses, the temperature on the outer surface of the door is maintained below 50° C. In addition to providing safety, this system protects the sides of the furniture from overheating by the oven.
	Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.		Fan with upper and lower elements: The elements combined with the fan aim to provide more uniform heat, a similar method to conventional cooking, so pre-heat is required. Most suitable for items requiring slow cooking methods.
	Upper and lower element only: a traditional cooking method best suited for single items located in the centre of the oven. the top pf the oven will always be hottest. Ideal for roast, fruit cakes, bread etc.		Lower heating element only: This function is ideal for foods that require extra base temperature without browning, e.g. pastry dishes, pizza. Also suitable for slow cooking of stews and casseroles.
	Circulaire: The combination of the fan and circular element around it gives a hot air cooking method. This provides many benefits including no preheat if cook time is more than 20 minutes, no flavour transfer when cooking different foods at the same time, less energy, and shorter cook times. Good for all types of food.		ECO: The combination of the grill, fan and lower element is particularly suitable for cooking small quantities of food.
	ECO: The combination of the grill, fan and lower element is particularly suitable for cooking small quantities of food.		Grill element: Using of grill gives excellent results when cooking meat of medium and small portions, especially when combined with a rotisserie (where possible). Also ideal for cooking sausages and bacon.

 <p>Half grill: For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.</p>	 <p>Fan with grill element: The fan reduces the fierce heat from the grill, providing an excellent method of grilling various foods, chops, steaks, sausages etc. giving even browning and heat distribution, without drying out the food. The top two levels recommended for use, and the lower part of the oven can be used to keep items warm at the same time, an excellent facility when cooking a grilled breakfast. Half grill (centre portion only) is ideal for small quantities of food.</p>
 <p>Circulaire with upper and lower elements: The use of the fan with both elements allows food to be cooked quickly and effectively, ideal for large joints that require thorough cooking. It offers a similar result to rotisserie, moving the heat around the food, instead of moving the food itself, enabling any size or shape to be cooked.</p>	 <p>All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.</p>
 <p>The inner door glass: can be removed with a few quick movements for cleaning.</p>	 <p>Side lights: Two opposing side lights increase visibility inside the oven.</p>
 <p>ECO-logic: option allows you to restrict the power limit of the appliance real energy saving.</p>	 <p>Air at 40°C provides the perfect environment for proving yeast type dough mixes. Simply select the function and place dough in the cavity for allotted</p>
 <p>Sabbath: This function allows you to cook food whilst respecting the provisions of the Jewish day of rest.</p>	 <p>The oven cavity has 2 different cooking levels.</p>
 <p>The oven cavity has 5 different cooking levels.</p>	 <p>Tilting grill: the tilting grill can be easily unhooked to move the heating element and clean the roof of the appliance in one simple step.</p>
 <p>Vapor Clean: a simple cleaning function using steam to loosen deposits in the oven cavity.</p>	 <p>The capacity indicates the amount of usable space in the oven cavity in litres.</p>
 <p>The capacity indicates the amount of usable space in the oven cavity in litres.</p>	 <p>The capacity indicates the amount of usable space in the oven cavity in litres.</p>
